

Smarter student management. Stronger compliance. Better learning outcomes.

Built on the Microsoft Power Platform, VETSMS gives education and training providers one connected platform for applications, enrolments, course delivery, student records, progression and compliance.

Reduce administrative burden

Replace manual, spreadsheet-driven processes with one connected system.

Improve visibility & control

Connect applications, enrolments, courses and student records in one system.

Strengthen compliance & auditability

Maintain consistent, traceable information for NCVER and AVETMISS reporting.

Clear reporting across the student lifecycle

See applications, enrolments, attendance and outcomes in connected reports, helping teams identify trends and make informed decisions.

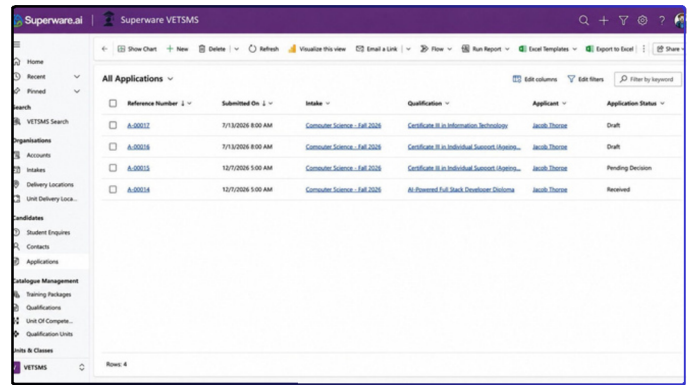

The student lifecycle, end to end

1	2	3	4	5
Apply	Plan	Enrol	Track	Complete
Receive applications and assess eligibility.	Manage capacity, waitlists and offers.	Connect students with courses and units.	Monitor attendance, outcomes and progression.	Maintain records and support compliance reporting.

APPLICATIONS & ENROLMENTS

Manage applications and enrolments with confidence

Track every application through assessment, eligibility checks, intake planning, decisions and offers. Successful applicants move into enrolment without information being re-entered.

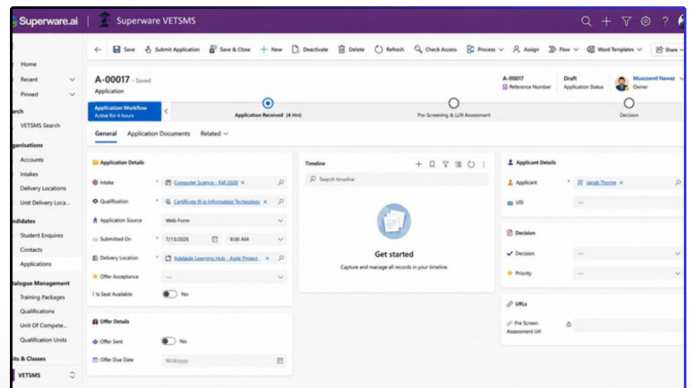

Reference Number	Submitted On	Intake	Qualification	Applicant	Application Status
A-00017	7/1/2024 8:00 AM	Computer Science - Feb 2025	Certificate II in Information Technology	Jacob Thorne	Draft
A-00018	7/1/2024 8:00 AM	Computer Science - Feb 2025	Certificate II in Information Technology	Jacob Thorne	Draft
A-00019	12/1/2024 5:00 AM	Computer Science - Feb 2025	Certificate II in Information Technology	Jacob Thorne	Pending Decision
A-00020	12/1/2024 5:00 AM	Computer Science - Feb 2025	Attestation Full Stack Developer Diploma	Jacob Thorne	Received

COURSE DELIVERY & PROGRESSION

Connect delivery, progress and outcomes

Manage qualifications, units, classes and timetables in one place. Track attendance, outcomes and progression while supporting RPL and credit transfer.

The screenshot shows the 'Application Details' form for application A-00017. The form is divided into several sections: 'General' (Application Details, Application Documents, Related), 'Timeline' (Search timeline, Get started), and 'Application Details' (Applicant, Decision, Priority, Office). The 'Get started' button is prominently displayed in the center of the timeline section.

Built on Microsoft

- Microsoft Power Platform and Dynamics 365
- Runs inside your agency's own Microsoft tenant
- Hosted in Microsoft's Australian data centres
- Aligned to IRAP and Australian government security

Best fit engagements

- Legacy replacement:** modernising ageing or disconnected student systems
- Compliance:** supporting structured, audit-ready VET information
- Multi-campus providers:** managing delivery across sites and teams
- Connected operations:** bringing the student lifecycle into one platform

"Superware has been a trusted partner in our multi-year program to modernise our application portfolio on Microsoft Dynamics 365 and Power Platform."

CHIEF INFORMATION OFFICER, QUEENSLAND GOVERNMENT DEPARTMENT

About Superware

Superware helps organisations modernise legacy systems and simplify complex processes with Microsoft Dynamics 365, Power Platform, Azure and Copilot.

We do what we say we'll do, on time and on budget, every time.
