CAPEX REQUIRED

A smarter path to modern parking.

– WHY LEGACY STOPS WORKING

Traditional PARCS* are breaking your operation.

01 Aging equipment

Ticket dispensers and printers fail constantly — driving up R&M and creating queue backups at peak hours.

02 Fragmented vendors

Multiple third-party systems mean no single owner — and nobody on the hook when something breaks.

03 Inflated fees

Recurring licensing, upfront CapEx, and unpredictable service contracts eat into NOI.

04 Poor parker experience

Lost tickets. Long lines. Frustrated guests. Modern parking should feel seamless.

* PARCS = Parking Access & Revenue Control Systems

Every minute spent at the gate is a minute of **lost revenue** and a parker that won't come back.

- BOLT 360 LPR

Fully automatic parking.

License plate recognition does everything. Gates open automatically. Payment processes on exit. Your parkers never touch a phone, pull a ticket, or stop at a kiosk.

01 Drive in	02 Park	03 Drive out
----------------	------------	-----------------

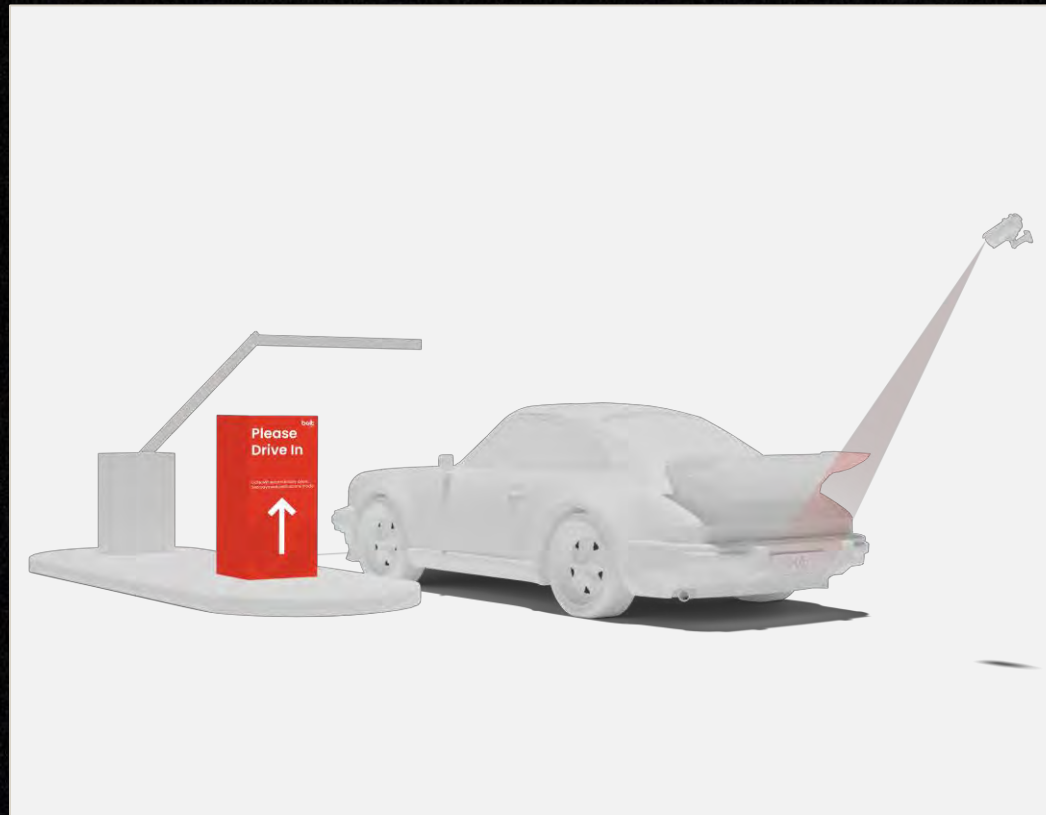

- A** 4K LPR cameras at every lane
Read plates on entry and exit. Gate opens automatically — zero dwell time.
- B** Auto-charge on exit
Saved payment card charged automatically. Receipt emailed instantly.
- C** First-timer QR onboarding
New parkers scan once, create an account, and every visit after is fully hands-free.
- D** No PARCS required
Works with existing gates or goes fully standalone. Avoid costly equipment replacements.

- THE PARKER JOURNEY

Drive in. Park. Drive out.

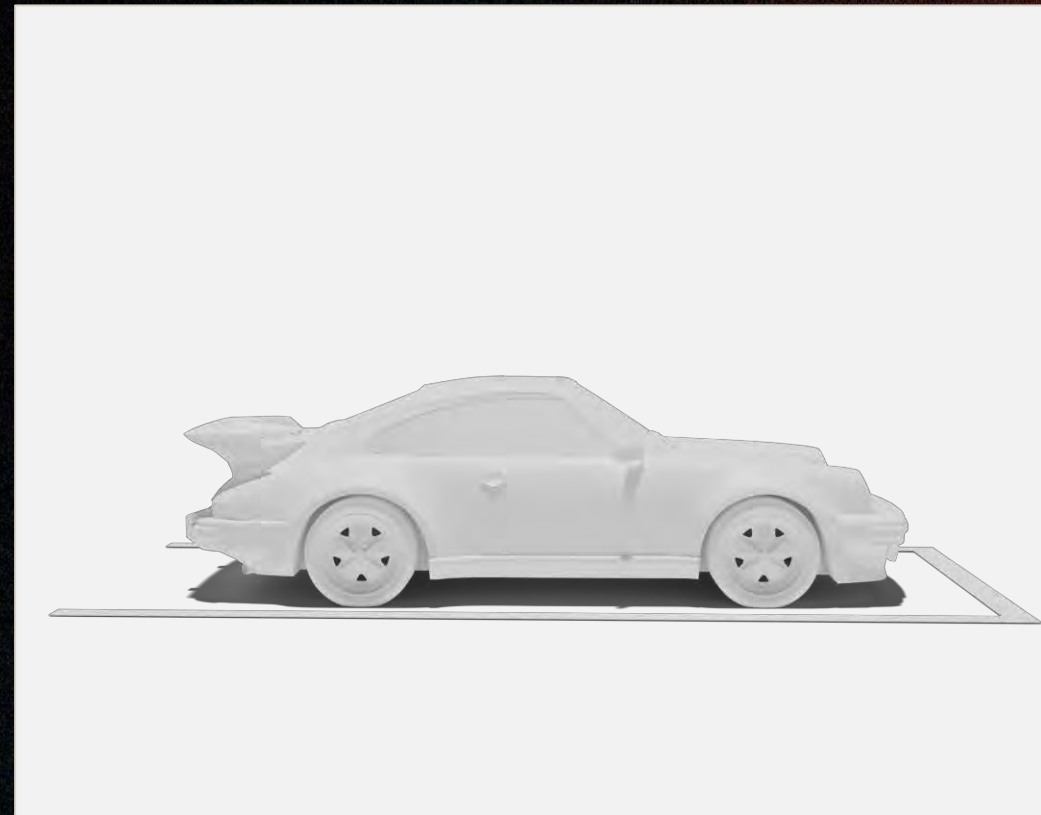

01 / DRIVE IN

Camera reads the plate.

Gate opens automatically. No stopping. No scanning.
Just drive.

02 / PARK

Park as normal.

Occupancy data and vehicle tracking run silently in the
background.

03 / DRIVE OUT

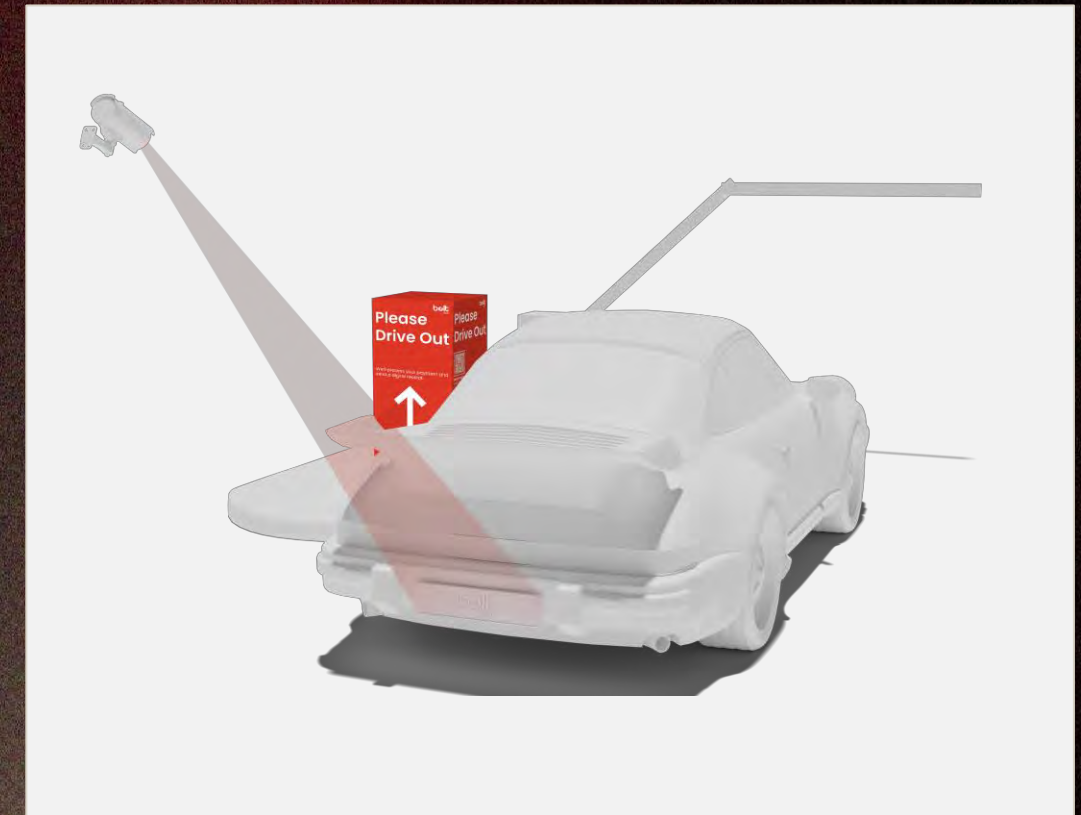

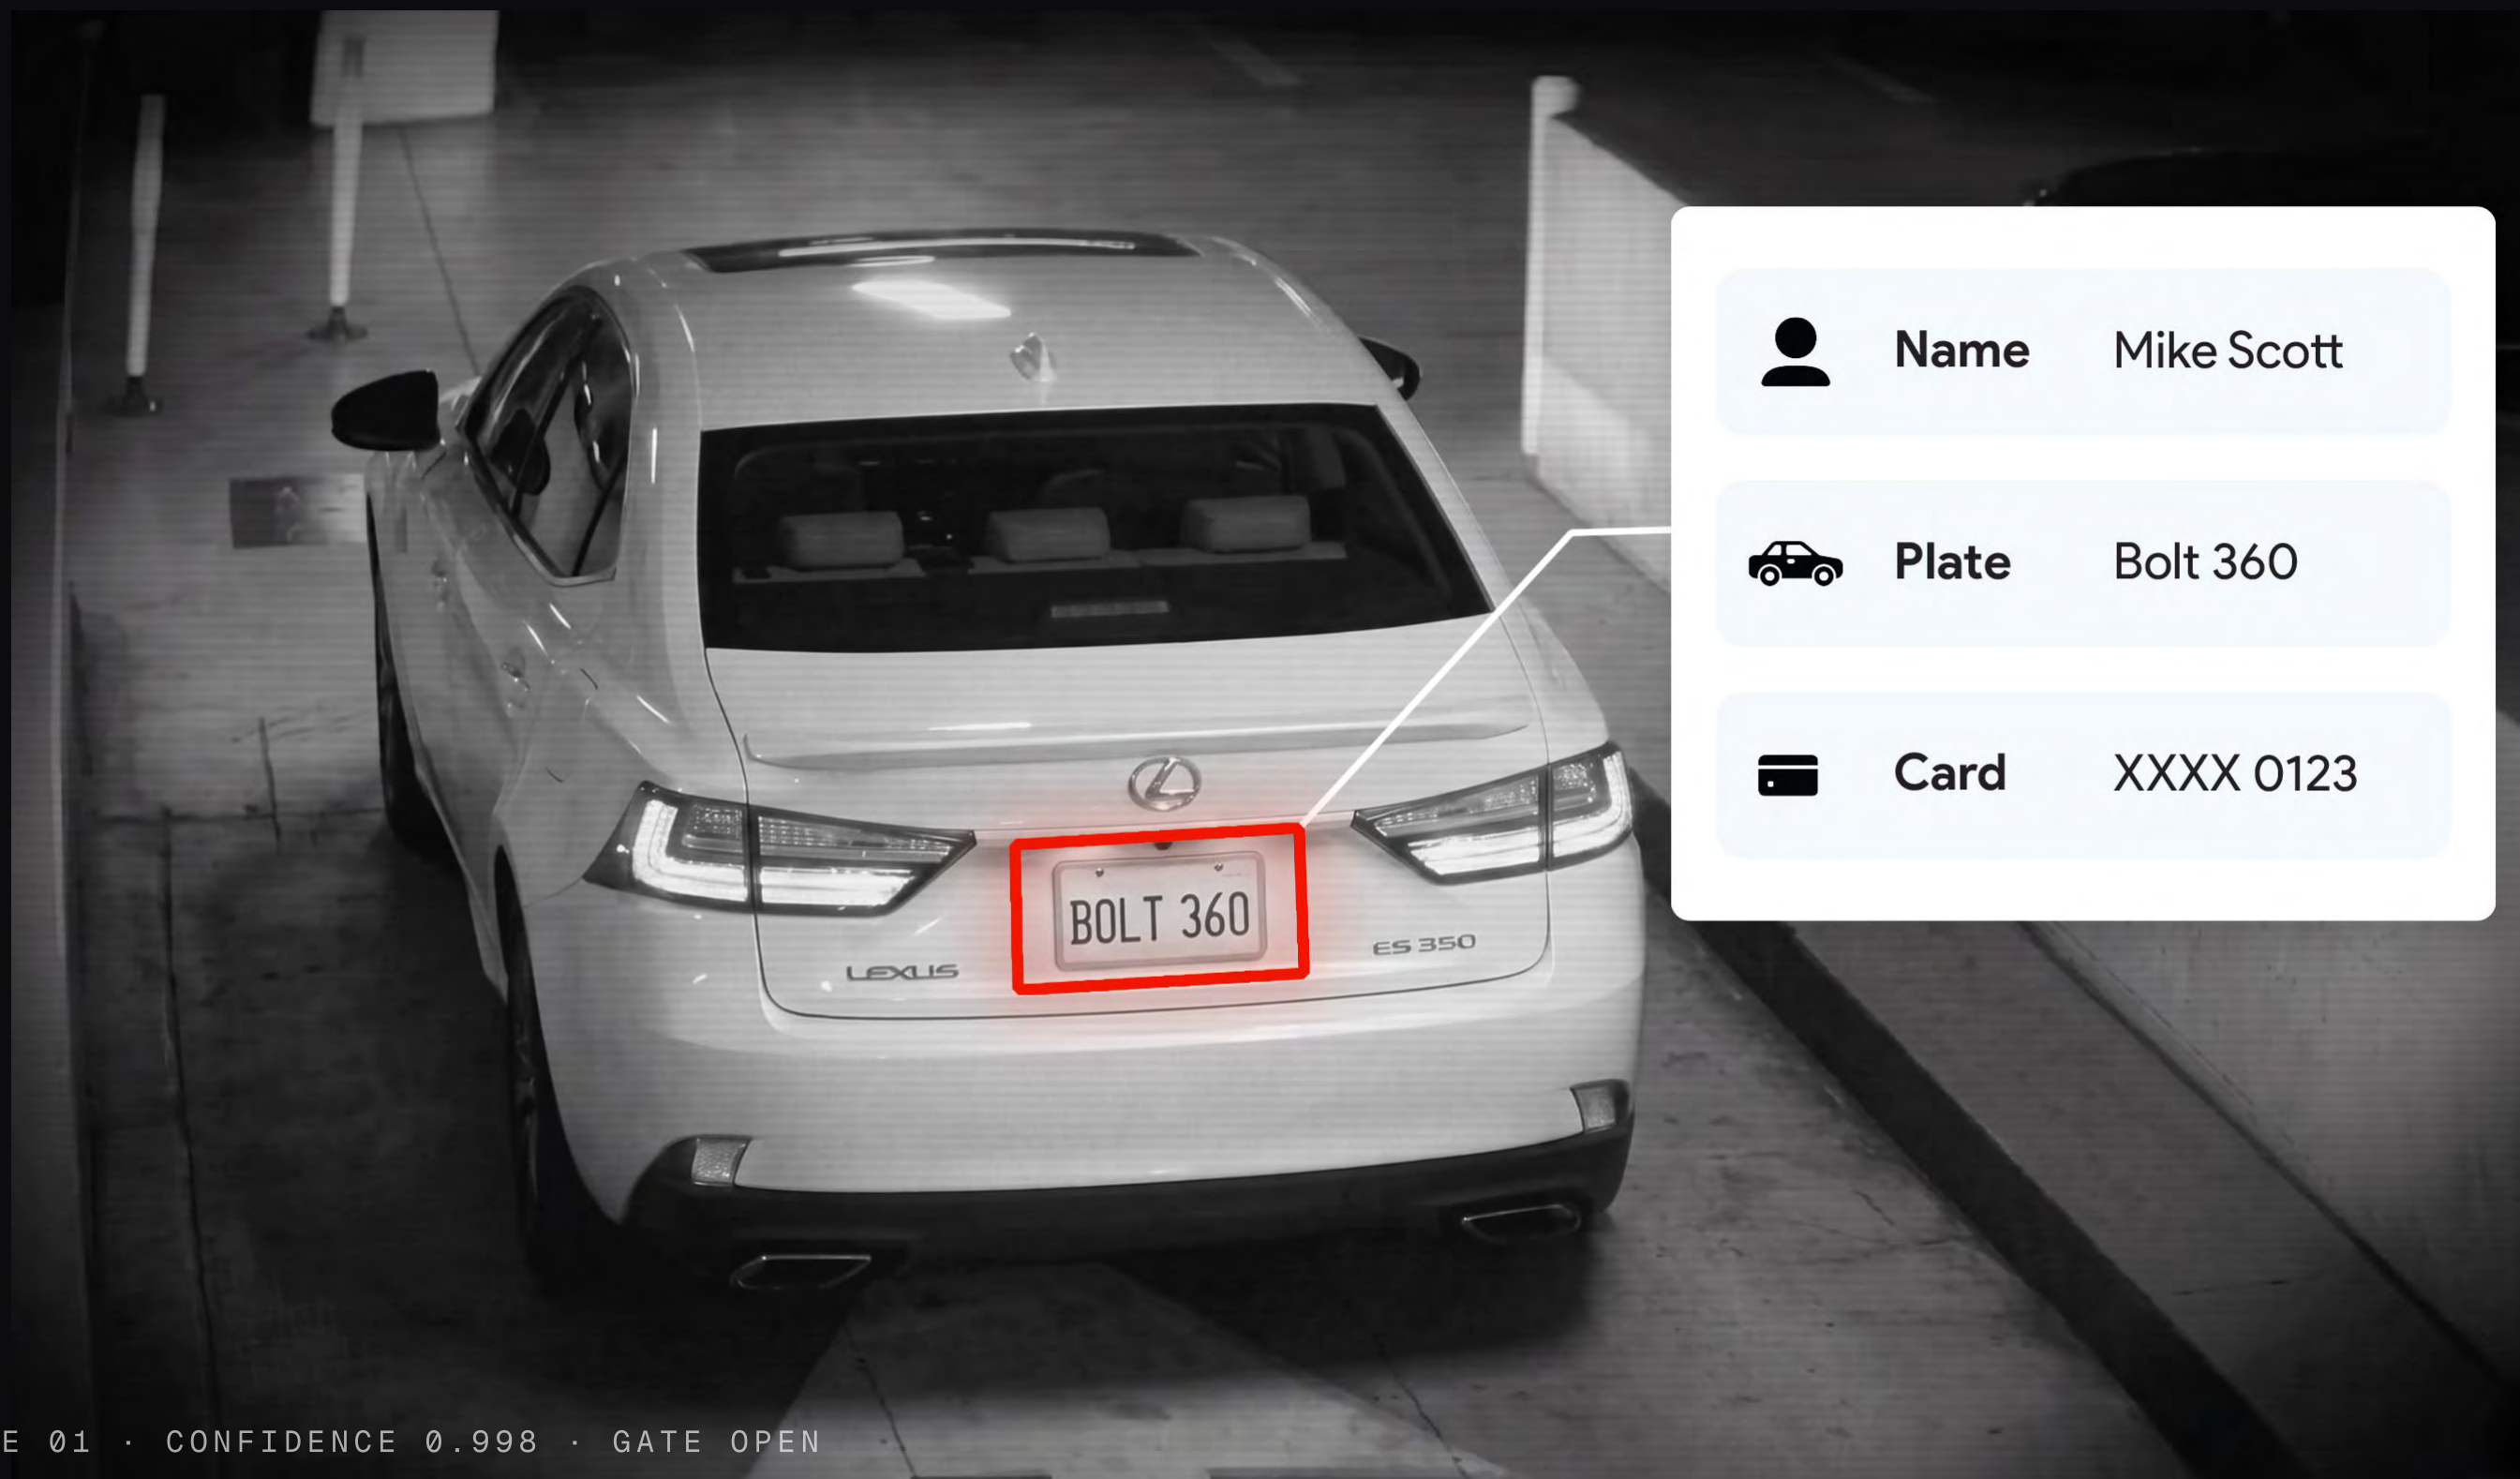

Plate recognized, card charged.

Gate lifts. Receipt emailed before you're back on the road.

● LPR ACTIVE · LANE 01 · CONFIDENCE 0.998 · GATE OPEN

Sub-second reads. Any plate. Any lighting. **Day or night.**

- WHAT'S IN THE KIT

Everything you need. **Nothing you don't.**

01

4K LPR cameras

High-precision cameras at entry and exit. Reads every plate in any lighting condition, day or night.

02

Instant gate open

Sub-second activation on LPR match. Maximum throughput, zero backup at peak.

03

Auto payment on exit

Saved card charged automatically. No kiosk. No app. Emailed receipt.

04

Real-time dashboard

Live occupancy, transaction data, revenue visibility, and utilization analytics in one portal.

05

Network redundancy

Built-in cellular backup keeps the system up if primary internet fails. No lost revenue.

06

Tenant validation portal

Tenants validate via digital portal — search by phone or plate, apply discount, done.

– PAY HOW PARKERS ALREADY PAY

More ways to pay. Built for modern parking.

Monthly parking management

One payment vault, every wallet, every channel. Parkers **never re-enter a card** across Bolt 360 LPR Propark properties.

— ON-SITE COLLATERAL

Signage at every stage of the parker journey.

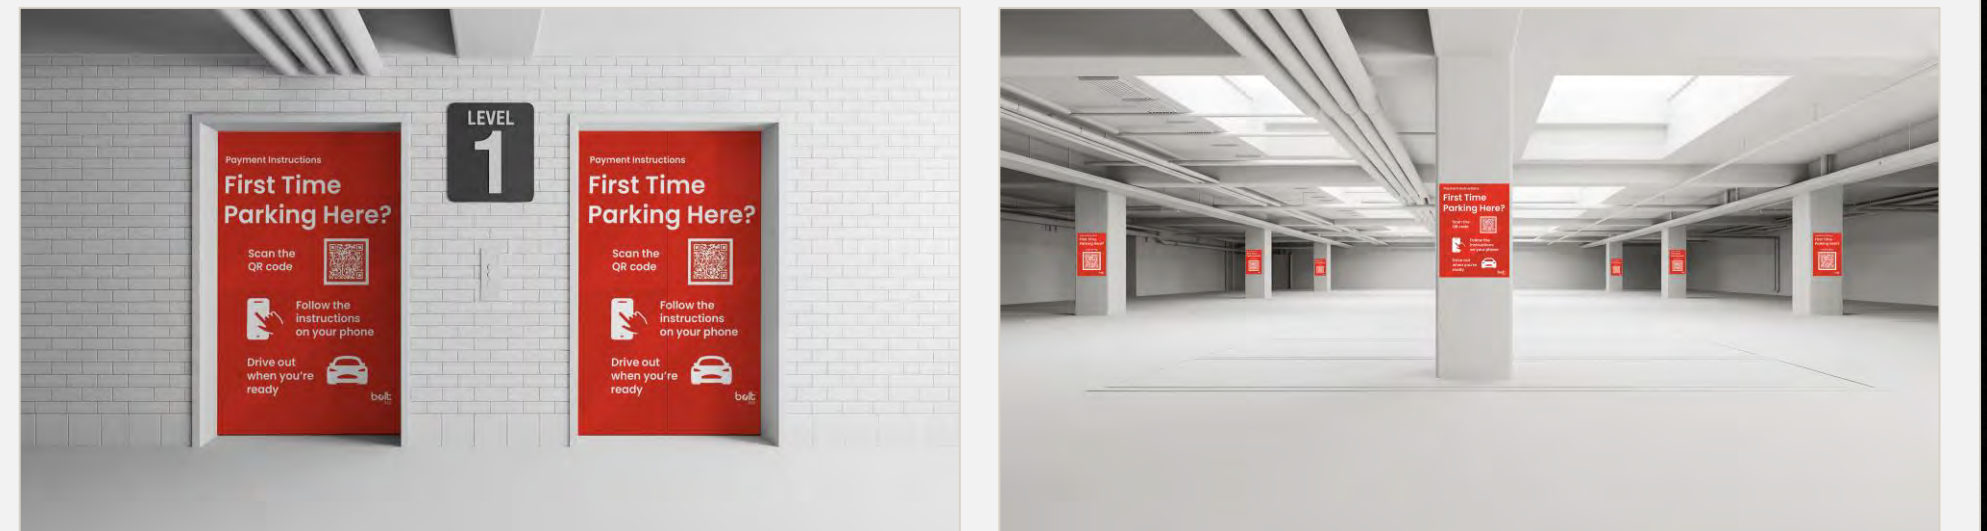

A coordinated kit drives traffic, teaches the new flow, and reinforces compliance — installed and managed by Propark.

Curb & Approach

- 01 Street directional & "Contactless Parking" banners
- 02 Windmaster pricing panels at the entry point

Entry & Onboarding

- 03 "Drive in. Drive out." how-it-works panel
- 04 First-timer QR boards at stairwells & elevators

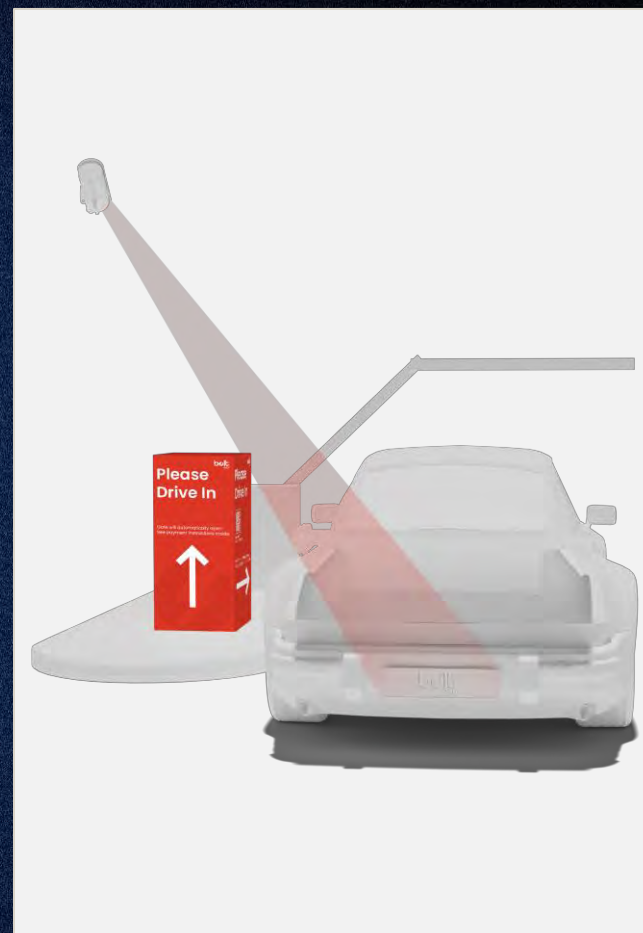

Clear guidance from curb to exit — designed to improve flow, compliance, and driver confidence.

- NEW PARKER, FIRST VISIT

From curb to parked in 60 seconds.

01 APPROACH 02 SCAN 03 PHONE 04 PAY 05 DONE

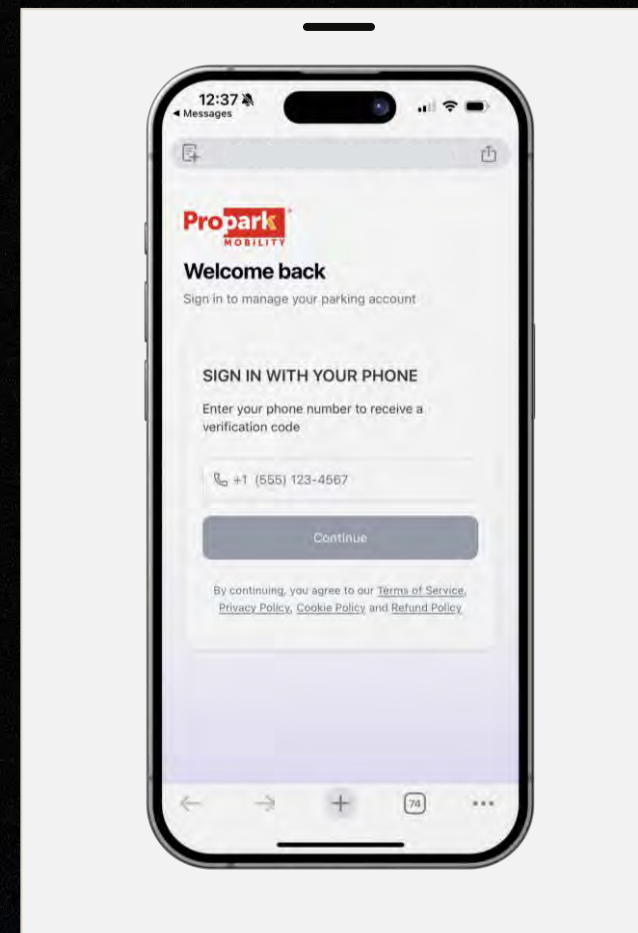

Approach the gate

Camera reads plate. Gate opens. No stopping.

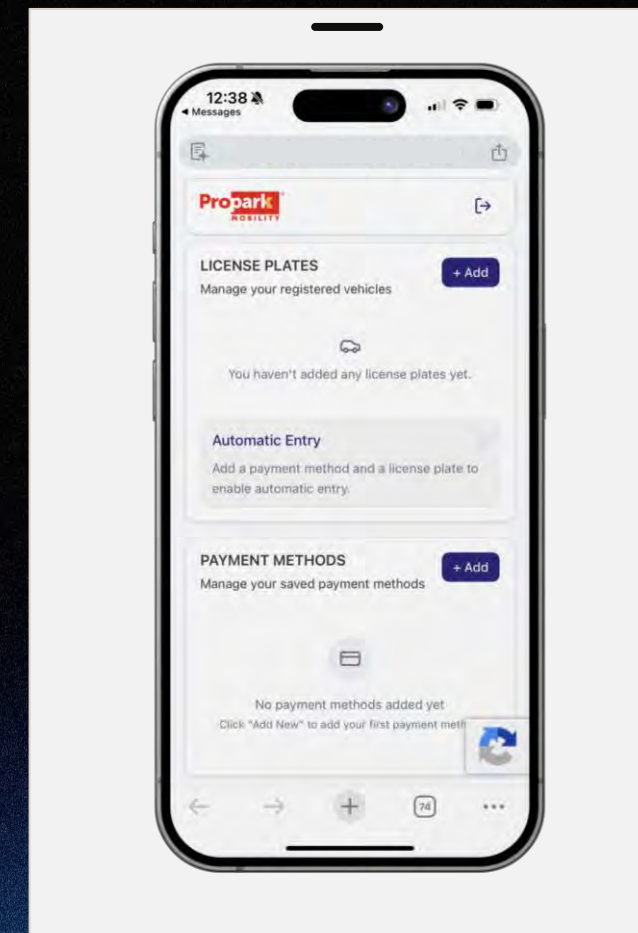

Scan the QR code

Posted at stairwells, elevators, and pillars.

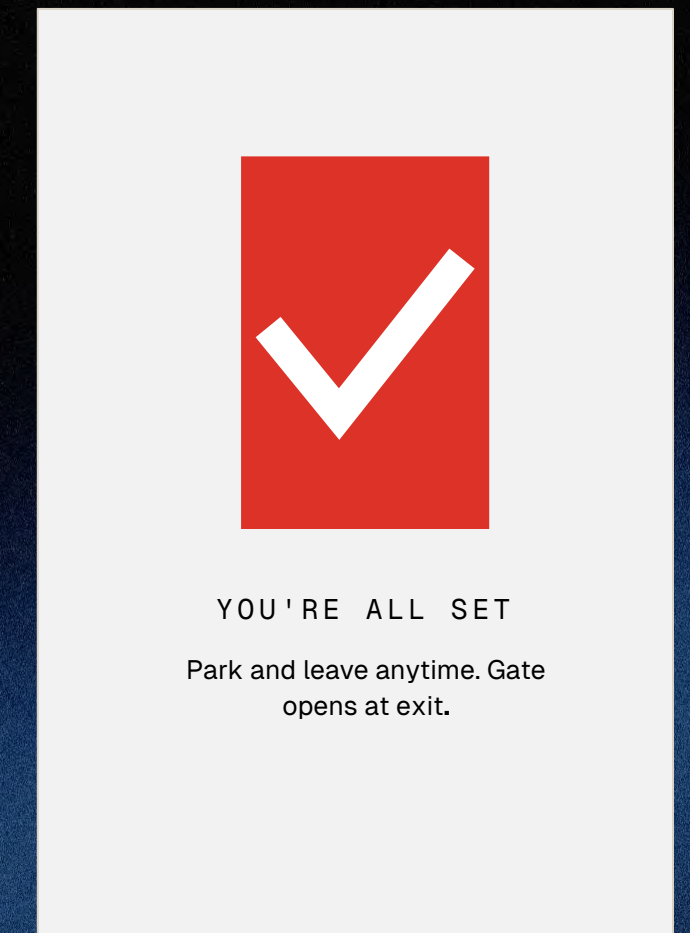

Enter phone number

One field. Used for your account.

Add payment card and details

Encrypted. Charged automatically on exit.

You're all set

Every visit after — drive in, drive out.

– BUILT FOR PERFORMANCE

Operators get the upside. Parkers get the experience.

01 Fully automated entry & exit

Minimal staffing required. Gates open and close via LPR without attendant intervention.

02 Highest throughput

No stopping to scan, swipe, or pull tickets. Peak-hour queues virtually disappear.

03 Complete LPR data set

Every vehicle entering and exiting captured. Full audit trail, zero gaps in revenue.

04 Complete revenue visibility

Lightning Pay Admin shows transactions, utilization, and revenue as they happen.

05 Tenant validation portal

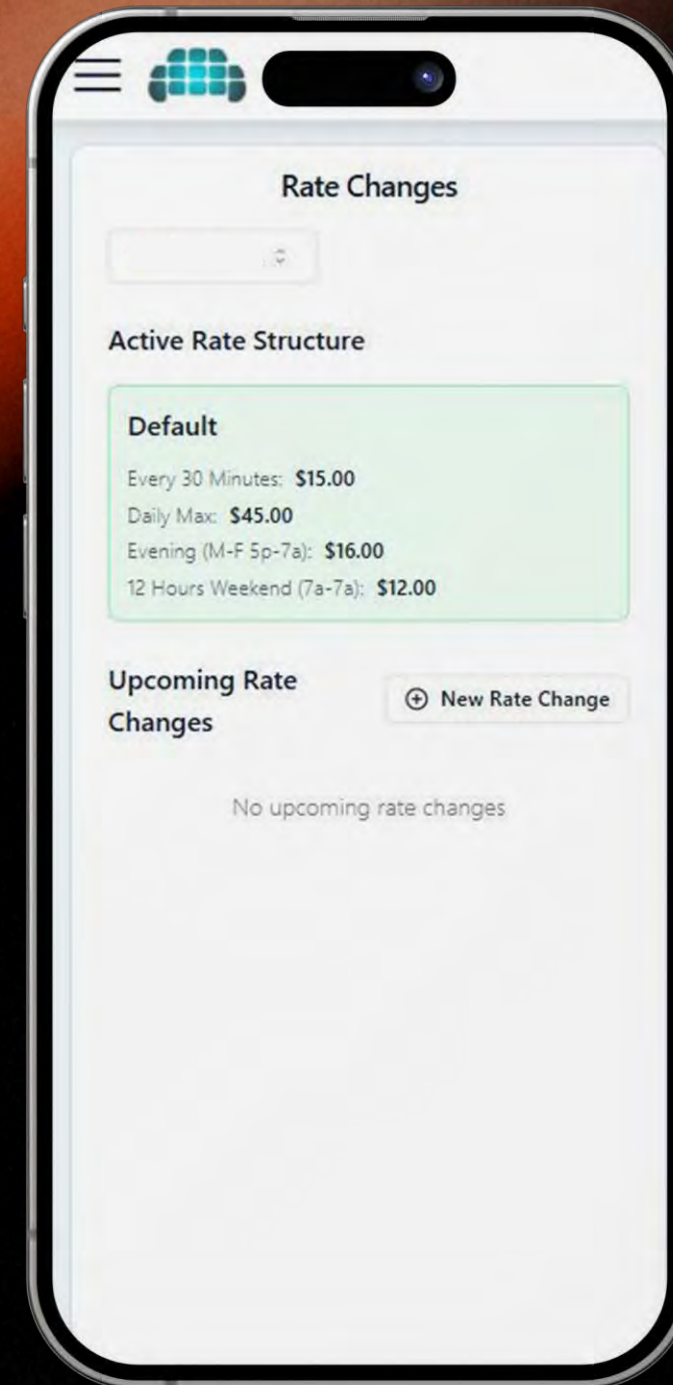

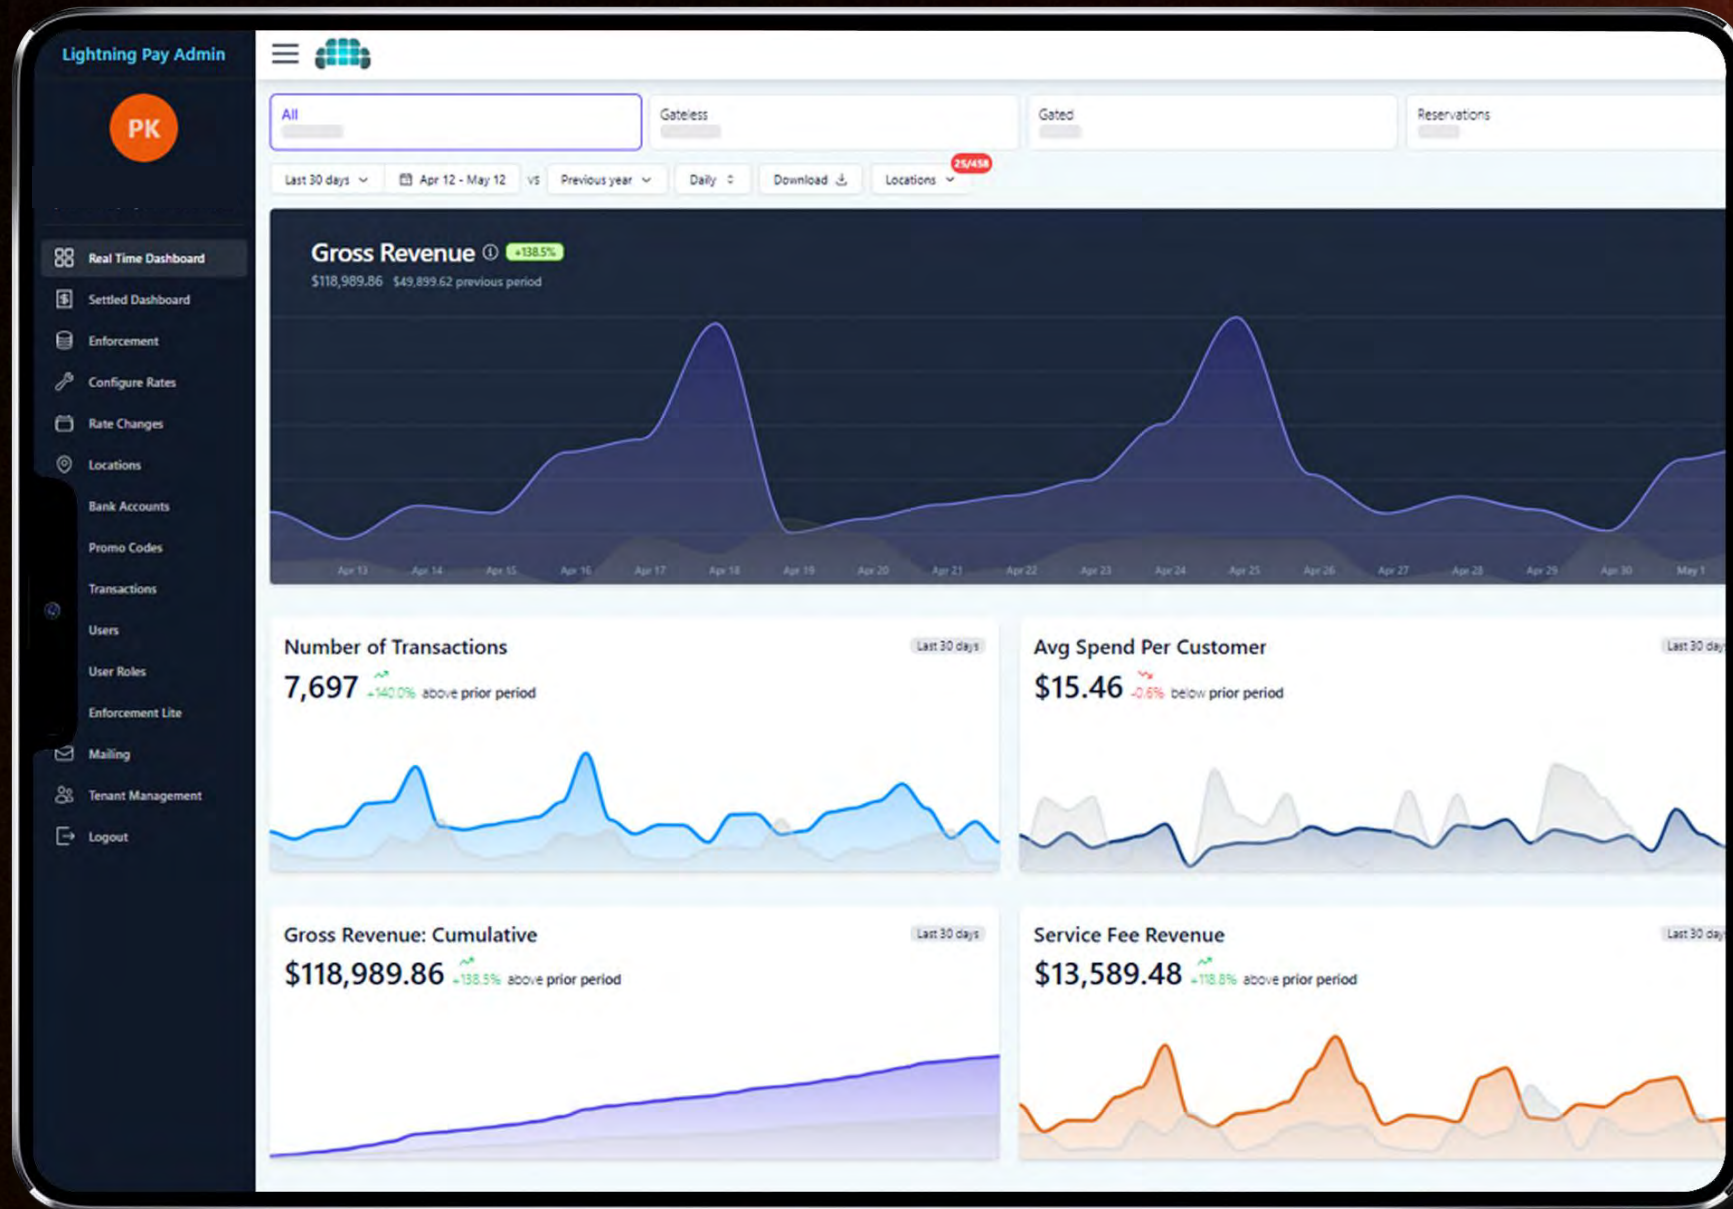

Tenants apply discounts via digital portal — phone or plate lookup, templates, history, CSV.

06 Premium parker retention

Frictionless experience drives repeat visits. Parkers seek out Propark-managed facilities.

Complete visibility. Smarter decisions.

Every entry, exit, transaction, and validation — live, exportable, and tied back to a license plate. Revenue is no longer reconstructed at month-end; it's visible every day.

- FIVE PILLARS

What sets Bolt 360 LPR apart.

01

Zero CapEx

No upfront hardware purchase, no SaaS fees, no third-party vendors. We own the risk so you don't have to.

02

App-free operation

Returning parkers never touch a phone. The system knows them by plate.

03

Universal compatibility

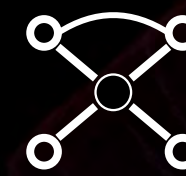

Bolt-on to existing PARCS or go fully standalone. No new equipment required.

04

Network redundancy

Built-in cellular failover means the system never goes down — no lost revenue, no stranded parkers.

05

End-to-end ownership

One operator. One system. One call to fix anything. No finger-pointing between vendors.

The future of parking is now.
