

Benefit

Real-Time Operational Insights

Bolt360 provides operators with real-time performance data and guest behavior insights that support faster decision-making, smarter staffing, and continuous optimization across individual facilities and entire parking portfolios.

Live Occupancy Tracking

Monitor real-time usage and peak patterns to manage flow, staffing, and pricing effectively.

Session-Level Detail

Access transaction-level insights about guest behavior, stay durations, and usage trends.

Revenue Performance Metrics

Track sales data by day, week, or month to identify trends and improve forecasting.

Customizable Dashboards

Filter, export, and visualize KPIs to support planning, reporting, and operational improvements.
