What We Do

Loan Notes

Unlocking opportunities through property-backed lending solutions

The Loan Note programme offers access to the direct lending market, with the benefit of diversification. With a proven track record of delivering risk-adjusted returns, they are designed for discerning investors seeking stability of income.

Long-only Equity Funds

Investing for growth through active, high-conviction equity portfolios

Amberton partners with Somerston Asset Management to offer our investors access to the carefully managed funds of the Somerston family office. These products leverage Somerston's multi-generational investment expertise across equities.

Multi-Asset Funds

Actively pursuing long term growth through multi-asset strategies

Again, these opportunities are presented through the partnership of Amberton and Somerston Asset Management, offering adaptive investing across a breadth of asset classes - capturing opportunities while managing risk for long-term resilience

LOAN NOTES

Unlocking opportunities through property-
backed lending solutions

AMBERTON

Overview

- Raised capital is deployed into a diversified pool of property loans originated by Sancus and Hawkbridge
- Loan Note subscribers participate in this via a basket of property backed debt
- Diversification is achieved working across property sectors, geographies and maturity dates
- Structured to target stable and attractive risk-adjusted returns with regular income
- Underlying loans are secured on real estate, offering protection in the event of default
- Amberton entities have a track record of delivering expected returns to Note Holders and a full return of capital
- Historical performance has typically shown a low correlation to stock and bond market returns

Amberton track record to date*

Total Raised £172m
Live Total £92m+

All the matured notes have maintained their coupon as expected and repaid capital in full at Maturity – if you invested £100,000 at the inception of the Loan Note Programme your total returns would be £67,650 or 67.65% (Nov 16 - May 26)

*Series 1 – 6 of loan notes were managed by Amberton Asset Management Limited, a Guernsey Company; Series 7 and onwards managed by Amberton Limited, a Jersey company.
** Loan note 8 & 9 are open but not available for new subscriptions..

Typical underlying property backed loans

Underlying loans are secured against real estate, where the provided facility will generally not exceed 70% of the property value and the overall LTV of the portfolio will not exceed 65%
There are two types of lending traditionally undertaken:

Property Bridging Loans

- **Bridging loans**
 - Generally 12-24 months but potentially up to 36 months in duration
- **Utilised by property investors, landlords and developers for a range of purposes including:**
 - Property purchases
 - Light refurbishment
 - Auction purchases (where completion may be required within 30 days)
 - Short-term liquidity (e.g. working capital requirements)
- **Bridging is quite often required at short notice**

Property Development Loans

- **Development funding**
- Usually for a period of between 6-18 months
- **Originated to assist with the purchase and build costs associated with development**
 - Ground-up development
 - Heavy refurbishment/conversions

LOAN NOTES

Amberton Portfolio *Management*

AMBERTON

Due Diligence / Loan Analysis

- Review and investment assessment of Credit papers presented by the origination teams of Sancus & Hawkbridge
- Independent analysis of the characteristics of each loan to ensure compliance with guidelines and restrictions of the Amberton investment mandate
- Amberton operates on a discretionary basis allowing for independence of Capital allocation
- Data driven decisioning to ensure a balanced and diversified Asset basket

Diversification

- **Geography** - multiple jurisdictions and residential hubs allowing for avoidance of concentration risks
- **Sector** - a wide range of asset types available
- **Debt type** - Residential Development & Bridging lending, plus Selective Commercial opportunity
- **Maturity** - varying duration with a maximum term principally of 24 months

Risk and Portfolio Management

- Ongoing monitoring of individual loans and portfolio makeup
- Full treasury management inclusive cash position, coupon accrual , capital allocation and liquidity planning
- Regular communication with loan originators, Administrators and Professional parties to ensure a robust structure, performance, and efficiency of portfolio

Restrictions on use of Proceeds of the Issuance

- No loan shall represent more than 10% of the issuer's net asset value*
- No specific geographical restrictions, but Sancus loans are focused on the United Kingdom and Hawkbridge loans are focused on Jersey
- The proceeds will only be allocated to performing loans
- The proceeds will not be allocated to a loan if the Average Loan to Value of the Loan Portfolio would then move above 65% LTV
- The proceeds will not be allocated to a loan, if said allocation would take the percentage of loans within the portfolio below 70% of GBP loans
- Where reasonable to do so, all non-sterling loans will be hedged back to GBP to reduce Loan Note holders' foreign currency exposure

* Amberton aims to achieve a minimum of 20 loan positions at any one time (goal of 5% concentration limit).

LONG-ONLY EQUITY FUNDS

Investing for growth through active, high-conviction equity portfolios

AMBERTON

Somerston Technology Fund

- The Somerston Technology Fund invests in 20–30 publicly listed companies that are poised to benefit from technological advancements.
- Operates with belief that technology will continue to have a greater influence on our lives and represent a greater proportion of the global economy.
- Identifies those companies with the potential for sustained, superior growth.
- Highly concentrated.
- Portfolio activity takes advantage of periods of mispricing and repositions for superior growth opportunities.
- While returns may exhibit greater volatility than those of the average investment fund, it is designed to capture outsized growth opportunities over the long term.
- With a 40-year presence on the US West Coast and a strong track record in both public and private technology investments, Somerston is well placed to navigate the sector's evolution.

Somerston Core Equity Fund

- The Somerston Core Equity Fund invests in 20–30 publicly listed, high quality companies.
- Genuine Quality Compounders generating shareholder value.
- The Fund invests in companies that demonstrate strong governance, high profitability, low capital intensity, strong economic moats and low business risk.
- These companies provide essential goods or services that are either highly valued or deeply embedded in society.
- The companies are led by experienced management teams with a proven track record of disciplined capital allocation.
- The fund maintains a long-term focus. As a multi-generational family office with over 150 years of investment experience, Somerston is well positioned to back high-conviction ideas over the long term, taking advantage of market inefficiencies and mispricing.

MULTI-ASSET FUNDS

Actively pursuing long term growth
through multi-asset strategies

AMBERTON

Somerston Multi Asset Fund

- The Somerston Multi Asset Fund invests in liquid assets across the globe including equities, REITS, bonds, credit and commodities, as well as specialist third party managers.
- Reflects Somerston's best view of opportunities across asset classes, aiming to deliver an attractive total return within an 8–10% volatility range.
- Tactical asset allocation takes advantage of market cycles without being inhibited by percentage limitations to asset type.
- Capable of taking long / short positions where appropriate
- Unconstrained by traditional benchmarks, it is designed to deliver differentiated performance from peers, balancing opportunity with risk management.

Somerston Rainy Day Fund

- The aim of the Somerston Rainy Day Fund is to provide readily realisable, positive returns, during most forms of financial market adversity, while maintaining good value in benign environments.
- Designed around one of the key concerns for a multi generational family office, a currency shock that destroys real value.
- Core holding is physical precious metals, stored securely in vaults outside the financial system.
- Allocation to long-volatility hedge funds, cash instruments, inflation-linked government bonds, and select long/short equity strategies.
- This unique 'risk-off' approach provides a robust hedge against systemic shocks and tail risks.

Somerston Managed Growth Fund

- The Somerston Managed Growth Fund seeks to grow capital over the medium term by predominantly investing in global equities and managing risks through tactical allocation and portfolio construction.
- Designed for investors seeking long-term equity growth with active downside risk management
- Structured to address the behavioural impact of periodic drawdowns, which can lead investors to under-allocate to equities and impair long-term compounding
- It invests primarily in equities, allocating capital to Somerston's highest-conviction growth ideas
- Integrating equity selection with macro and defensive risk management in a single portfolio framework
- High net equity exposure is typically maintained in normal market environments
- When drawdown risk is assessed as elevated, exposure may be reduced and reallocated dynamically across asset classes
- Model-informed reallocation to defensive, multi-asset and long volatility strategies during periods of market stress
- The approach reflects Somerston's diligent use of volatility-aware portfolio construction across market cycles
