

TEXAS PRIMARY CARE CONSORTIUM

Working together to
advance high-quality
primary care for
all Texans

MAKING PRIMARY CARE PRIMARY

PARTNERSHIP OPPORTUNITIES

WHY TPCC?

Primary care is essential for a healthy community. Primary care teams manage chronic conditions, help prevent diseases and detect health issues early when they're easier to treat.

A strong healthcare system depends on access to quality primary care that focuses on prevention and minimizes negative health outcomes while centering each

patient's unique needs, circumstances, and preferences. Systems built around a core primary care function can deliver higher quality care at a lower cost.

With the mission of advancing high-quality primary care for all Texans, Texas Primary Care Consortium is the sole organization in Texas bringing together multiple sectors that are focused on primary care.

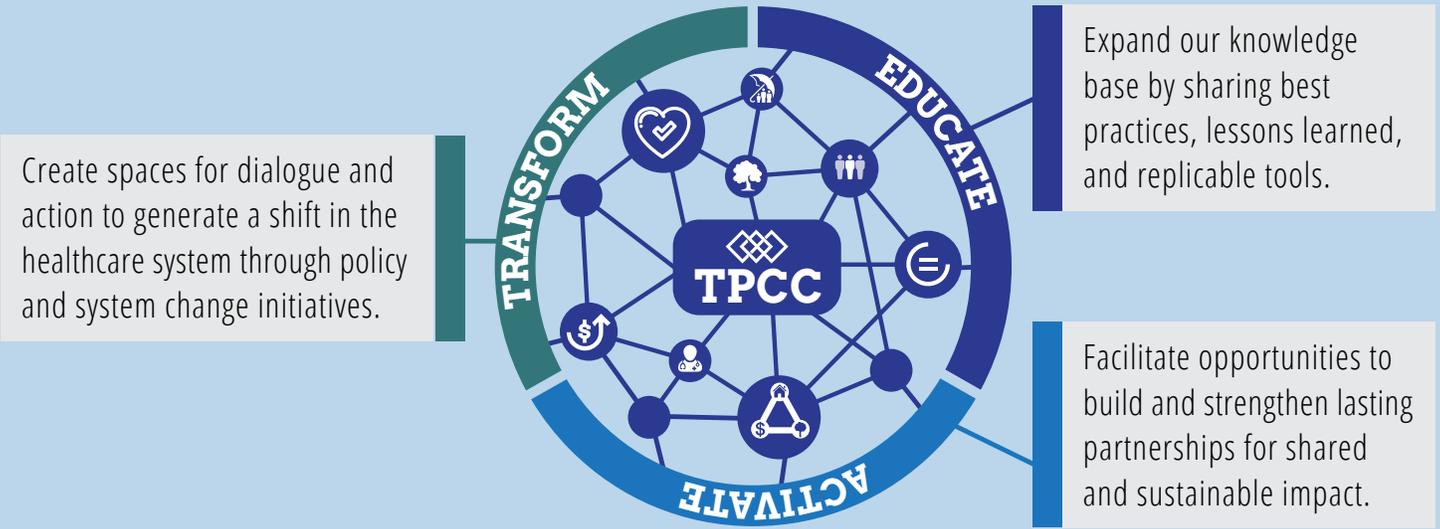

Become an organizational partner at one of the following levels:

Partner Benefits	Strategist \$35,000	Advisor \$25,000	Sustainer \$15,000	Collaborator \$7,500
Provide strategic insight on TPCC annual spotlight project as a recognized sponsor	◇			
Serve on TPCC Advisory Committee	◇	◇		
Be recognized on quarterly webinars	◇	◇		
Be acknowledged on reports, videos, and other TPCC products	◇	◇	◇	
Be highlighted as sponsor of annual convening	◇	◇	◇	◇
Receive workgroup membership opportunities and collaboration	◇	◇	◇	◇

Other ways to support: Sponsor our annual convening, quarterly webinar series, or annual research brief.

The Texas Primary Care Consortium is a collaborative, statewide initiative with a mission to advance high-quality primary care for all Texans, thanks to the tireless efforts of our advisory committee and support of our partners.

By working together, we can create a primary care system that benefits everyone. Strong primary care means healthier communities, lower healthcare costs, and a brighter future for Texas. We work with the following framework:
