

Transform Grant Delivery with Award

Built on the Microsoft power Platform, Award gives grant-making organisations one configurable system for the full grant lifecycle, with the transparency and audit trail their programs and communities expect.

Reduce administrative burden

Replace manual, spreadsheet-driven processes with one connected system.

Increase transparency & accountability

Clear visibility for stakeholders, auditors and ministers into decisions, discussions and outcomes.

Strengthen compliance & reduce fraud

Structured workflows and audit trails aligned to IRAP requirements.

Program-level reporting to prove the value of every program

See funding targets, grants awarded and the economic value delivered by each project on a dashboard built from your own program data, so KPIs are evidenced rather than estimated.
