Notice regarding Execution of Agreement concerning the Integration of Trust Banks Specializing in Asset Administration Services (Joint Share Transfer) and regarding Change of Subsidiary

Mizuho Financial Group, Inc. (President & Group CEO: Yasuhiro Sato) hereby announces that our consolidated subsidiary, Trust & Custody Services Bank, Ltd. (President & CEO: Akira Moriwaki, "TCSB"), at its board of directors meeting held today, has resolved to execute, and has executed, with Japan Trustee Services Bank, Ltd. (Representative Director and President: Yasuo Kuwana, "JTSB"), a management integration agreement (the "Integration Agreement") to carry out a management integration through incorporating a holding company by joint share transfer (the "Integration"); further, we announce that we expect a change of subsidiary as a result of the execution of the Integration Agreement.

The applications to and approvals from the regulatory authorities are conditions precedent to the Integration.

I. Overview of the Integration

1. Purpose of the Integration

Since its establishment in 2001, TCSB, in addition to trust services, engages in a wide range of businesses, such as comprehensive securities management outsourcing services to life insurers, and custody services, and holds assets under custody and administration of JPY 384 trillion (as of December 31, 2017), which consist of entrusted assets and assets managed under custody agreements, etc.

Since its establishment in 2000, JTSB, operating primarily in trust services (acting as a trustee when tasked with re-entrustment from trust banks), has expanded its assets under custody and administration, and holds entrusted assets of JPY 276 trillion (as of December 31, 2017).

The purpose of the Integration is to contribute to further growth in the domestic securities settlement market and the enhancement of the domestic investment chain through realizing more stable and higher quality operations and strengthening its system development capabilities by concentrating TCSB's and JTSB's managerial resources and know-how in relation to their asset administration services and seeking the benefit of scale.

The integrated company will realize the enhancement of business operations by strengthening operational systems and developing human resources specializing in asset administration services and fulfill its social mission to support securities settlement infrastructure in Japan, applying its advanced expertise to a wide range of businesses, including trust services, information integration services, custody services, and comprehensive securities management outsourcing services to life insurers, and aims to be the top trust bank specializing in asset administration services in Japan to meet a wide variety of customer needs in asset administration services.

2. Integration Structure

In the Integration, for step one, TCSB and JTSB will incorporate "JTC Holdings, Ltd." ("JTC Holdings"), a holding company whose shareholders are TCSB's and JTSB's existing shareholders, by implementing the joint share transfer (the "Share Transfer"), and TCSB and JTSB will become

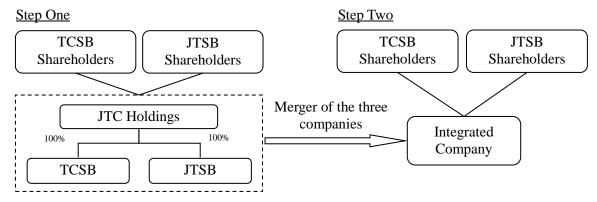

wholly-owned subsidiaries of JTC Holdings. For step two, around 2021, the integrated company will be launched by implementing an absorption-type merger of JTC Holdings, TCSB, and JTSB.

Allotment (share transfer ratio) in relation to the Share Transfer is as below.

	TCSB	JTSB
Share transfer ratio	1.02	1

As a result of the Share Transfer, for 1 share of TCSB's common stock, 1.02 shares of JTC Holdings' common stock; and for 1 share of JTSB's common stock, 1 share of JTC Holdings' common stock will be allotted and issued to the shareholders, respectively. The number of new shares issued by JTC Holdings as a result of the Share Transfer is 2,040,000 shares.

We will further discuss the integrated company's corporate name, the surviving company, and other details, and will make announcements once the details have been determined. In addition, the applications to and approvals from the regulatory authorities are conditions precedent to the establishment of the structure regarding the Integration.

3. Calculation Basis of the Allotment in Relation to the Share Transfer

When considering the number of allotted shares of JTC Holdings used as the consideration for the Share Transfer, TCSB calculated the share transfer ratio based on the respective future business plans and financial statements of TCSB and JTSB, and, as a result of the repeated serious discussions with JTSB referring to the calculation result, TCSB has found that the share transfer ratio stated in 2. above is reasonable and not detrimental to the shareholders' interests; and has subsequently agreed with JTSB as above.
