# LNG at ConocoPhillips

## Pioneer and first mover during inception of the LNG industry

- **65-plus years of LNG history** includes the *development of the LNG tanker* and world's first LNG imports to Japan from Kenai, Alaska, in 1969
- Developed the technologies to produce, transport and market this vital resource

## Significant strengths in natural gas marketing and trading supports growing global LNG portfolio

- Among **top 5 largest** natural gas producers and marketers in North America
- Optimized Cascade® technology licensed in **28 liquefaction trains** globally
- Commercial marketing, trading and representation offices across the globe

## Portfolio enhanced with strategic agreements focused on equity, offtake and regasification across the globe

- Asia Pacific: Increased APLNG equity and Qatari expansion projects
- Africa: Equatorial Guinea LNG added with Marathon Oil acquisition
- North America: Port Arthur LNG Phases 1 and 2, Energía Costa Azul, and Rio Grande Train 5
- Europe regas: German LNG, Gate (Netherlands), Zeebrugge (Belgium), and Dunkerque (France)
