You can also identify forward-looking statements by discussions of strategy, plans or intentions. These statements reflect our current views with respect to future events and are subject to risks, uncertainties and assumptions.

We may not be successful in implementing our business strategies, and management may fail to achieve its targets, for a wide range of possible reasons, including, without limitation, incurrence of significant credit-related costs; declines in the value of our securities portfolio; changes in interest rates; foreign currency fluctuations; revised assumptions or other changes related to our pension plans; failure to maintain required capital adequacy ratio levels; downgrades in our credit ratings; the effectiveness of our operational, legal and other risk management policies; our ability to avoid reputational harm; and effects of changes in general economic conditions in Japan.

Further information regarding factors that could affect our financial condition and results of operations is included in "Item 3.D. Key Information—Risk Factors," and "Item 5. Operating and Financial Review and Prospects" in our most recent Form 20-F filed with the U.S. Securities and Exchange Commission ("SEC") which is available in the Financial Information section of our web page at www.mizuho-fg.co.jp/english/ and also at the SEC's web site at www.sec.gov.

We do not intend to update our forward-looking statements. We are under no obligation, and disclaim any obligation, to update or alter our forward-looking statements, whether as a result of new information, future events or otherwise, except as may be required by the rules of the Tokyo Stock Exchange.

CONSOLIDATED RESULTS OF OPERATIONS AND FINANCIAL CONDITIONS

(Please refer to Summary Results for the Third Quarter of Fiscal 2007 on page 2-1 for more information)

(1) Results of Operations

Consolidated Gross Profits for the third quarter of fiscal 2007 came to ¥1,291.3 billion, decreasing by ¥204.2 billion from the corresponding period of the previous fiscal year.

This is because Mizuho Securities(consolidated basis) recorded a significant decline of its profitability, suffering from the dislocation in the global financial markets which stemmed from the US subprime loan issues, and other factors, while the income of the banking subsidiaries is increasing with the substantial increase from Customer Groups, particularly that in net interest income from deposit and loan business, and strong market-related income.

General and Administrative Expenses amounted to ¥837.6 billion, increasing by ¥37.3 billion from the corresponding period of the previous fiscal year. This resulted from the strategic allocation of management resources aimed at increasing top-line profits.

Credit-related Costs including Expenses related to Portfolio Problems reverted to a net provision of ¥107.7 billion, increasing by ¥164.7 billion from a net reversal in the corresponding period of the previous fiscal year.

After reflecting the above, Net Income amounted to ¥393.0 billion, decreasing by ¥186.9 billion from the corresponding period of the previous fiscal year.

(2) Financial Conditions

Total Assets as of December 31, 2007 amounted to \(\frac{\text{\tin}\text{\tetx{\text{\texi}\text{\text{\texi}\text{\texi}\text{\text{\texi{\text{\texi}\text{\texi{\text{\text{\text{\text{\text{\text{\text{\tex

Net Assets amounted to \(\frac{\pmathbf{\pmath}\exi\qna}\pmathbf{\pmathbf{\pmathbf{\pmathbf{\pmathbf{\pmathbf{\

As for asset accounts, Loans and Bills Discounted amounted to \$67,927.4 billion, increasing by \$2,470.9 billion, and Securities amounted to \$34,070.3 billion, decreasing by \$2,721.4 billion from the end of the corresponding period of the previous fiscal year. As for liability accounts, Deposits amounted to \$74,986.2 billion, increasing by \$2,827.8 billion from the end of the corresponding period of the previous fiscal year.

(3) Earnings Estimates

Considering increasing losses due to the dislocation in the global financial market stemming from the US subprime loan issues, and other factors, MHFG hereby revises its consolidated earnings estimates for fiscal 2007, which were announced on November 14, 2007, and estimates ordinary profits of \(\frac{1}{2}630.0\) billion (a decrease of \(\frac{1}{2}200.0\) billion from the November 2007 estimate) and net income of \(\frac{1}{2}480.0\) billion (a decrease of \(\frac{1}{2}170.0\) billion from the November 2007 estimate).

The above estimates constitute forward-looking statements within the meaning of the United States Private Securities Litigation Reform Act of 1995. Please see the "forward-looking statements" legend at the bottom of page 1-2 for a description of the factors that could affect our ability to meet these estimates.

OTHERS

1. Adoption of Simplified Accounting Methods

The consolidated balance sheet, the consolidated statement of income, and the consolidated statement of changes in net assets for the third quarter (excluding the notes other than for the segment information. Hereinafter referred to as "Quarterly consolidated financial statements.") were prepared in conformity with the "Policy for Preparation of Quarterly Consolidated Financial Statements" which MHFG established pursuant to the provisions of the standards for preparation of the interim consolidated financial statements, etc., and the simplified accounting methods set out below to the extent that they do not materially mislead interested parties such as investors.

O Accounting for Reserves for Possible Losses on Loans

(Self-assessment of Assets)

All claims are assessed by each claim origination department in accordance with the internally established "Self-assessment Standard."

(Estimated rate of loss)

The amount of Reserves for Possible Losses on Loans is calculated by multiplying (a) the balance of claims extended to normal obligors, watch obligors, and intensive control obligors as of December 31, 2007, which was determined based on the above self-assessment, less the loans whose reserves were individually assessed and provided with, by (b) the estimated rate of loss of each obligor classification used in the financial statements for the first half of fiscal 2007.

2. Independent Accountant's Review

The quarterly consolidated financial statements were prepared in accordance with the "Policy for Preparation of Quarterly Consolidated Financial Statements" described in 1 above and were reviewed by MHFG's independent accountant, Ernst & Young ShinNihon.

3. Changes in Accounting Methods and Presentation of Consolidated Financial Statements since the Most Recent Fiscal Year

(1) The assessment standard and the assessment method of Securities

Net Unrealized Gains/ Losses on Other Securities, net of Taxes have been receiving greater focus because of the considerable change in the market circumstances these days, and the values of securities deemed as market prices such as those obtained from brokers and financial information vendors have been more available. Hence, taking into account the convergence of global accounting standards, if the values deemed as market prices could be obtained by the reasonable estimate, Other Securities formerly measured at acquisition cost as securities without fair values are measured at such values.

(2) The method of depreciation

In accordance with the revision of the Corporate Tax Law of 2007, depreciation of the tangible fixed assets acquired on or after April 1, 2007 is computed by the procedure stipulated in the revised law. As a result, Ordinary Profits and Income before Income Taxes and Minority Interests decreased by \mathbb{\pm}1,021 million compared with the corresponding amounts under the previously applied method.

As for the tangible fixed assets acquired before April 1, 2007 and depreciated to their final depreciable limit, the salvage values of them are depreciated using the straight-line method in the following five fiscal years. As a result, Ordinary Profits and Income before Income Taxes and Minority Interests both decreased by ¥1,422 million compared with the corresponding amounts under the previously applied method.

(3) Reserve for Possible Losses on Sales of Loans

Reflecting the considerable changes in the market circumstances these days, Reserve for Possible Losses on Sales

of Loans is provided for possible future losses on sales of loans at the amount deemed necessary based on a reasonable estimate of possible future losses.

(4) Reserve for Frequent Users Services

Reserve for Frequent Users Services is provided to meet the future use of points of Mizuho Mileage Club at the amount deemed necessary based on the reasonable estimate of the future usage of points. While the Reserve was formerly included within Other Liabilities because of its limited materiality, it has been stated independently from this period due to its increased materiality with the increase in the number of members.

(5) Reserve for Reimbursement of Deposits

In accordance with "Auditing Treatment relating to Reserve defined under the Special Tax Measurement Law, Reserves defined under the Special Law and Reserve for Directors and Corporate Auditor Retirement Benefits" (The Japanese Institute of Certified Public Accountants ("JICPA") Auditing and Assurance Practice Committee report No.42, April 13, 2007) effective from the fiscal year 2007, MHFG has adopted the report from this period to recognize Reserve for Reimbursement of Deposits for the deposits derecognized from the liabilities at the estimated amount of future claims for withdrawal. As a result, Ordinary Profits and Income before Income Taxes and Minority Interests both decreased by ¥8,520 million compared with the corresponding amounts under the previously applied method.

(6) Reserves under Special Laws

Reserve for Contingent Liabilities from Futures Transactions and Reserve for Contingent Liabilities from Securities Transactions, which were recognized under Article 81 of the Financial Futures Transaction Law and under Article 51 of the Securities and Exchange Law respectively, are stated as Reserve for Contingent Liabilities from Financial Instruments and Exchange from this period because of the enforcement of the Financial Instruments and Exchange Law on September 30, 2007.

(7) Others

① Practical Solutions on Unification of Accounting Policies Applied to Foreign Subsidiaries for Consolidated Financial Statements

Given that the "Practical Solutions on Unification of Accounting Policies Applied to Foreign Subsidiaries for Consolidated Financial Statements" (the Accounting Standards Board of Japan ("ASBJ") Report No. 18, May 17, 2006) took effect preliminarily from the fiscal year beginning on or before March 31, 2008, MHFG adopted the new standards commencing with this period.

2 Accounting Standards for Financial Instruments

The definitions of securities in "Accounting Standards for Financial Instruments" (ASBJ Statement No. 10) and in "Practical Guidelines on Accounting Standards for Financial Instruments" (JICPA Laws and Regulations Committee Report No. 14) were partially revised on June 15, 2007 and on July 4, 2007 respectively, which is applicable from the fiscal year and the interim period ending on or after the enforcement date of the Financial Instruments and Exchange Law. MHFG has adopted the revised standards and guidelines commencing with this period.

③ Practical Guidelines for Tax Effects on Consolidated Financial Statements

As for the tax effects of sales of investments (such as subsidiaries' stocks) within the Group, MHFG has adopted Paragraph 30-2 of "Practical Guidelines for Tax Effects on Consolidated Financial Statements" (JICPA Laws and Regulations Committee Report No. 6, March 29, 2007) from this period.

4. Subsequent events

Mizuho Capital Investment (JPY) 2 Limited, which is an overseas special purpose subsidiary and of which the voting rights are wholly owned by MHFG, issued Preferred Securities on January 11, 2008 as follows:

- (1) Type of Security: Japanese Yen denominated Non-cumulative Perpetual Preferred Securities (not convertible into MHFG's common stock)
- (2) Aggregate Issued Amount: $\pm 274,500$ million
- (3) Dividend Rate: 3.28% per annum (Fixed dividend rate until June 2018) Floating dividend rate after June 2018 (with Step-up)
- (4) Payment Date: January 11, 2008
- (5) The increase in Minority Interests resulting from the issuance of preferred securities amounted to ₹274,500 million. Proceeds from the issuance were ultimately provided to the banking subsidiaries as perpetual

subordinated loans and will be incorporated into "Tier 1 Capital," which is used in calculating the "Capital Adequacy Ratio."

You can also identify forward-looking statements by discussions of strategy, plans or intentions. These statements reflect our current views with respect to future events and are subject to risks, uncertainties and assumptions.

We may not be successful in implementing our business strategies, and management may fail to achieve its targets, for a wide range of possible reasons, including, without limitation, incurrence of significant credit-related costs; declines in the value of our securities portfolio; changes in interest rates; foreign currency fluctuations; revised assumptions or other changes related to our pension plans; failure to maintain required capital adequacy ratio levels; downgrades in our credit ratings; the effectiveness of our operational, legal and other risk management policies; our ability to avoid reputational harm; and effects of changes in general economic conditions in Japan.

Further information regarding factors that could affect our financial condition and results of operations is included in "Item 3.D. Key Information-Risk Factors," and "Item 5. Operating and Financial Review and Prospects" in our most recent Form 20-F filed with the U.S. Securities and Exchange Commission ("SEC"), which is available in the Financial Information section of our web page at www.mizuho-fg.co.jp/english/ and also at the SEC's web site at www.sec.gov.

Summary Results for the Third Quarter of Fiscal 2007

I. Summary of Income Analysis

➤ Consolidated Net Business Profits (Apr.1-Dec.31, 2007)

- Consolidated Net Business Profits for the nine months ended December 31, 2007 significantly decreased to JPY 432.9 billion on a year-on-year basis.
- Net Business Profits (JPY 599.6 billion) of 3 Banks for the same period increased by JPY 21.9 billion on a year-on-year basis, maintaining an upward trend. It was because income from Customer Groups, particularly net interest income from deposit and loan business, virtually increased, and market-related income was also strong.
- Meanwhile, Mizuho Securities recorded a significant decline of its profitability (a decrease of JPY 254.6 billion in Consolidated Ordinary Profits on a year-on-year basis), as it suffered from the dislocation in the global financial market stemming from the US subprime loan issues.

> Consolidated Net Income (Apr.1-Dec.31, 2007)

- Consolidated Net Income for the nine months ended December 31, 2007 decreased to JPY 393.0 billion by JPY 186.9 billion on a year-on-year basis. This was because, together with the aforementioned factors, Credit-related Costs in this period reverted from a net reversal in the corresponding period of the previous fiscal year to a net provision.
- Credit-related Costs increased on a year-on-year basis as Mizuho Bank conducted a review of obligors, especially for those with lower credit ratings, amid uncertainty over the future of the economy.

(Reference) Credit Costs Ratio *3 (excluding the impact of the dislocation in the financial market): approx. 16bps (3 Banks)

 The total impact of the dislocation in the global financial market stemming from the US subprime loan issues on our consolidated P&L was a loss of approximately JPY 345.0 billion for the nine-month period from April to December 2007 (an increased loss of approximately JPY 170.0 billion from the November 2007 estimate).

[Breakdown of the P&L impact of JPY 345.0 billion (including overseas subsidiaries)]

3 Banks

- Losses on sale of securitization products, etc.: approx. JPY -14.0 Bn
- Credit-related Costs associated with SIVs: approx. JPY -23.0 Bn
- Reserve for Contingencies associated with ABCP programs: approx. JPY -70.0 Bn
- Reserve for Possible Losses on Sales of Loans:approx. JPY -28.0 Bn
- Profits from hedging by CDS: approx. JPY 18.0 Bn

Mizuho Securities

- Trading losses on securitization products: approx. JPY -178.0 Bn (of which foreign currency denominated: approx. JPY -170.0 Bn)
- Allowance associated with US financial guarantors (monolines): approx. JPY -49.0 Bn

II. Steady Enhancement of the Group's Comprehensive Profitability

> Net Interest Income

- The average loan balance for the three-month period from October to December 2007 continued to increase mainly driven by expansion of overseas lending.
- In addition, the domestic loan-and-deposit rate margin for the same period steadily improved by 0.02% compared with the second quarter of fiscal 2007.
- Although Consolidated Net Interest Income for the nine-month period from April to December 2007 slightly decreased on a year-on-year basis, Net Interest Income of the 3 Banks increased backed by the aforementioned improvement in the domestic loan-and-deposit rate margin.

> Non-Interest Income

- Net Fee and Commission Income of the 3 Banks for the nine-month period from April to December 2007 decreased to JPY 251.8 billion by JPY 22.3 billion compared with the corresponding period of the previous fiscal year.
- As for our business with individual customers, fee income related to the sales of investment trusts and individual annuities for the three-month period from October to December 2007 decreased on a year-on-year basis.

As for our business with corporate customers, fee and commission income from solution-related business, foreign exchange business, and others decreased, against the backdrop of intensified competition among banks and other factors.

IV. Disciplined Capital Management

> Issuance of "Non-Dilutive" Preferred Securities

• In January 2008, we issued JPY 274.5 billion of preferred debt securities through an overseas special purpose subsidiary so as to increase the group's Tier 1 capital to secure the agility and to improve the flexibility of our future capital strategy.

Earnings Estimates for Fiscal 2007

We hereby revise our consolidated earnings estimates for fiscal 2007, which we announced on November 14, 2007, as follows.

(Figures below are on a consolidated basis)

➤ We estimate Consolidated Net Business Profits for fiscal 2007 to be JPY 620.0 billion, a decrease of JPY 371.6 billion on a year-on-year basis (a decrease of JPY 220.0 billion from the November 2007 estimate).

This is because, as described earlier, the impact of the global financial market dislocation stemming from the US subprime loan issues during the third quarter (from October to December 2007) has become even larger (an increased loss of approximately JPY 170.0 billion) than the estimate as of November 2007. In addition, reflecting a further decline in prices of securitization products and other factors since the end of December 2007, we estimate additional losses (approximately JPY 50.0 billion) at Mizuho Securities in the fourth quarter.

Meanwhile, income from banking subsidiaries, including that from Customer Groups, is estimated to continue to show a steady performance.

Consolidated)	FY2007 (Estimates)				
(JPY Bn)		Change from FY2006			
Consolidated Net Business Profits *	620.0	-371.6			
Credit-related Costs	-120.0	-79.8			
Net Gains related to Stocks	310.0	419.5			
Ordinary Profits	630.0	-118.1			
Net Income	480.0	-140.9			

^{*} Consolidated Gross Profits - General and Administrative Expenses (excluding Non-Recurring Losses) + Equity in Income from Investments in Affiliates and certain other consolidation adjustments

- We estimate Credit-related Costs and Net Gains related to Stocks to be JPY -120.0 billion and JPY 310.0 billion respectively, taking into account the circumstances in the third quarter.
- ➤ Based on the above, we estimate Consolidated Net Income to be <u>JPY 480.0 billion</u>, a decrease of JPY 140.9 billion on a year-on-year basis (a decrease of JPY 170.0 billion from the November 2007 estimate).
- Meanwhile, we plan to increase cash dividends per share of common stock for the fiscal year ending March 31, 2008 to JPY 10,000 (a JPY 3,000 increase from that for the previous fiscal year), unchanged from the level estimated as of November 2007, and make dividend payments on preferred stock as prescribed.

This immediate release contains statements that constitute forward-looking statements within the meaning of the United States Private Securities Litigation Reform Act of 1995, including estimates, forecasts, targets and plans. ^{*3:} The proportion of US subprime mortgage related assets to the total underlying assets was approximately 10%

Other relevant information (December 31, 2007)

> ABCP program related

With respect to a liquidity facility for an overseas ABCP program sponsored by Mizuho Corporate Bank, approximately JPY 70.0 billion of Reserve for Contingencies was recorded for the equivalent amount of entire valuation losses on approximately JPY 150.0 billion CDO*4, which was included as underlying asset in the program.

*4: A part of underlying assets of the CDO included US subprime mortgage loan related exposures

> Transactions with US financial guarantors (monolines) related to securitization products

• With respect to Mizuho Securities, the notional amount of credit default swaps (CDS) referred to securitization products, which were contracted with US financial guarantors (monolines) and provided Mizuho Securities with protections for such exposures, was approximately JPY 250.0 billion.

Of which, approximately JPY 70.0 billion was referred to a CDO, which included US subprime related exposures in its underlying assets. The remaining amount (JPY 180.0 billion) was referred to CDOs and others mainly backed by claims against corporations.

With respect to CDS protections purchased from a financial guarantor with non-investment grade ratings (the notional amount of approximately JPY 160.0 billion including the protection against the aforementioned US subprime related CDO of approximately JPY 70.0 billion), approximately JPY 49.0 billion*5 of allowance was recorded for the entire amount of NPV, or the estimated amount to be claimed at the settlement of the CDS.

*5: Included in realized losses shown on the table of the previous page (line 14 and 17)

Other than that CDS, we also purchased CDS protections (the notional amount of approximately JPY 90.0 billion with approximately JPY 6.0 billion NPV) from a financial guarantor with an investment grade rating (external rating of AAA (stable) as of January 25).

With respect to Mizuho Corporate Bank, the outstanding balance of securitization products guaranteed by
monolines was approximately JPY 40.0 billion, all of which were ABS backed by auto lease receivables
and others as underlying assets and purchased and held by overseas ABCP programs sponsored by the
bank.

> Investments and loans associated with SIVs

• Approximately JPY 12.0 billion of reserve was recorded for approximately JPY 13.0 billion of investments and loans associated with SIVs at the banking subsidiaries after a write-off. (The aggregate amount of Credit-related Costs was approximately JPY 23.0 billion, including approximately JPY 11.0 billion of the write-off in the first half of FY2007).

> Loans held for sale

 Approximately JPY 28.0 billion of Reserve for Possible Losses on Sales of Loans was recorded for approximately JPY 990.0 billion of the outstanding balance of loans held for sale associated with overseas LBO and other transactions (Reserve ratio: 2.8%).
