2-day Initial Training

Live Training

Pre- and post-work for Instructor

Instructors attend training with 1 program to start their Instructor Journey. Within 1 year, the instructor can choose to certify in the second program without attending a new Initial Training. Cost for certification = Certification video + Release cost.

Instructor can also attend the Initial Training in both programs at the same time and will then get 1 allocated track and 1 Training Outcome per program.

Cost for certification in the 2nd program = Certification video + Release cost.

Training Outcome = PASS: Ready to teach classes. 30 days to submit Certification Video (Extensions possible)

Training Outcome = PASS-PENDING: Instructor gets more time to practice on their 1 track. Submit 1 track video within 7 days.
When PASS from the One-track -> Follow the 30 days Certification video process.
