HIGHLIGHTS OF THE MONTH

In August, Paris is a haven of peace. But don't think for a moment that the City of Light is taking a nap! Paris transforms its riverbanks into beaches for the summer—the perfect spot to sunbathe after a day spent exploring the art galleries of the Marais or enjoying the Palais Royal neighborhood with its vintage boutiques and garden. Meanwhile, the Bourse de Commerce is currently hosting several exhibitions. It's the perfect opportunity to discover this historic building and contemporary artists. Parks and gardens are the ultimate escape from the heat this summer, so why not take advantage of them? Especially since the Luxembourg Gardens are hosting a variety of concerts, and the Parc Floral de Vincennes will enchant you with jazz. Everything you need for a fabulous August!
