

Current Activities in the LNG Field (Tokyo Gas)

1. Gas supply volume (FY2024)

Gas supply volume for FY2024 was 15.7 billion cubic meters.

(Unit: million cubic meters/45MJ)

Gas sales volume				Tolling	LNG sales	Total
Residential	Commercial	Industrial	Wholesale			
2,663	2,267	4,681	1,604	2,350	2,121	15,686

2. LNG Imports (FY2024)

LNG import volume for FY2024 was 11.56 million tons. The supply mainly comes from the four countries where Tokyo Gas has long-term contracts; Australia, Malaysia, Russia and U.S.A.

(Unit: million tons)

	Australia	Malaysia	Russia	U.S.A.	Others	Total
Volume	5.68	1.93	1.62	0.78	1.55	11.56
Share	49.2%	16.7%	14.0%	6.8%	13.3%	100%

3. Topics

■ Participation in the CLEAN Initiative for Methane Emission Reduction October 2024

Tokyo Gas Co., Ltd. has joined the CLEAN Initiative (Coalition for LNG Emission Abatement toward Net-zero), coordinated by JOGMEC, to reduce methane emissions and improve transparency in the LNG value chain. As of June 2025, 27 companies have joined the initiative, which promotes collaboration with organizations such as UNEP and IEA. Tokyo Gas views this participation as a key step toward carbon neutrality and is working to establish systems for methane measurement and reporting.

■ Acquisition of Shares in Floating LNG Terminal Operator in the Philippines February 2025

Tokyo Gas Co., Ltd. has acquired a 20% stake in FGEN LNG Corporation, which owns and operates a floating LNG terminal in Batangas City, Philippines. This marks Tokyo Gas's first investment in an overseas LNG terminal that has commenced commercial operations.

The terminal, developed in partnership with First Gen Corporation since 2018, utilizes a Floating Storage and Regasification Unit (FSRU). Tokyo Gas will apply its operational expertise to support stable energy supply and the transition to a low-carbon society.

■ Conclusion of Joint Development Agreement for Shale Gas Assets in the U.S. April 2025

Tokyo Gas Co., Ltd., through its wholly owned subsidiary Tokyo Gas America Ltd. and TG Natural Resources, has signed a joint development agreement with Chevron Corporation for shale gas assets in East Texas. The acquired assets are expected to offer high profitability and development potential, contributing to long-term supply and improved asset efficiency. This agreement is part of Tokyo Gas's portfolio optimization efforts, including the sale of Eagle Ford interests, and supports the company's strategy to expand LNG trading and ensure stable energy supply.
