MOBILITY<sup>®</sup>

## Event Expertise

We excel at managing large crowds and ensuring efficient traffic flow during high-volume events.

## Integrated Technology

Our advanced systems streamline parking, ticketing, payments, and data management for seamless operations.

# Who We Are

Propark Mobility is a trusted provider of stadium parking solutions, specializing in high-traffic event management and customer-centric services to enhance the attendee experience.

## Our Commitment

We ensure that every event attendee enjoys a hassle-free parking experience through well-planned logistics, trained staff, and advanced technology.

## Safety-First Approach

We prioritize the safety and accessibility of all guests, ensuring an enjoyable environment for everyone.

# Core Services

We design and implement comprehensive parking strategies that match the demands of diverse stadium events.

## Traffic & Event Planning

Tailored strategies to manage traffic and parking flow for efficient event operations.

## Communications & Command Centers

Real-time communication and coordination for smooth, on-the-ground operations.

## Technology & POS Systems

Advanced technology solutions to streamline transactions and optimize event data management.

## Scalable Event Parking Solutions

Flexible parking services to accommodate any event size, from VIP events to large stadium crowds.

## Staffing & Training

Skilled personnel and comprehensive training to manage high-traffic events with efficiency.

## Stadium Management

# Traffic & Event Planning

Our event planning expertise ensures efficient traffic and parking management, reducing congestion, and enhancing event flow.

### Traffic Flow Management

Reduce congestion through strategic planning and real-time adjustments.

### Local Coordination

Work with authorities to ensure smooth logistics and effective crowd management.

### Event Parking Plans

Custom parking layouts accommodate large crowds and ensure smooth transitions.

### Safety Protocols

ADA compliance and clear, well-marked pathways provide accessibility.

### Real-Time Monitoring

Adjust parking and traffic flow dynamically to improve operational efficiency.

# Technology & POS Systems

Our advanced technology streamlines ticketing, payments, and parking management, offering real-time analytics and dynamic pricing for efficient event operations.

## Data-Driven Insights

We analyze parking trends to optimize space usage and improve overall operational efficiency during events.

## Dynamic Pricing

Our system adjusts rates based on demand and event size, maximizing revenue potential.

## Integrated Ticketing

Seamlessly connect with platforms like Ticketmaster and AXS to streamline event access and entry.

## Real-Time Analytics

Monitor occupancy, revenue, and event performance in real-time for efficient decision-making.

## POS Integration

Fast, secure payment processing ensures a smooth, reliable transaction experience for all event attendees.

# Staffing & Training

Our dedicated staff are trained to handle high-volume events, ensuring exceptional service, efficient operations, and a positive experience for all attendees.

## Comprehensive Training

Highly trained teams deliver efficient and courteous service during high-traffic events.

## Flexible Staffing Models

Scale staffing levels based on event size, ensuring effective coverage for all crowds.

## Partner Collaboration

Collaborate with trusted staffing agencies to meet large-scale event staffing needs.

## Uniformed Professionals

Enhance visibility to foster confidence and professionalism with event attendees.

## Quality Assurance

Regular assessments ensure that staff maintain excellent service standards.

### Centralized Command

Oversee parking logistics and incident management from a centralized command center for smooth operations.

### Stadium Management

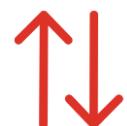

# Communication & Command Centers

Our real-time communication systems ensure smooth parking operations and seamless coordination during major events.

### Emergency Preparedness

Develop plans for rapid response to safety incidents, ensuring attendee well-being.

### Traffic Coordination

Collaborate with local transportation authorities to manage traffic flow and ensure smooth event access.

## Stadium Management

# Scalable Event Parking Solutions

From small VIP gatherings to full-capacity games, we offer scalable solutions to meet every event need.

### Major Event Preparedness

Tailored parking plans accommodate large crowds and minimize congestion.

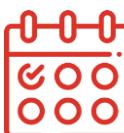

### VIP & Private Events

Premium services deliver a seamless experience for high-profile guests.

### Scalable Operations

Adjust staffing and parking plans based on event size.

### Custom Event Planning

Design unique parking layouts to accommodate diverse events.

### Private Event Expertise

Offer personalized services to create a premier experience for private groups.
