HIGHLIGHTS OF THE MONTH

August in Paris is such a delight as every part of the city offers its very best. In Châtelet you will be able to visit the new exhibition at the Bourse de Commerce named "Corps et âmes". From there, you could head to the Petit Palais to see the Worth exhibit showing the revolution of fashion, and enjoy a stroll on the quais, turned into beaches the whole summer, some of which you could even swim in! The Tuileries funfair is also a summer must for Parisians, as well as the Luxembourg gardens, where concerts are held every weekend near the Medicis fountain gazebo, making the gardens the ideal place for a picnic. The City of Light has so much to offer, make the most of it !
