what **Lolly** can do.

LOLLY SNAPSERVE

Intuitive Self-Serve Technology

About The Product

The Lolly Snapserve is a counter mounted, AI-powered self-service device, built to revolutionise customer experience with its unprecedented speed and accuracy, providing a multitude of benefits for your catering business and customers. With a processing speed of just 3 seconds per transaction, the Lolly Snapserve significantly reduces wait times, offering a more efficient checkout process with available Badge, QR, or EVM readers to authorise payment methods.

Additionally, the Lolly Snapserve can recognise customer orders instantaneously, thanks to its innovative dual image capture process that provides a snappy service. This useful feature also minimises errors, helping to reduce waste, while ensuring accurate billing and stock control.

- Plate components are separately detected, e.g., fish, chips, and peas.
- Items are precisely identified even when placed close together.
- All non-food items placed on the kiosk are automatically ignored.
- Takeaway bags and boxes are automatically recognised.
- Unique dual camera improves recognition accuracy.

Move Forward with Lolly

Lolly's innovative solutions have helped contract caterers and independent businesses across all sectors to be more efficient, more agile, and more profitable.

Key Software Features

- Display Nutritional, Allergen, and Co2 info.
- Order history available with customer account.
- Continuous software updates for enhanced functionality.
- Full technical support ensures uninterrupted operation.
- Versatile payment options.

1. Installation Assistance: We provide installation services for Self-Serve solutions to ensure a hassle-free setup tailored to your business requirements.

2. Complete Customisation: Our Self-Serve interfaces can be customised with your own branding and photography, ensuring a consistent customer experience.

3. Technical Support: Self-Serve technical support hours: Weekdays (07.00 to 17.30).
Emergency support hours: Weekdays (17.30 to 22.00), Weekends/Bank Holidays (7.00 to 22.00).

- Plate components can be separately detected e.g. Fish, Chips and Peas.
- A protein can be served with any choice of sides.
- All non-food items placed on the Kiosk are automatically ignored.
- Items are precisely detected even when placed close together.
- Takeaway boxes or takeaway bags can be used and are automatically recognized.

Some items are hard to detect with only one overhead camera. Our unique dual camera technology improves recognition accuracy and reduces shrinkage.

Innovative Solutions That Work Together

Each of our products connects to Lolly HQ – our cloud-based management information system – for seamless integration, monitoring and reporting across your whole business, all in one place.

SPECIFICATIONS

Operating System	Windows 10 IoT
