THE YOUTH IMPACT FOUNDATION

The Youth Impact Foundation

Our core model is based on the following simple yet effective concept

If we…

create a stronger for-purpose sector

We achieve…

greater and more significant outcomes for children and young people

We Asked Ourselves

"What is the most impactful way we could create the most change for young people who are experiencing disadvantage in Australia?"

Our Core Principles From The Start

1. Put young people at the centre
2. Take a systems/sector level view
3. Move beyond performative collaboration
4. Use philanthropy to support growth, not for long term sustainability

So We Built Our Model On The Following Foundations:

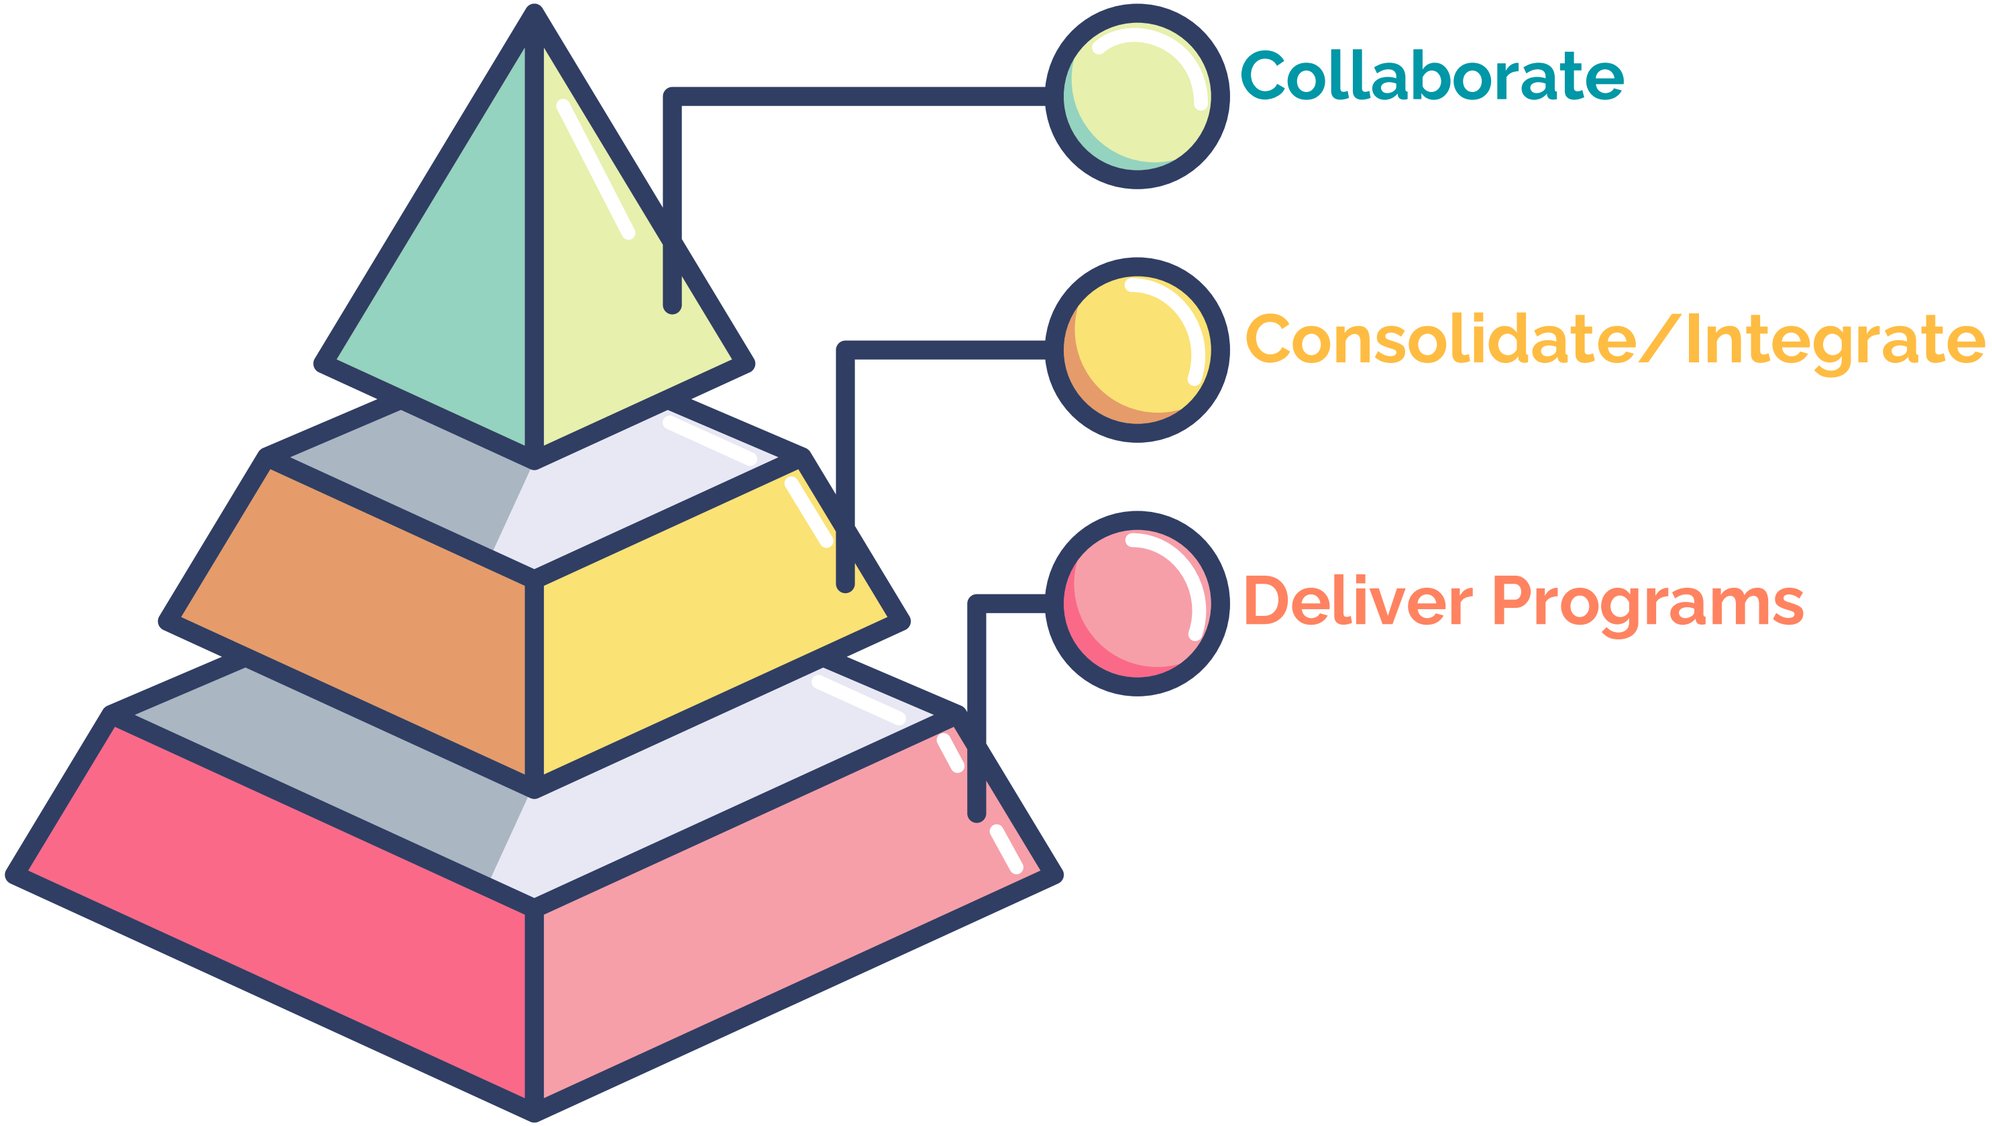

1. Sustainability of program delivery & brand = trusted program delivery
2. Reduce duplication and amplify impact
3. Collaboration AND consolidation
4. Build a social enterprise model at the heart of the organisation

WE REALISED

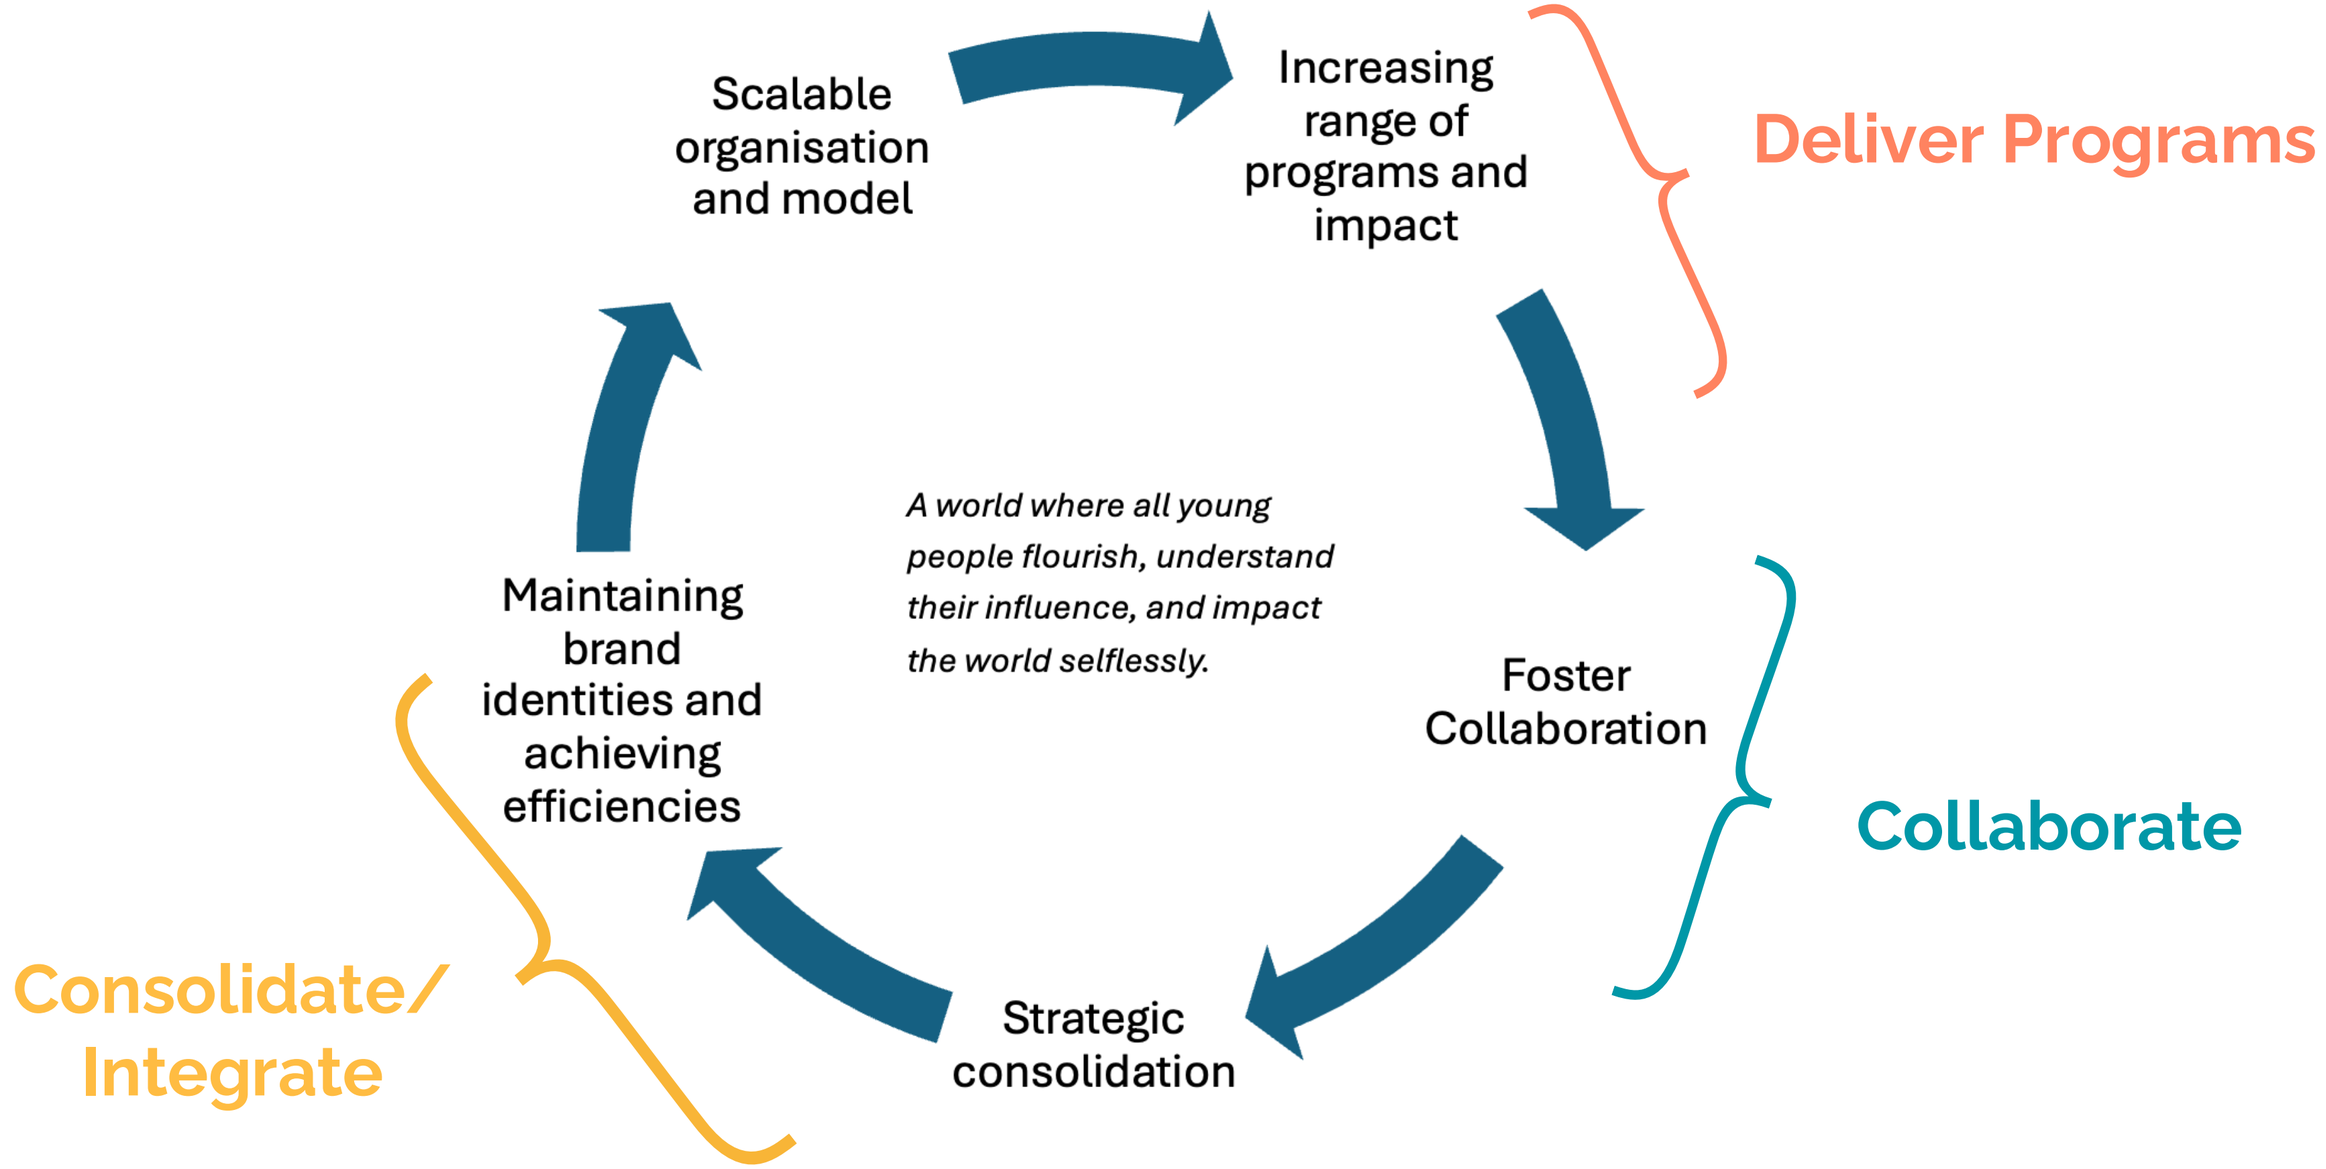

- Lots of duplication and ego in charity sector
- Lack of collaboration
- Good program knowledge but limited business knowledge
- Charity leaders are burnt out
- Charities asked to do more with less
- Loss of talent to the corporate sector

THE YOUTH IMPACT FOUNDATION

The Three Tiers To Our Model

Our Collaboration and Integration Model

OUR KEY PLATFORM FOR INTEGRATION

- Created the key criteria for integration so charities know what they are agreeing to
- Westfarmers or Westpac?
- Realised a good program that creates change doesn't necessarily mean a well-run charity
- Said no to charities who don't meet criteria

THE TYIF EQUATION

- Enable charities to keep doing what they do best
- \+
- Maintain the brand and program delivery of the charity
- \+
- Give the charity a strong foundation for the future
- \+
- Close and merge the charities IP, programs and staff into TYIF

CONSOLIDATED BRANDS

22.00% Increase in Young People Impacted

27.57% Increase in Revenue

20.51% Reduction in Operating Costs

17.59% Increase in Net Profit

Integrated Brands. One TYIF.
