

Repairs & Maintenance

Proactive Facility Repairs & Preservation

Protect the functionality, safety, and longevity of your parking facility by eliminating the need for costly repairs and replacements.

Surface Enhancements

Protect surfaces against wear and tear with:

- Epoxy coating
- Asphalt seal coating
- Pothole & crack filling
- Expansion joint inspection & installation
- Spalling repair, & more

The Propark Approach

- Structural inspections and audits to identify and address repair items
- Replace lock-and-key fixtures or install keypads on booths to enhance safety
- Preventative maintenance services, including drain cleaning and routine upkeep

**Let's protect your facility for the long term.
