

EV Charging Solutions

Scalable EV Charging Customized for Your Operations

Propark's EV charging solutions deliver a reliable parking amenity through an operator-led, fully-managed approach.

Key Benefits

Simplify Operations

Ongoing management and support keep EV charging reliable without adding workload for on-site teams.

Scale with Demand

Flexible infrastructure adapts as EV adoption grows, allowing expansion without overbuilding upfront.

Fit Your Property

Customized configurations ensure charging aligns with site layout, usage patterns, and operational needs.

Enhance the Parking Experience

Fast, dependable charging functions as a seamless extension of your parking and mobility services.

Operator-First EV Charging

We manage EV charging as an operational service – from planning and setup to ongoing performance – so it feels seamless for your team and dependable for parkers.

Let's power a smarter EV charging experience. Support your parkers. Simplify operations. Plan for the future. Email inquiries@propark.com
