

## Benefits of GIIGNL Membership

Becoming a member of GIIGNL offers exclusive advantages that support collaboration, knowledge-sharing, and strategic insight across the global LNG industry:

### Global Networking

- Connect with over **90 LNG companies** and nearly all entities involved in the operation of LNG regasification terminals worldwide.

### Full access to Industry Intelligence with the GIIGNL Resource library and Events materials

- Gain access to **member-only resources**, including:
  - Comprehensive **industry statistics**
  - In-depth **technical and commercial studies**
  - The **Incident Identification Database**
  - Reports from **Study Groups** and **Task Forces**

### Participation in Expert Groups

- Join the **Technical Study Group** and **Commercial Study Group**, each meeting **twice a year**, to exchange insights and best practices.

### Engagement in Task Forces

- Contribute to **task forces** addressing key topics such as:
  - Emerging or pending **legislation**,
  - **Technical innovations**,
  - **Operational developments...**

### Influence and Innovation

- Submit proposals for **new studies** to be considered by the General Assembly and showcase **new projects** to fellow members.

### High-Level Strategic Dialogue

- Participate in **CEO- and senior-level discussions** at the General Assembly on topics of mutual interest and strategic importance.
