OUR BUSINESS MODEL

KEY BUSINESS ASPECTS

TRSP – Terminal Gas

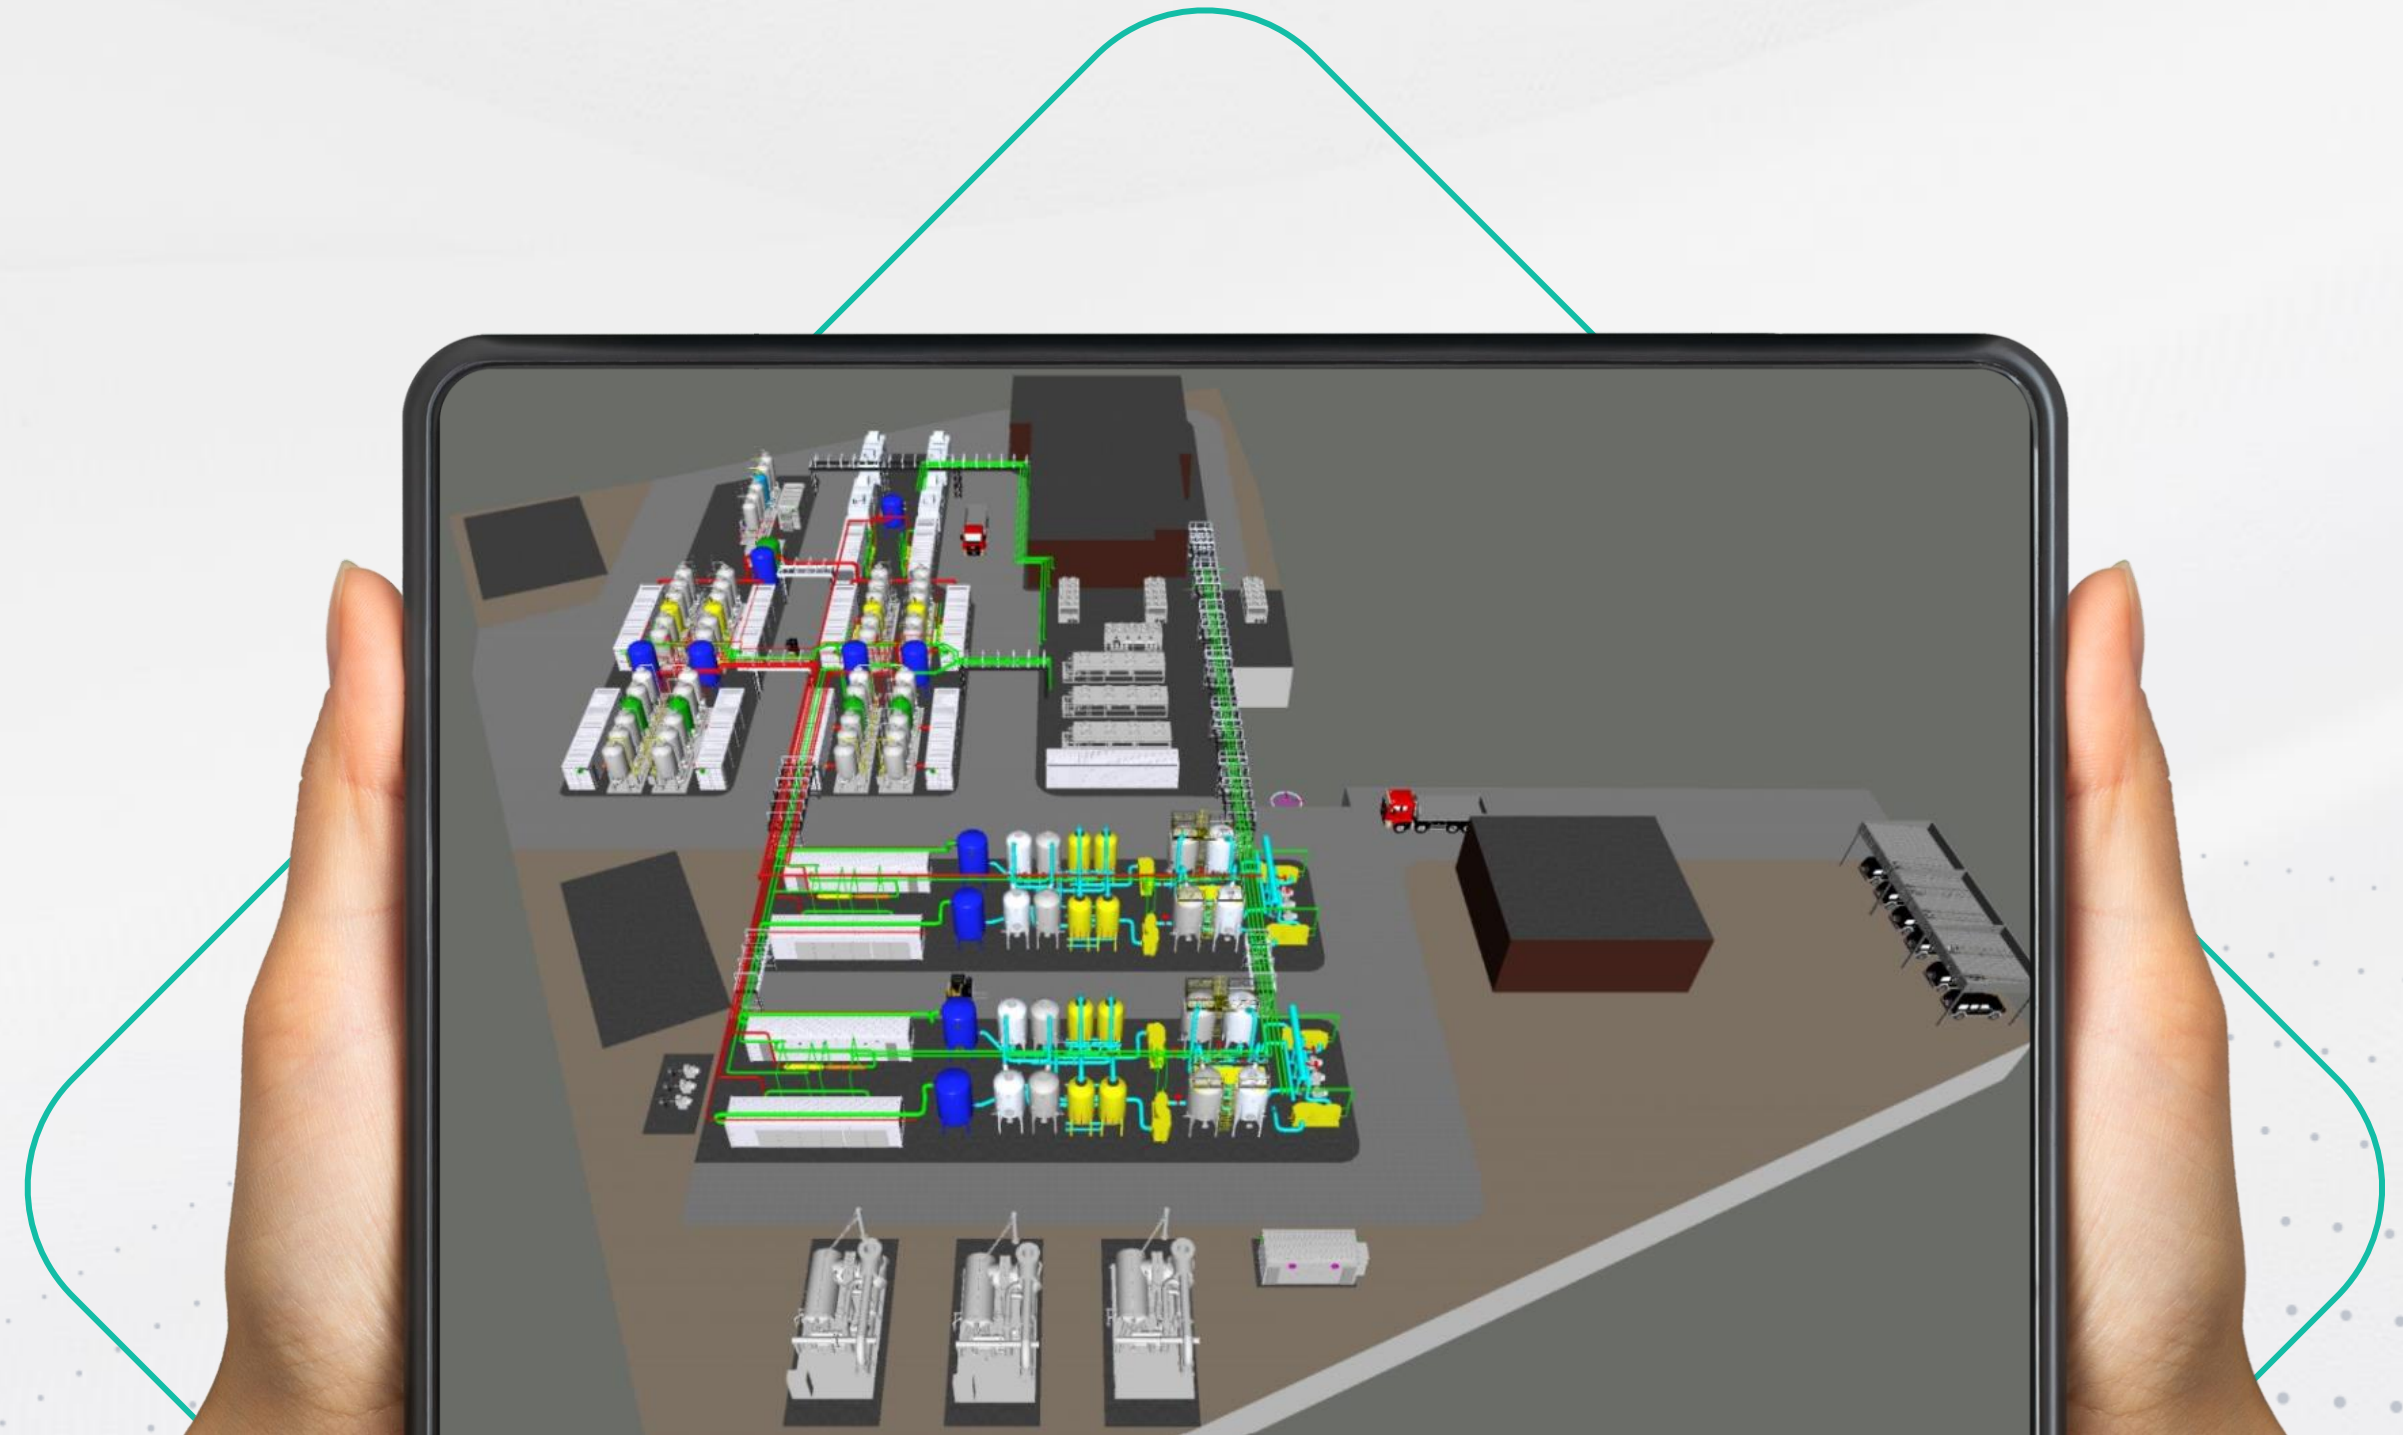

This terminal boasts a regasification capacity of 14 million m³ per day and a storage capacity of 173 thousand m³ of liquefied natural gas (LNG).

KEY BUSINESS ASPECTS

Biomethane

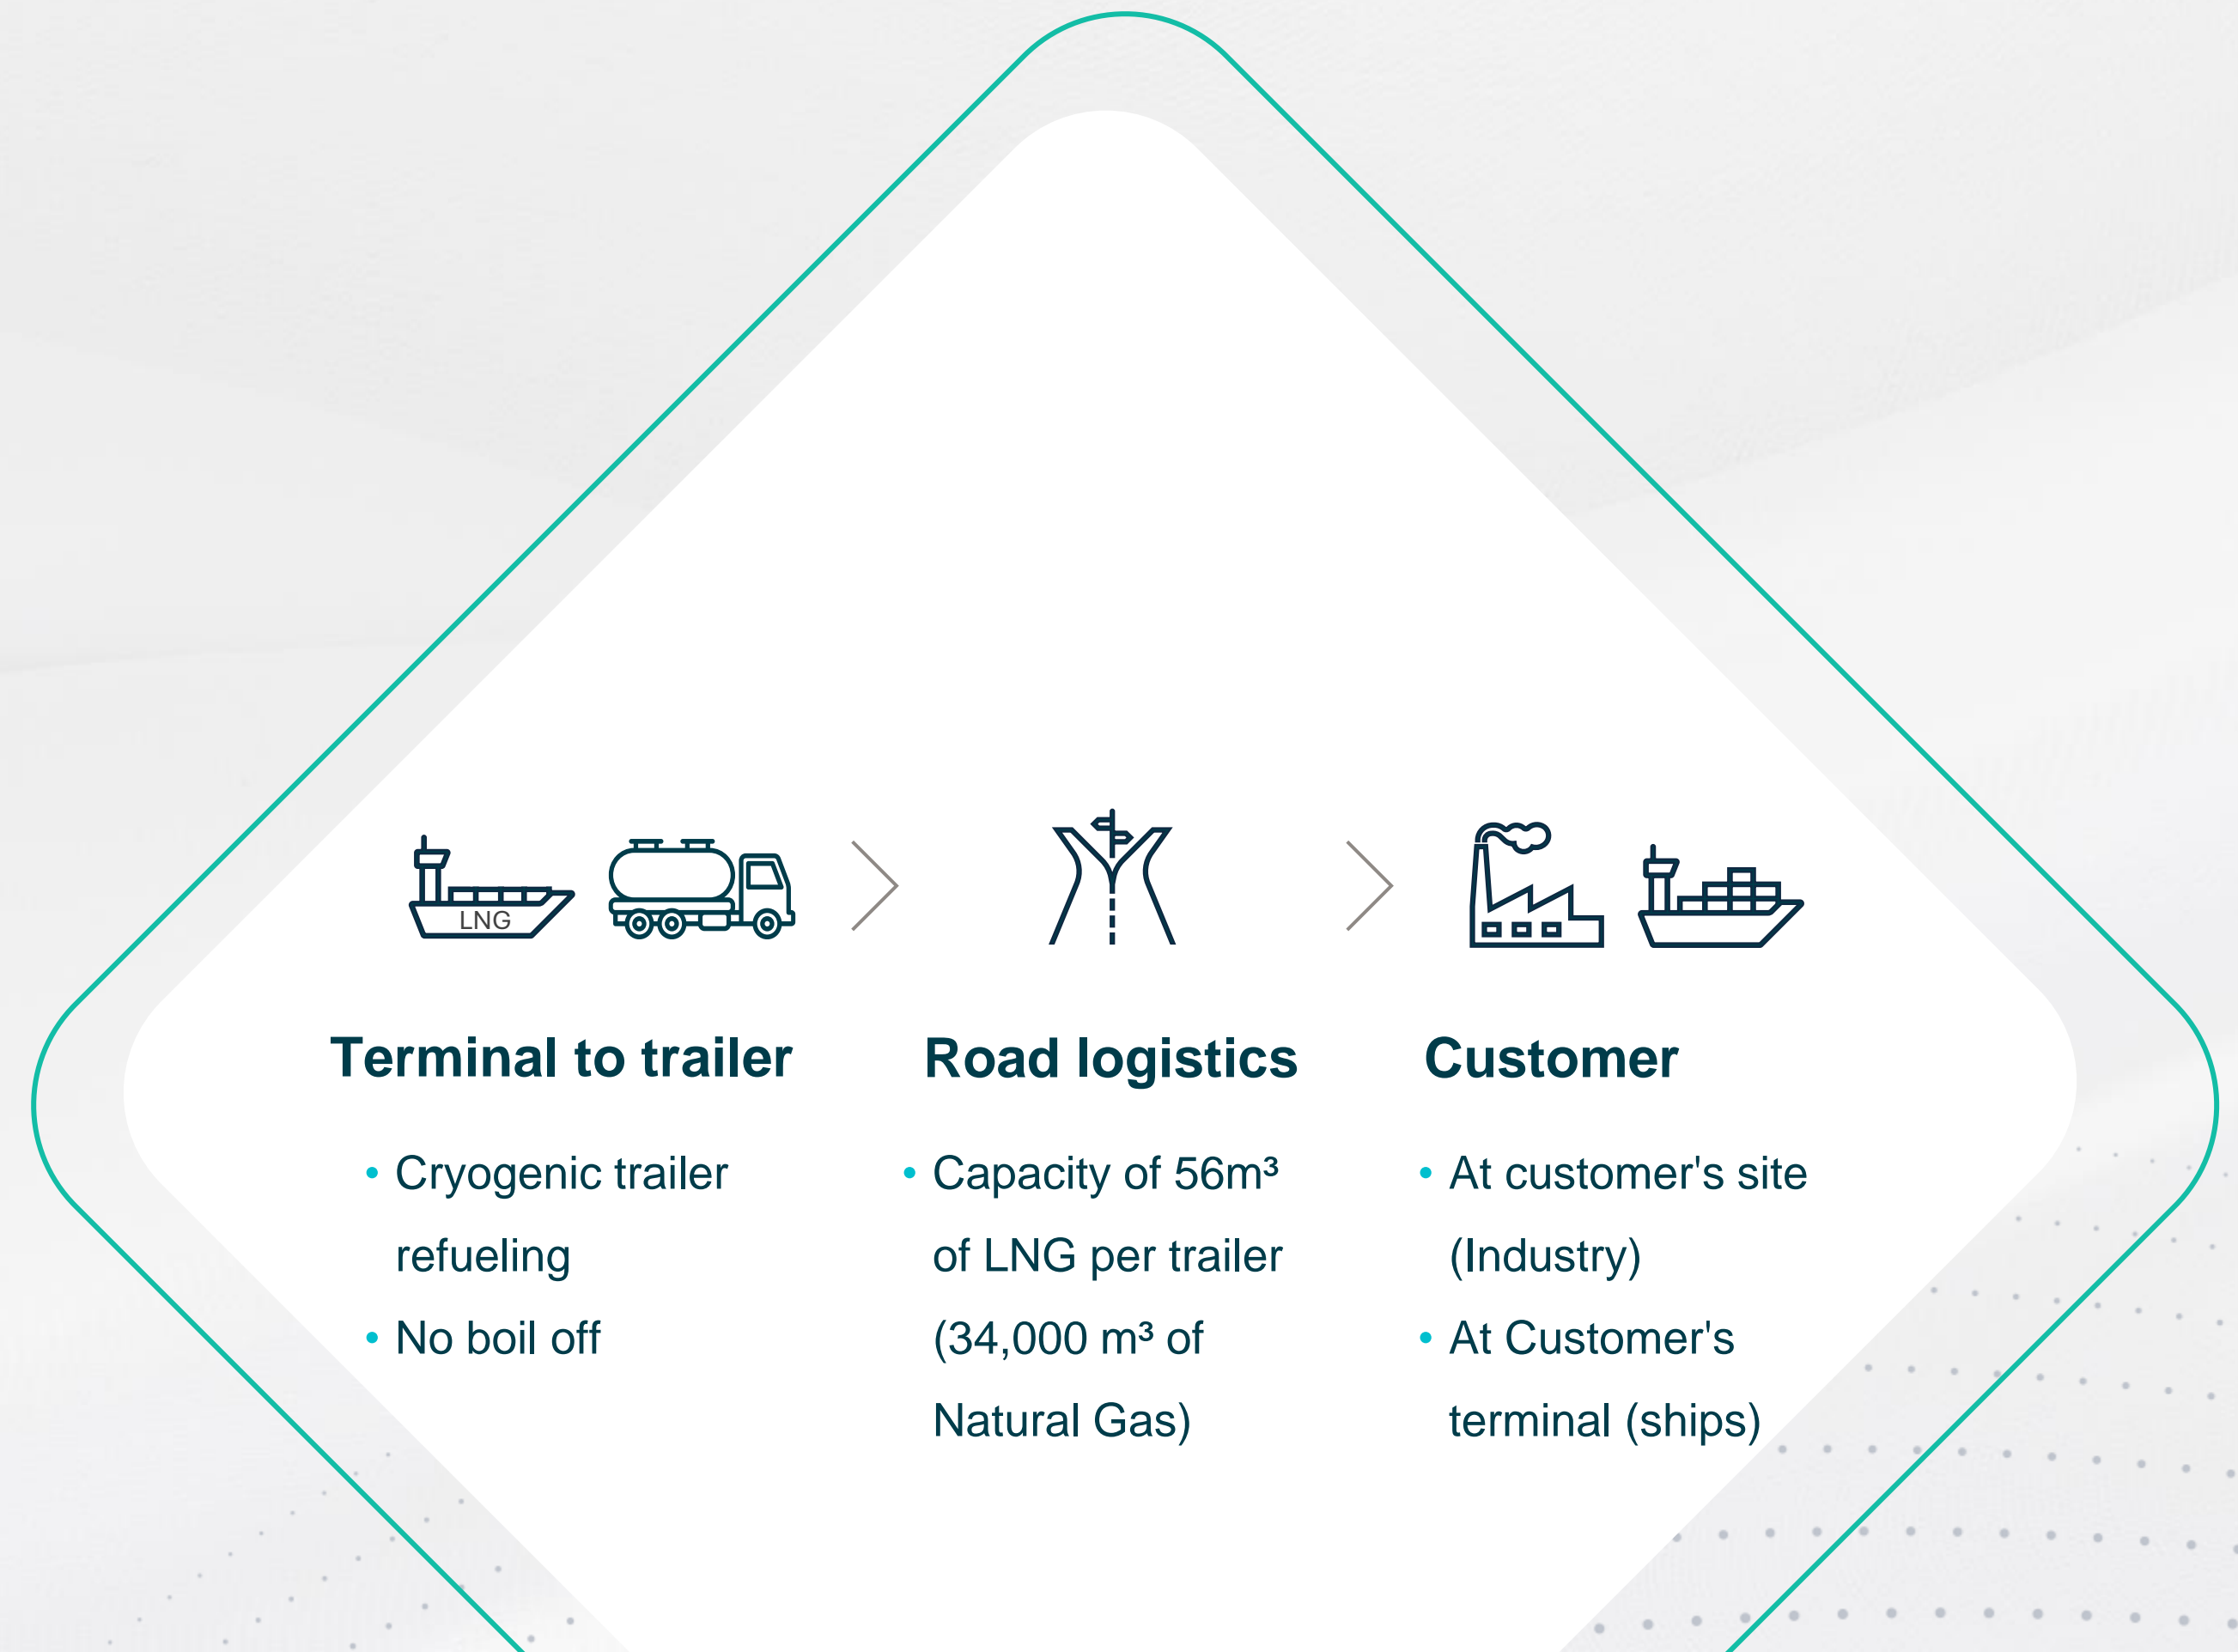

A biogas purification plant in Paulínia (SP) and a long-term contract with the São Martinho sugar-energy group.

KEY BUSINESS ASPECTS

Small-Scale LNG (Off-Grid B2B)

Supplies LNG to off-grid clients not connected to the gas pipeline network. Delivered by truck, the LNG is regasified on-site using Edge's assets and management.

KEY PRIORITIES

**SAFETY &
CLIENTS**

**MARKET
DEVELOPMENT**

**OPERATIONAL
EXCELLENCE**

Thanks!
