

Company Report

1. Gas Sales

Gas sales volume in FY2024 was 647 million cubic meters (45MJ/m³), an increase of 0.3% over the previous year.

	FY2024	Change (vs. FY2023)
Gas Sales Volume (million cubic meters)	647	+0.3%
Number of gas customers (million)	0.60	+0.05%

2. LNG Quantity Received

In FY2024, we received approximately 720,000 tons of LNG. The volume of LNG received has been increasing every year in line with the increase in the number of customers and gas sales volume.

3. Topics

A) Cumulative LNG tanker truck shipments exceed 100,000 units

Cumulative shipments of LNG tanker trucks surpassed 100,000 units in September 2025. We started the “LNG Satellite Supply Business” in 2012 with the commencement of operations at the Ishikari LNG Terminal.

We are expanding the usage of natural gas in Hokkaido. In May of this year, we implemented “LNG Bunkering” for ferries using LNG tanker trucks for the first time in Hokkaido.

B) Challenges to carbon neutral (Commencing commercial operation of the wind power plant)

We commenced commercial operation of a wind power plant in Ishikari City on March 1, 2025. Its generating capacity is 2,350 kW, with an annual projected power generation of 6 million kWh. This is our first self-constructed wind power plant.
