EXPERIENCE

2022 — 2025 | Snap One/ADI Global | Lehi, Utah

Senior UX Designer

- Enhanced the Snap One device management platform by streamlining user workflows and improving overall usability.
- Collaborated with product managers to gather and analyze requirements, ensuring design solutions aligned with user needs and business goals.
- Championed accessibility across all Snap One digital products, ensuring compliance with industry standards and expanding user reach.
- Developed and delivered an accessibility design curriculum to equip designers, engineers, and product managers with tools for building inclusive experiences.
- Led a team-wide education series on design principles, emphasizing the impact of human cognition on user-centered design.
- Participated in/conducted bi-monthly user research sessions, integrating insights into iterative design improvements and feature enhancements.

2011 — 2022 | (add)ventures | Providence, Rhode Island

Senior UX Designer

- Acted as discipline spokesperson, resolving client emergencies and ensuring uninterrupted project momentum.
- Advocated for design thinking and UX best practices across all agency teams through a unified, strategic approach.
- Defined and oversaw UX strategies for all digital initiatives, aligning user needs with client goals.
- Established team-wide policies and procedures to streamline workflows and improve cross-functional collaboration.
- Led pitches, discovery sessions, and creative workshops, fostering clear communication and aligned vision.
- Mentored junior designers, supporting their growth through regular feedback and professional development guidance.
- Served as lead designer on complex web and software projects, driving successful outcomes and client satisfaction.
- Delivered detailed functional and accessibility specifications to engineering, ensuring accurate and efficient implementation.
