

# GIIGNL

**EcoEléctrica**  
A better environment with natural gas

## 79th TSG Meeting • April 8–9, 2026 • Puerto Rico

### DRAFT AGENDA

#### 1. Introduction

Welcome, Safety briefing, Approval of the agenda and Organization of the meetings, Round table Introduction

#### 2. News from GIIGNL

- Approval of the minutes of the 78<sup>th</sup> TSG meeting held in Osaka in Oct 2025
- Last General Assembly, Next Executive Committee

#### 3. Process Safety on LNG Facilities

- LNG Incident database - Elengy (Mr. Caudron)  
(*Status of the data base, Recent developments, Potential improvements, New incidents*)
- Lessons from latest incidents - All members  
(*New incidents/near misses (to be determined)*)
- New SIGTTO document : '*Lifecycle management integrity framework for ERS*' - Shell (Mr. VegaPerez)

#### 4. Operations & Maintenance

- Operations
  - Update on recent issues with LNG composition (N<sub>2</sub>, C<sub>6+</sub>, O<sub>2</sub>...) – All members
  - O&M surveys (Recent surveys, new topics..) – All members
  - LNG carrier mooring (mooring evaluation, selection of the right rope) – MOL (Cpt. Mulji)
- Maintenance
  - Working group on maintenance KPI's – Sempra Infrastructure (Mr. Malcolm)
- Digital
  - Recent use of digital application in O&M – All members

## 5. Health & Safety

- Potential HSE issues with LNG composition (Betex, Norms..) – All members

## 6. Environment

- GHG emissions
  - Updates on methane detection, measurement, reduction – All members
  - Working group on reducing the CO2 footprint of the LNG terminals – Dunkerque LNG (Mr. Planteline)
  - Renewable Hydrogen for Flare pilot at Huelva – Enagas (Mr. Jimenez)
  - Working group on collection of primary data from regas terminals (Shell)
  - Updates on the GIIGNL GHG emission framework (TSG/CSG common meeting)
- Use cases to reduce GHG emissions
  - Renewable Hydrogen for Flare pilot at Huelva – Enagas (Mr. Jimenez)
  - Use of ground flares (Total Energies (Mr. Pasteau) / Freeport LNG (Mr. Vara)
- Updates on climate stress analysis – All members

## 7. GIIGNL Publications

- Update of the Rollover report to include FSRUs/FSUs – Shell (Mr. Vega Perez)
- Update of the Custody Transfer Handbook – Fluxys LNG (Mr. Stevens)

## 8. Other matters

- New subjects : All members are invited to propose new topics to the TSG, such as updates of previous publications, publication on green gases, increase terminal flexibility, truck loading standardization..etc
- Co-ordination with other gas bodies (IGU, ISO, SIGTTO, GLE, GERG, Marcogaz, ...)

## 9. Verbal reports by Members on topical LNG matters

*Round table of recent LNG development in existing FSRU/terminals.*
