

The Future Careers & Education Tech Newsletter

The bi-weekly ed-tech industry newsletter from KnowMeQ

Issue 13
April 22, 2026

PREVIEW

In this issue, we explore who is at risk — and who is ready — in the *age of AI*.

The signal is clear: success is shifting from static roles to adaptability, as learning pathways evolve and new knowledge systems emerge.

Here's what caught our eye this week.

ARTICLE

Which jobs are most at risk in the age of AI?

Created by Eddy Susanto for nounproject

AI is reshaping tasks, not just jobs. Routine cognitive roles are most exposed, while those requiring judgment and human interaction are more resilient.

Author: Kathryn Palmer
