Sub.: Glencore GIIGNL Membership Application

Dear Sirs,

With regard to the subject matter, please find attached a PDF presentation overview of our company and LNG global portfolio. We trust this provides a comprehensive insight into our activity in the LNG space but welcome any questions you may have.

We are extremely interested in becoming a GIIGNL member to participate in the member forums, study groups and to share information about commercial and technical developments in LNG.

Glencore shares GIIGNLs values to develop activities related to LNG. Furthermore, we are consistently reviewing our operations and practices and believe becoming an active member of GIIGNL will greatly assist our ability to ensure best practices are adopted at Glencore.

Thanking you,

Sincerely Yours,

LNG TRADING OPERATOR
GLENCORE ENERGY UK LTD
