

LOLLYMINISERVE

Intuitive Self-Serve Technology

You're going to **Love**
what **Lolly** can do.

LOLLYMINISERVE

Intuitive Self-Serve Technology

About The Product

The Lolly Miniserve is a self-serve kiosk with both counter mounting and floor mounting functionality. This device is quickly rising in demand within the hospitality industry and is capable of delivering a multitude of practical applications across various businesses of any size, such as recording the Co2 output of customer orders, reading in-app coupons and/or printed vouchers via its 2D scanner, and issuing customer receipts from its built-in printer.

The best things come in small packages, and for the Lolly Miniserve self-serve kiosk, this couldn't be truer. Its user-friendly software and sleek hardware suits any style of hospitality, and even up-sells products on-screen for customers to help improve your average order value.

- **Intuitive** software with user-friendly touch screen interface.
- **Viewable** customer activity and order history upon customer login.
- **Available** loyalty point collection when scanning the Lolly App.
- **Detailed** nutritional and allergen information for all orders.
- **Accepts** multiple fast payment options, i.e., card, cryptocurrency, etc.

Move Forward with Lolly

Lolly's innovative solutions have helped contract caterers and independent businesses across all sectors to be more efficient, more agile, and more profitable.

Key Software Features

- Display Nutritional, Allergen, and Co2 info.
- Collect customer behaviour data.
