

Power the Science.

Build A Complete Dispensing Workflow Faster.

BUY XYZ + CM5000™ → GET LM5000™ LAMINATOR FREE

Limited-time bundle for diagnostic and lateral flow manufacturers.

What is the Offer?

Bundle your dispensing and cutting workflows and receive a laminator at no additional cost. This limited-time promotion enables teams to accelerate production readiness with a fully integrated solution.

Why Does This Bundle Work?

Eliminate workflow gaps and scale with confidence. This bundled offer helps teams move seamlessly from development to production with the tools they need from day one.

One investment. Complete workflow solution. Immediate production advantage. This bundle helps teams transition from R&D to manufacturing with the required tools, while reducing equipment spend.

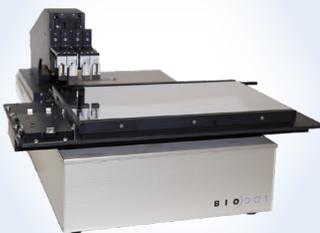

Why This Bundle Matters?

- Save capital investment on laminator equipment.
- Speed up production readiness.
- Eliminate workflow gaps between dispensing, cutting, and lamination.
- Ensure consistent, integrated performance across your process.

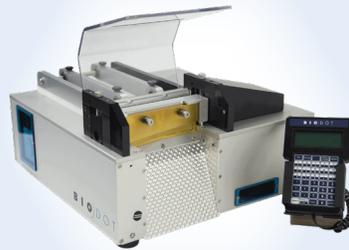

Who Should Consider This?

- Lateral flow manufacturers.
- Diagnostic development labs.
- Existing BioDot users expanding operations.

Buy XYZ + CM5000 and get LM5000 laminator FREE.
