

Use Cases

Where Lightning Pay Works Best

Lightning Pay adapts seamlessly across a wide range of properties and parking models. From urban lots to hotel garages, operators are using Lightning Pay to reduce costs, increase compliance, and improve the guest experience.

Urban Lots

Encourage faster turnover and reduce unpaid stays with QR-based mobile payments.

Hotels

Minimize front desk burden and offer guests a self-directed way to manage parking.

Event Venues

Handle volume spikes by reducing entry and exit congestion without app delays.

Retail Centers

Keep premium spots available for paying customers and improve enforcement outcomes.
