STATEMENT OF COMPLIANCE FOR CARRIAGE OF CARGO IN BULK

No RTD0/OCN/20250501065856

Issued within the scope of the Bureau Veritas Marine & Offshore General Conditions.

Name of Ship BV No : 43863E	Distinctive Number or Letters	Port of Registry	Gross Tonnage	IMO Number
RIJNVLIET	PIRR	RHOON	2783	9996898

THIS IS TO CERTIFY :

That the ship is classed with the Society and can carry in solid bulk cargo as specified in Appendix 1 in compliance with the International Maritime Solid Bulk Cargoes (IMSBC) Code as amended by resolution MSC.539(107) and SOLAS 74, Regulations II-2/19 as applicable, provided that the ship is loaded in accordance with the said Regulations to the Master's satisfaction.

This Statement of Compliance is valid until 30 September 2025 subject to the conditions allowing its issuance remain unchanged.

Completion date of the survey on which this Statement is based : 01 May 2025

Issued at Rotterdam, on the 01 May 2025

BUREAU VERITAS MARINE & OFFSHORE O. Caner

This document is electronically signed and does not require a manual signature as defined in IMO guideline FAL.5-Circ.39. **Click here for the verification website**

By Order of the Secretary

The latest published Rules of the Bureau Veritas Marine & Offshore, and the General Conditions therein, are applicable.

La dernière édition des Règlements de Bureau Veritas Marine & Offshore, ainsi que les Conditions Générales qui y figurent, sont applicables. Any person not a party to the contract pursuant to which this document is delivered may not assert a claim against Bureau Veritas Marine & Offshore for any liability arising out of errors or omissions which may be contained in said document, or for errors of judgement, fault or negligence commited by personel of the Society or its Agents in the establishment or issuance of this document, and in connection with any activities for which it may provide.

Toute personne qui n'est pas partie au contrat aux termes duquel ce document est délivré ne pourra engager la responsabilité du Bureau Veritas Marine & Offshore pour les inexactitudes ou omissions qui pourraient y être relevées ainsi que pour les erreurs de jugement, fautes ou négligences commises par le personnel de la Société ou par ses agents dans l'établissement de ce document et dans l'exécution des interventions qu'il comporte.

Additional remarks (if any):

- Carriage requirements of individual schedules of solid bulk cargoes apply.
 The carriage of solid bulk cargoes is only permitted with all hatch covers of the cargo hold in closed position

APPENDIX 1 TO STATEMENT OF COMPLIANCE LIST OF CARGOES

STATEMENT OF COMPLIANCE : NAME OF SHIP : RIJNVLIET BV REGISTER : 43863E

Notes applicable for this document:

- (1) Prior to loading of this cargo, a certificate shall be provided by a competent authority or shipper stating that the material as shipped does not meet the requirement for Seed cake
- (2) Castor meal, castor pomace and castor flakes shall not be carried in bulk
- (3) The manufacturer or shipper shall give the master a certificate stating that the cargo is not class 4.2 in accordance with the results of the test approved b the competent authority. The certificate shall also state that this cargo has been weathered for not less than 13 days. This cargo shall only be accepted for loading when the actual moisture content of the cargo is not more than 10%
- (4) Prior to shipment, a certificate shall be given to the master by the shipper stating that this cargo consists of clean plastic and rubber material only.
- (5) Prior to shipment, a certificate shall be given to the master by the shipper stating that this cargo is free of oily products or oily residue and has been stored under cover but in the open air for not less than 15 days prior shipment.
- (6) Electrical equipment which is not essential for the safety and operation of the ship and which is not of a type approved for use in the considered area shall be: - completely disconnected by appropriate means other than fuses at a point external to the space - protected against unauthorized re-connection
- (7) The manufacturer or the shipper shall provide the master with a certificate stating that, after manufacture, the cargo was stored under cover, but exposed to open air for not less than three days prior to shipment.
- (8) The manufacturer or the shipper shall provide the master with a certificate stating that, after manufacture, the cargo was stored under cover, but exposed to dry weather for not less than three days prior to shipment
- (9) A certificate from a person recognized by the competent authority of the country of shipment shall be provided by the shipper to the master, prior to loading, confirming that the oil and moisture contents as described in the schedule have been met
- (10) Prior to shipment, a certificate shall be given to the master by the shipper stating that this cargo consists of clean rubber only
- (11) Prior to loading, the shipper or the manufacturer shall provide the master with a declaration stating that the cargo has been sufficiently heat-treated and is ready for loading
- (12) Prior to loading this cargo, the shipper shall provide the master with a certificate stating that the cargo is clean, dry and free from oil
- (13) The manufacturer or shipper shall give the master a certificate stating that the cargo is not class 4.2
- (14) Close or direct contact of this cargo and cargo hold lighting such as hot halogen lamps shall be avoided. Fuses to such lights shall be removed or secured while this cargo is present in the cargo space
- (15) Fine grained sulphur (flower of sulphur) shall not be transported in bulk
- (16) Prior to loading, a certificate based on test shall be provided by the manufacturer or shipper stating that the asbestos content is less than 1%
