

Technology & Innovation

Technology should make hospitality feel more human — not less. Propark's suite of integrated parking technologies is designed to remove friction, enhance service, and unlock new revenue opportunities for your property. Whether you're looking to modernize your operation or streamline guest interactions, our tools create a smoother experience for your guests and team.

Lightning Pay

Frictionless, Revenue-Generating Parking

No gates, no hardware — just instant monetization. Lightning Pay uses QR code technology to turn underutilized spaces into guest-friendly revenue streams, ideal for surface lots or overflow parking.

Bolt360

Simplified Access Control

Integrate seamlessly with your existing PARCS equipment. Bolt360 is a wireless, cloud-based solution that controls your parking gates with real-time monitoring, reliable access, and no downtime — perfect for hospitality environments where consistency is key.

Cloudpark Command

24/7 Guest Support

Deliver around-the-clock service with live customer support ambassadors who are trained in hospitality best practices and branded scripting. It's like having a concierge on call for your parking operation.

Enforcement Lite

Guest-Friendly Compliance

Ensure compliance without compromising the guest experience. Our non-adhesive "Guest-Friendly Notices" offer digital payment options and branded messaging that's respectful, clear, and easy to use.
