THE STORY

UNTIL NOW

Look beyond world-class and you will find exceltional, the birthplace of K2 Bespoke. Our model for growth is simple: if our clients have a new need, then we grow in order to fulfil it.

In the mid-2010s, a number of our clients began talking to us about the requirements of their business-critical population. Two key elements distinguish this population from all other employee groups: a lack of time and a complex set of requirements. K2 Relocate was already providing them with world-class support, but they required something that went beyond that. A level of

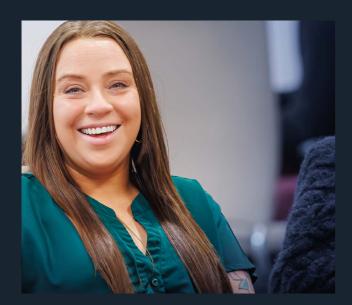

understanding, attention to detail, and proactivity that redefined global mobility as a completely unique experience. K2 Bespoke can support with every element of the relocation journey. This support is streamlined through a single point of contact who is both expert and experienced. There is no other relocation management company that offers this scope and style of service.

K2 Bespoke is one of the companies that form the K2 Group. Whilst each member company has a distinct identity and a unique service offering, all are united by a single, simple ethos: because it's personal.

SECURE

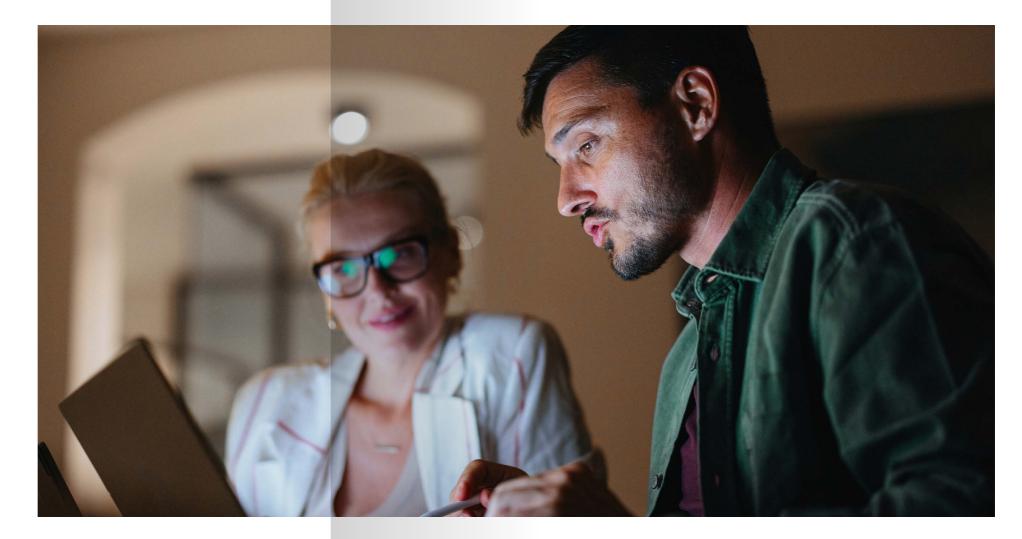

K2 Bespoke's security infrastructure is built upon three core principles: Educate, protect & test.

Educate. Most cyberattacks begin with an email containing malware or a phishing link through which an individual's credentials can be stolen. All Bespokers are regularly educated on how to spot a phishing or spear-phishing email.

Protect. To protect us against the more sophisticated forms of cyberattack, we use industry-standard antivirus software, next-generation firewalls, and operational back-up. This provides us with a secure environment in which to perform all operations, including storing and processing client data.

Test. K2 Bespoke's Technology team test the company's security infrastructure on a regular basis through phishing and penetration tests. This allows them to pinpoint any weaknesses and maintain currency of knowledge in relation to cyberthreats.

CERTIFIED

Dedication cannot be demanded, only inspired. Within a sea of stats and standards, there are two metrics that really matter: Net Promoter Score® and Great Place To Work®.

Great Place to Work®

Great Place To Work® is the global authority on workplace culture. To obtain the accreditation, a company must show that everyone who works for them has a consistently positive experience. They must prove that their leaders are caring and foster an environment in which everyone has a purpose, can contribute new ideas, and is able to access the resources that they need to thrive in their role.

At the start of 2025, we were re-certified globally as a Great Place To Work®:

- Our Trust Index score is 90%.
- Our Values score is 88%.
- Our Leadership Effectiveness score is 92%.

reat lace Work Certified

Net Promoter Score® of 80

Net Promoter Score® measures customers' loyalty by asking them how likely they are to recommend a brand to a colleague or a friend.

We hold an NPS® of 80, which is officially rated as world-class. For context, the NPS® scale runs from -100 to +100, with above 0 being rated as good, above 20 as favourable, above 50 as excellent, and above 80 as world-class.

BEYOND BUSINESS

OUR CHARITY

We're more than a mobility provider, we are supporting children's futures in our regions.

The K2 Foundation was set up in order to enable us, as a business, to support the local communities within the regions that we operate. The charitable initiatives that the Foundation funds focus on helping the children within those communities, children whose futures are bleak or uncertain.

Often, the support provided takes the form of education, as this gives children the chance to develop skill sets which can increase the number of opportunities available to them as they grow up.

In 2025 we opened the doors to the school we built. Associação Semeando Amor, a charity in São Paulo, Brazil, supports local children who are growing up in the favelas. The charity runs a school which caters for children aged between two months and twelve years old. As a result of time passing and the school community growing, the school building is no longer fit for purpose. K2 Bespoke is rebuilding the school so that it can continue to provide a safe, educational space for local children.
