

The Future Careers & Education Tech Newsletter

The bi-weekly ed-tech industry newsletter from KnowMeQ

Issue 12
April 8, 2026

PREVIEW

In this issue, we look at the shift from static qualifications to the human skills that enable people to adapt, collaborate, and grow.

As skills become the currency of the workforce, success is increasingly defined by how well individuals apply what they know in real-world contexts.

Here's what caught our eye this week.

Why skills are the currency of the future workforce

Created by Garoks from Noun Project

In EY's CHRO 2030 survey, a staggering proportion of HR Leaders (63%) identified skills as the number one barrier to transformation, with 85% of those leaders confirming workforce upskilling as their top priority between now and 2030.

The entry-level job market stinks. These grads are crushing it.

Created by Eschapp from Noun Project

College graduates confront a lousy job market with especially stark prospects for entry-level positions. In 2025, companies cut 1.1 million jobs, the worst job slashing since Covid hit in 2020.
