

Press Release

New Appointment to the Management Board at ansa capital management

**Dr. Sascha Mergner Appointed Managing Director
Dr. Daniel Linzmeier to Leave the Company at His Own Request**

Frankfurt am Main, 27 July 2026 – Subject to approval by the relevant regulatory authorities, **Dr. Sascha Mergner** will be appointed Managing Director of the investment boutique. **Dr. Daniel Linzmeier** will leave the company in September 2026 at his own request to pursue new professional opportunities.

Dr. Daniel Linzmeier joined ansa capital management in 2015, shortly after the company was founded, and has played a pivotal role in shaping its strategic, investment and operational development. "His contribution and commitment have been truly exceptional. Our collaboration has always been built on deep trust and friendship. On behalf of the entire team, I would like to thank him sincerely for everything he has done," said Dr. Andreas Sauer, Founder and CEO of ansa capital. "We very much regret his decision to leave and wish him every success and happiness, both professionally and personally."

Dr. Sascha Mergner joined ansa capital management in early 2023 and, as Head of Portfolio Management, is responsible for the firm's investment strategies. Prior to joining ansa, the economist, who holds a doctorate, served as Managing Director at Quoniam Asset Management, where he oversaw the portfolio management of all investment strategies and was responsible for more than 120 institutional mandates with assets exceeding EUR 25 billion.

"Over the past few years, Sascha Mergner has made a significant contribution to the further development of our investment processes. He combines extensive capital markets experience and quantitative investment expertise with entrepreneurial thinking and a deep understanding of institutional investors. As Managing Director, he will continue to provide valuable strategic leadership for ansa capital management," said Dr. Andreas Sauer.

Dr. Sascha Mergner added: "I would like to thank Andreas Sauer and the entire team for the trust they have placed in me. I look forward to helping shape the continued development of ansa capital management in my new role as Managing Director."

The management changes come at a time of sustained business growth. Supported by new institutional mandates and continued net inflows, assets under management for institutional investors in Germany and internationally have recently grown to more than EUR 2.1 billion. In addition to the firm's multi-asset strategies, its actively managed quantitative equity strategies are increasingly becoming a key driver of future growth.
