Figma

Today's Agenda

01 What is Figma?

02 Why We Use It

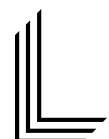

03 Basic UI Tour of Figma

04 Demo: Setting Up Your Frames

05 Basic Designing in Figma

06 Useful Shortcuts

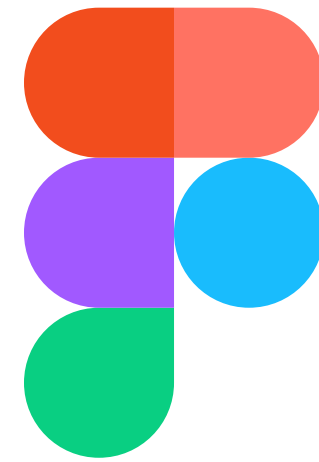

07 Wrap-Up and Preview Next Session

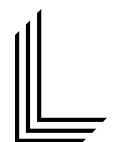

01

What is Figma?

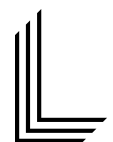

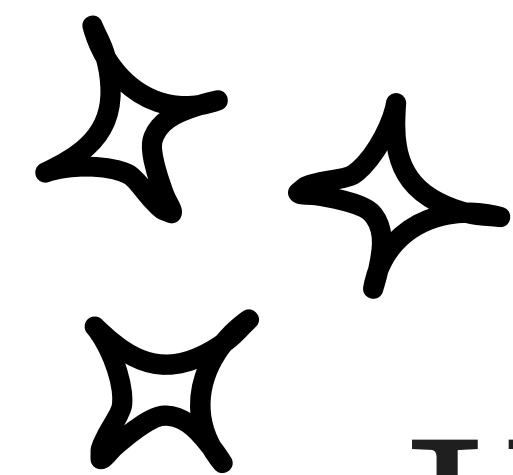

Figma is a collaborative web application for interface design.
and other visual applications

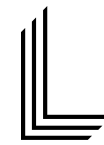

What do we use it for?

UI Design & Prototyping

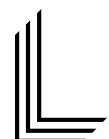

What is UI Design?

“User interface (UI) design is the process designers use to build interfaces in software or computerised devices, focusing on looks or style.”

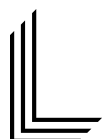

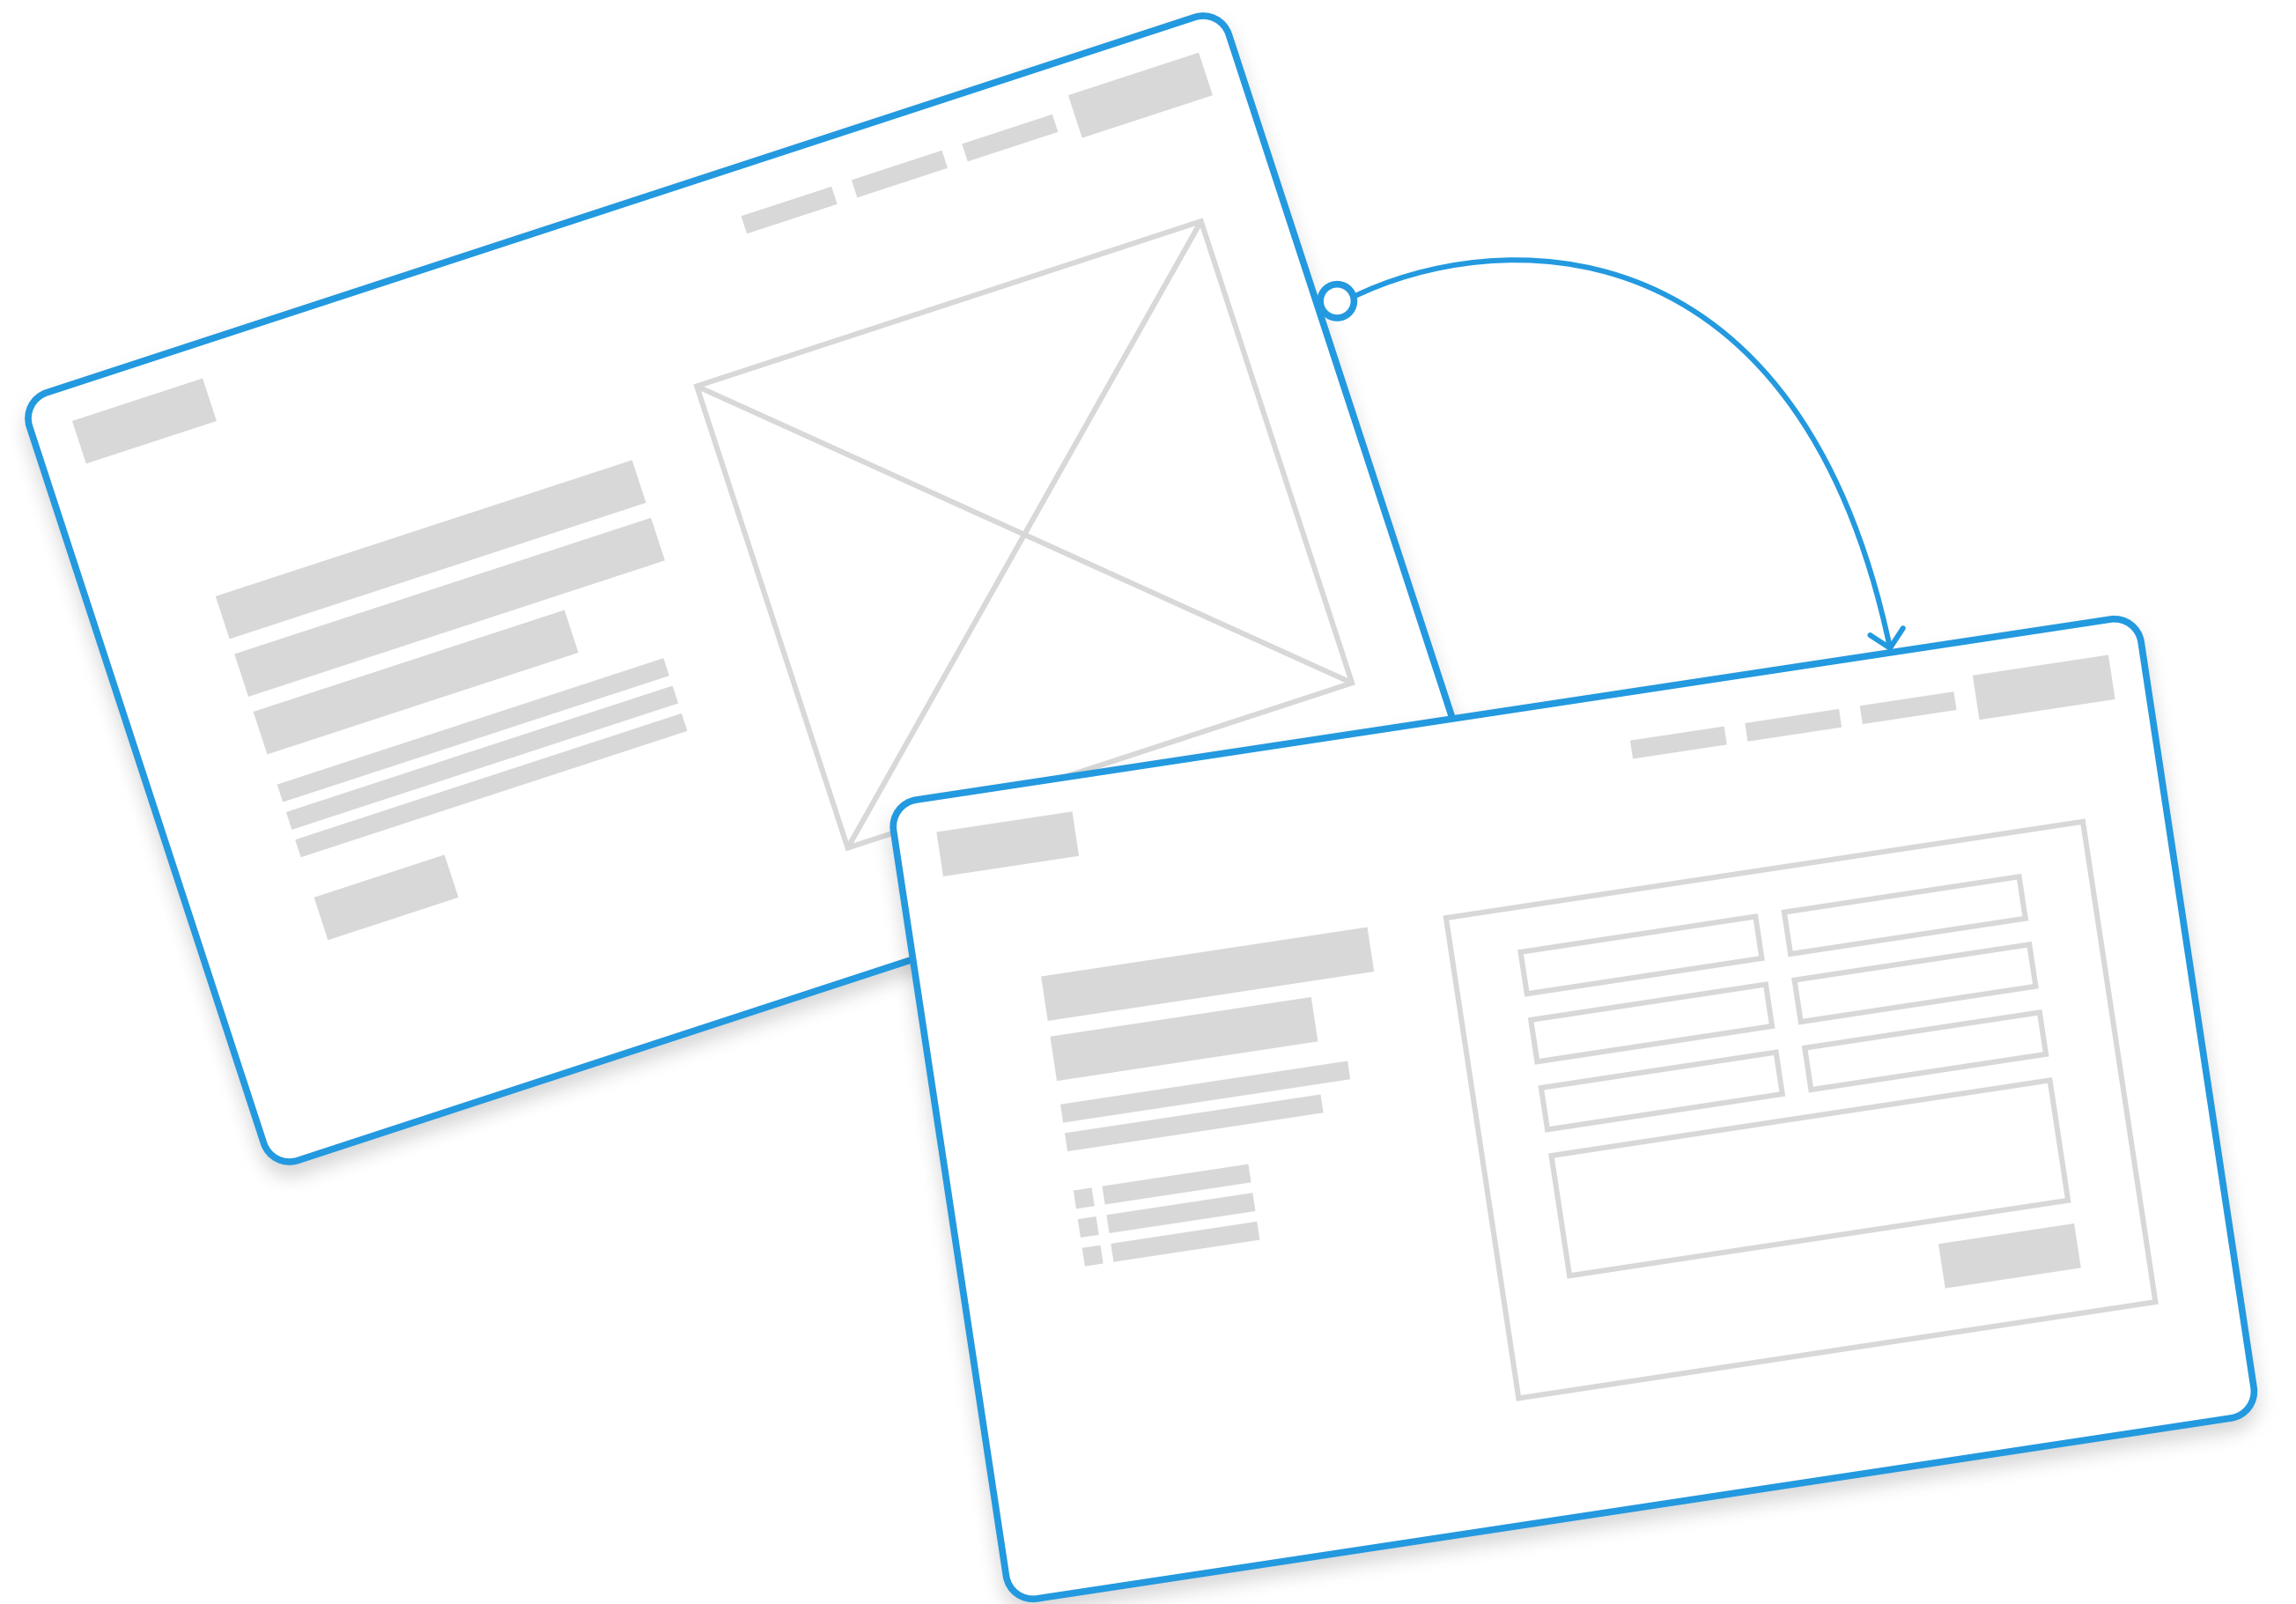

Interaction Design Foundation

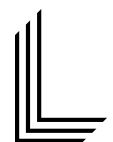

What is Prototyping?

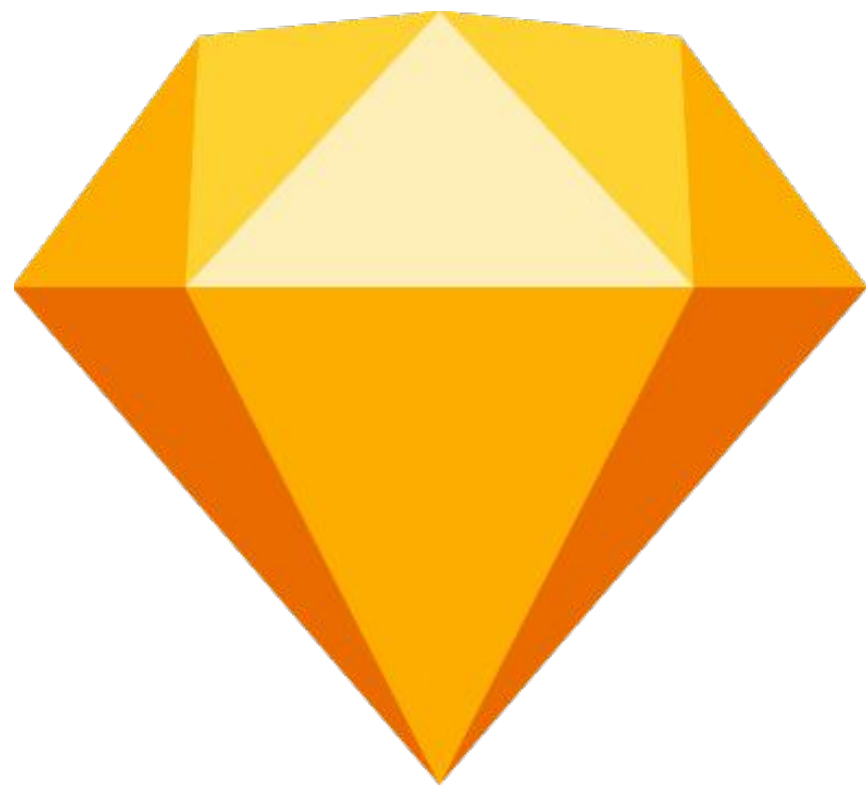

Prototyping, is turning your non-interactive, static, flat designs, into an interactive clickable... prototype.

- > Make it act like an actual website
- > Proof of concept when presenting to clients
- > User testing
- > Help devs understand the functionality of the website

What did we use before?

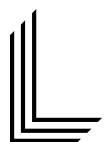

Sketch

Adobe Xd

Adobe Illustrator
