

Benefit

Increased Revenue

Bolt360 drives revenue by increasing parking turnover, reducing drop-off, and encouraging repeat visits — all while helping operators optimize pricing and recover revenue lost to friction in traditional systems.

Higher Turnover

Faster entry and exit flow allows more paid sessions per space during peak periods.

Improved Retention

Returning customers pay faster with saved information, encouraging loyalty and repeat visits.

Fewer Abandoned Sessions

App-free access and QR scanning prevent drop-off caused by slow apps or unclear instructions.

Optimized Rate Strategy

Real-time data helps operators adjust pricing dynamically to capitalize on demand.
