Days are longer. Sunshine is back. Spring is in the air! Why don't you make the most of it with a nice promenade along the quays to admire the shimmering light on the river, or in the lush Jardin des Plantes? For the evening, you could enjoy a concert at la Saint-Chapelle on Île de la Cité and contemplate the outstanding stained-glass windows. Do not forget to book your tickets for Palais Galliera for the third and final episode of the collection "La mode en mouvement". Have a wonderful time in the City of Light !
