Membership profile

- ✓ Owner/operator of a receiving terminal ●
- ✓ Importer/merchant company □

Brief description of the company's LNG activities:

The description will especially detail the activities :

- as a holder of re-gasification rights,
- and/or as an owner and/or an operator of an LNG re-gasification terminal.

If the contracts or terminal are not into service, please specify when they should be, and what are their present exact status

- DLTPL is a wholly owned (100%) subsidiary of Adani Total Private Ltd ("ATPL").
- DLTPL has set up a 5 million tons per annum (mtpa) nominal capacity terminal with a peak capacity of 6.5 mtpa in the current phase in East India.
- The Terminal is an integral part of Dhamra Port, which operates on India's eastern coast under the name "Dhamra Port Company Limited (DPCL)." This port is an all-weather, multi-user facility capable of handling various types of cargo.
- Dhamra Port's strategic location in close proximity to the mineral-rich regions of Orissa, Jharkhand, and West Bengal provides enhanced hinterland connectivity (road, rail and inland waterways) and operational efficiency.
- The Terminal is operating on a tolling business model where Users have booked capacity on a "Use or Pay" basis.
- IOCL and GAIL has signed Tolling Agreements with DLTPL respectively subscribing in total 90% of its capacity (4.5 mtpa out of a total of 5 mtpa) on a long-term basis.
- The term of these agreements runs from 21st May 2023 to 20th May 2043
- Contracted Capacity by IOCL is 3 mtpa and GAIL is 1.5 mtpa.
- Commercial Start Date of the terminal was 21st May 2023

Main reasons for the application for membership within GIIGNL:

DLTPL would like to be part of the LNG fraternity willing to exchange information, participate in seminars and committees related to technical and safety that will mutually benefit the company & industry.

SAMIRAN GHOSH, TERMINAL MANAGER, DLTPL
