

1.

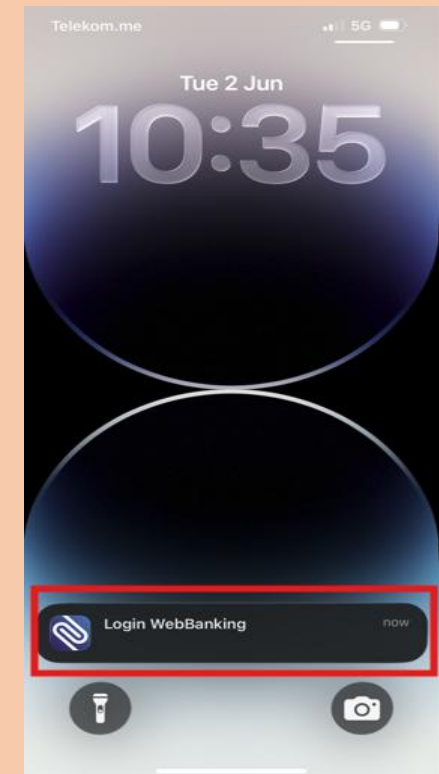

Enter the username provided to you earlier by the bank representative and click the 'Log In' button.

2.

The screen will start loading, as shown in the image.

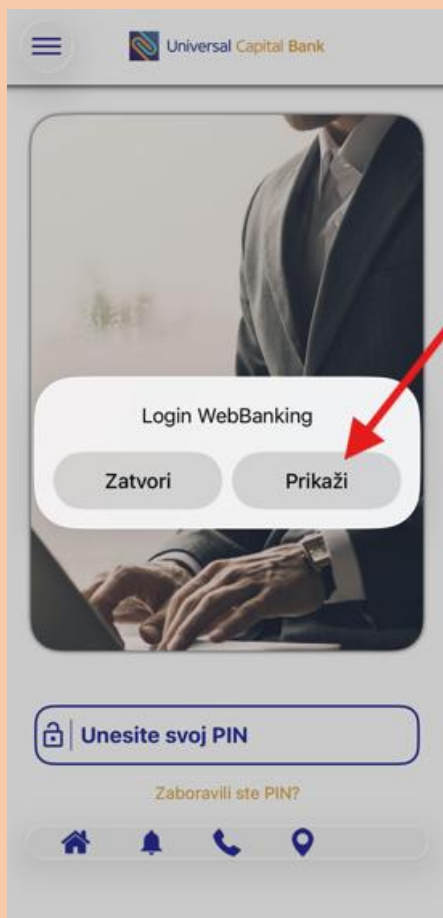

3.

A push notification will be sent to the mobile device. Tap the notification to continue.

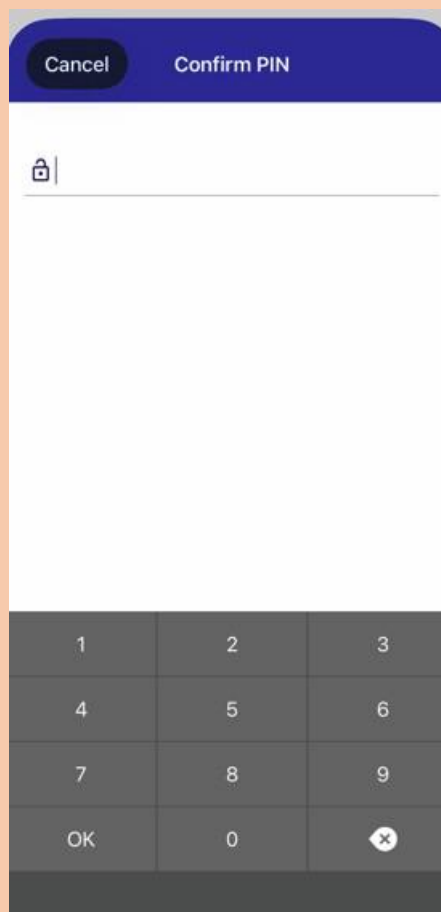

4.

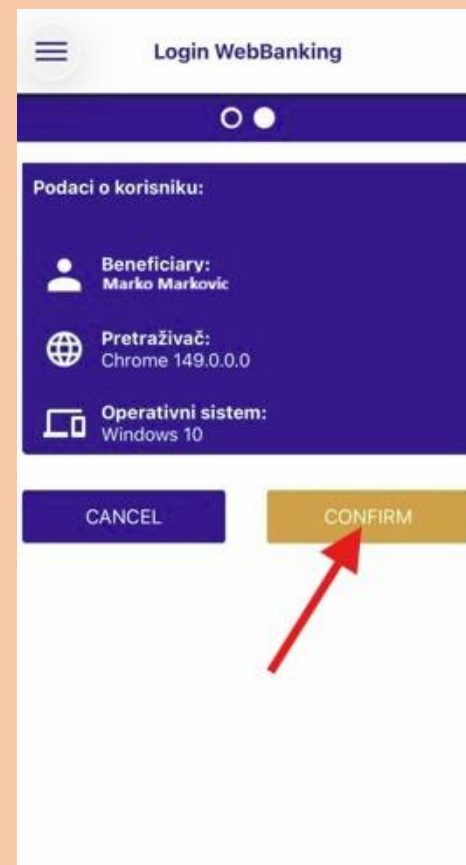

After opening the mBank app, tap the 'Show' button.

5.

Enter the PIN you created during the activation of the mBank app, or use biometric authentication to confirm the login.

6.

On the next screen, click the 'Confirm' button to authorize the login.
