HIGHLIGHTS OF THE MONTH

What a joy to see Paris bathed in sunshine! With the final stages of Roland Garros underway, why not treat yourself to a culinary experience at Le Jardin des Chefs, where top chefs will gather to delight every palate. Don't forget that giant screens have been set up on the Place de la Concorde to broadcast the Roland Garros matches. And why not take advantage of the music festivals that electrify both the Longchamp racetrack and the streets of Saint-Germain? Regulars already know about France's National Music Day on June 21. Also, the iconic Pont Neuf will be transformed by JR into the "Caverne du Pont Neuf" from June 6 to 28, offering a spectacular artistic experience in the heart of Paris. Between outdoor movie screenings, sunset cruises on the Seine, and garden parties, June promises to be full of experiences!
