Our Cocktail Philosophy

At Billy Sushi, we believe that every great restaurant and bar on the planet has the responsibility to develop an equally great cocktail menu - one that is dripping with creativity and flavor one that inspires every individual guest to be the person they desire to be and brings out their own sense of creativity and adventure.

The same way the words and the melody of a song can express something unique to each of us yet somehow also connects and ties us together. There is something about the magic of a song and the story that it tells. Our goal is that our custom-crafted cocktails contain that same magical recipe.

Billy Sushi is proud of our Minnesota musicians and the legacy they've created. That pride and admiration is what inspired us to name our cocktails after the songs and lyrics crafted by our state's talented musicians.

Kampai

Craft & Ceremony 匠と儀
