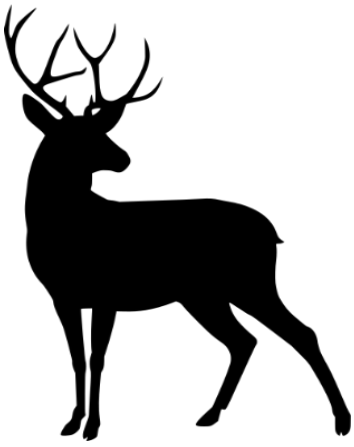
Archies



To our valued hunters,

We are in a situation where we are NOT able to currently process any wild game that requires smoking in our smokehouse. We ask that you de-bone your wild meat and keep it in your freezer. In January, please phone ahead (204-735-2740) and we will confirm your wild game delivery. At that time, we will once again be able to do all of our regular smoked products. The smoking process we are referring to includes

Pepperoni Stix, Farmer Sausage,
Garlic Sausage and, Smokies.

If you would like us to process any wild meat that does **NOT** require smoking (**straight grind, grind with pork, breakfast, spiced fresh, dinner and Italian sausage or jerky**) we can accept your de-boned meat as usual and it can it can be brought in to us fresh or frozen at your convenience.

We value your business and apologize for any inconvenience this may cause.
