

The Chugoku Electric Power Co., Inc.

Description of current LNG activities

In 2024 fiscal year, 26 cargoes of LNG equivalent to approx. 1.5 million tons were discharged at Yanai and Mizushima terminals.

As of October 1st, 2025, a total of 761 cargoes have been discharged at Yanai Terminal and 275 cargoes at Mizushima Terminal this year. A large portion of unloaded LNG has been consumed at our power stations. The remainder of the LNG has been supplied to local city gas companies and industrial users since 2000.

Notable deals or key events

Shimane Nuclear Power Plant Unit 2, which had been in hiatus for 13 years, has begun its Commercial operation from January 10, 2025.
