

Workplace set up

This document describes steps required to set up your PC for working with Remote Banking System of AO Mizuho Bank (Moscow)

Please setup your PC before you proceed with issuing certificate or log in to remote banking system.

Technical Requirements:

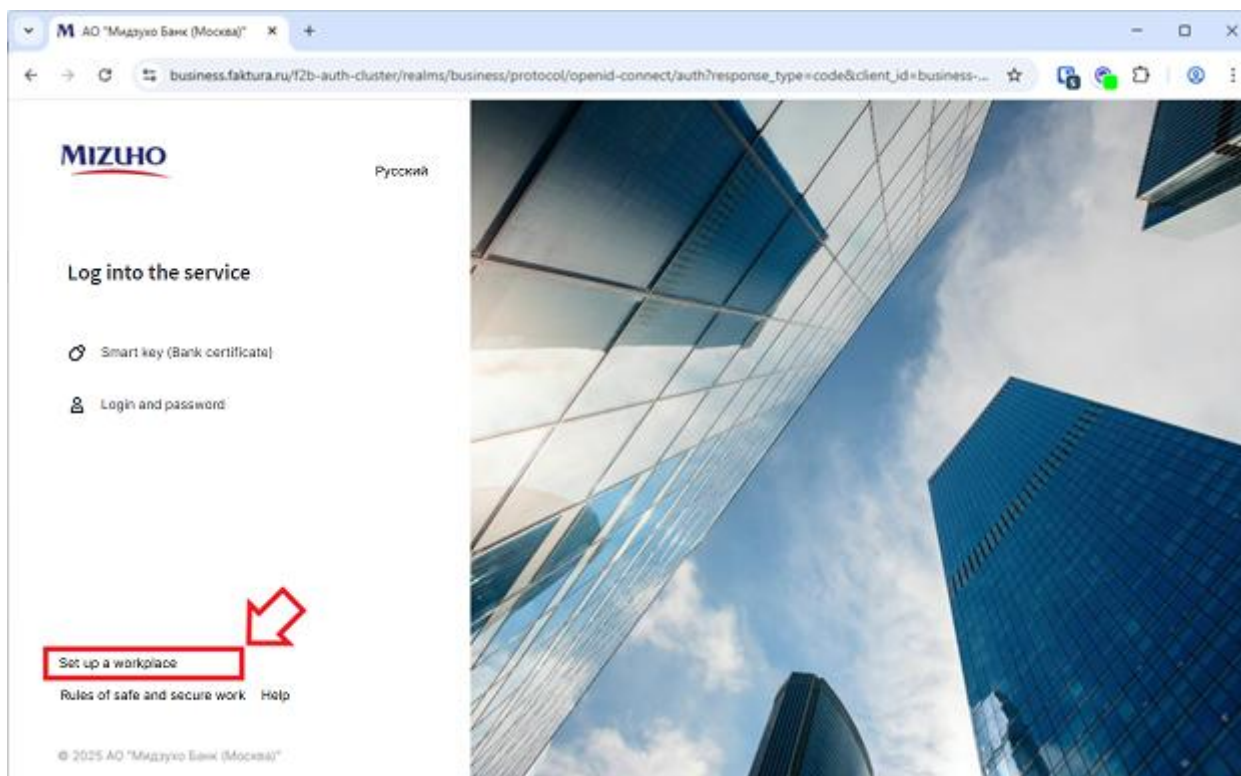

Operational System	Windows 10, 11
Browser	Yandex Browser 
	Google Chrome 
	Microsoft Edge 

To prepare your PC you need Настройка рабочего места состоит из двух этапов:

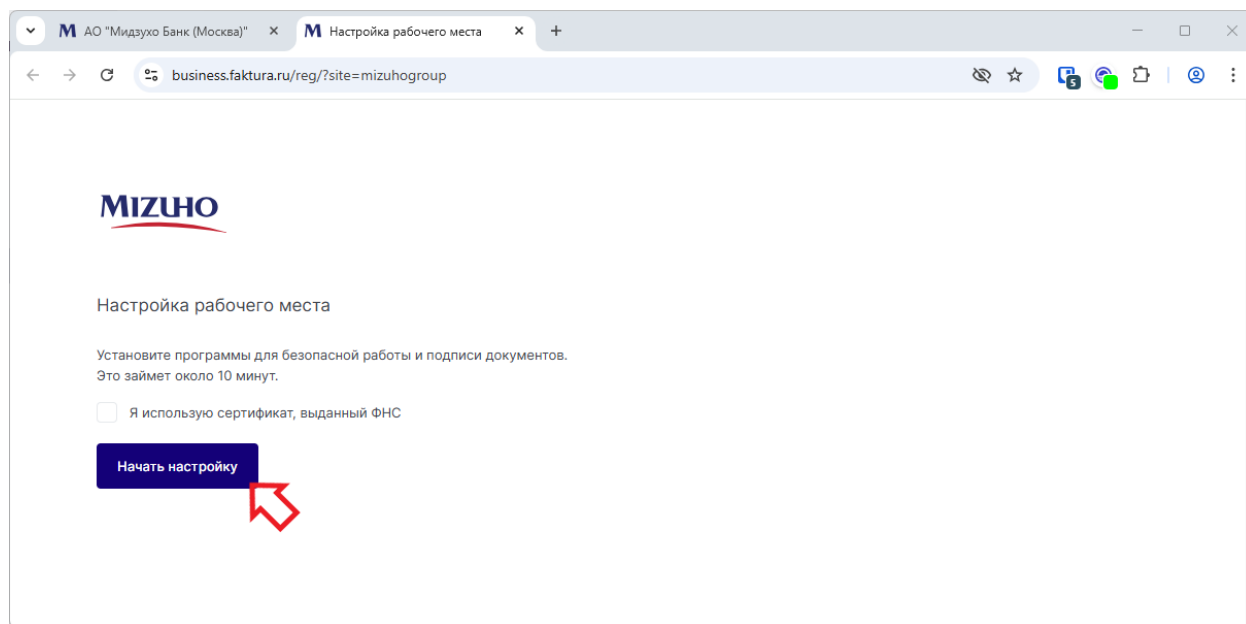

- Install browser plugin
- Install security software

Screenshot presented bellow made in Google Chrome.

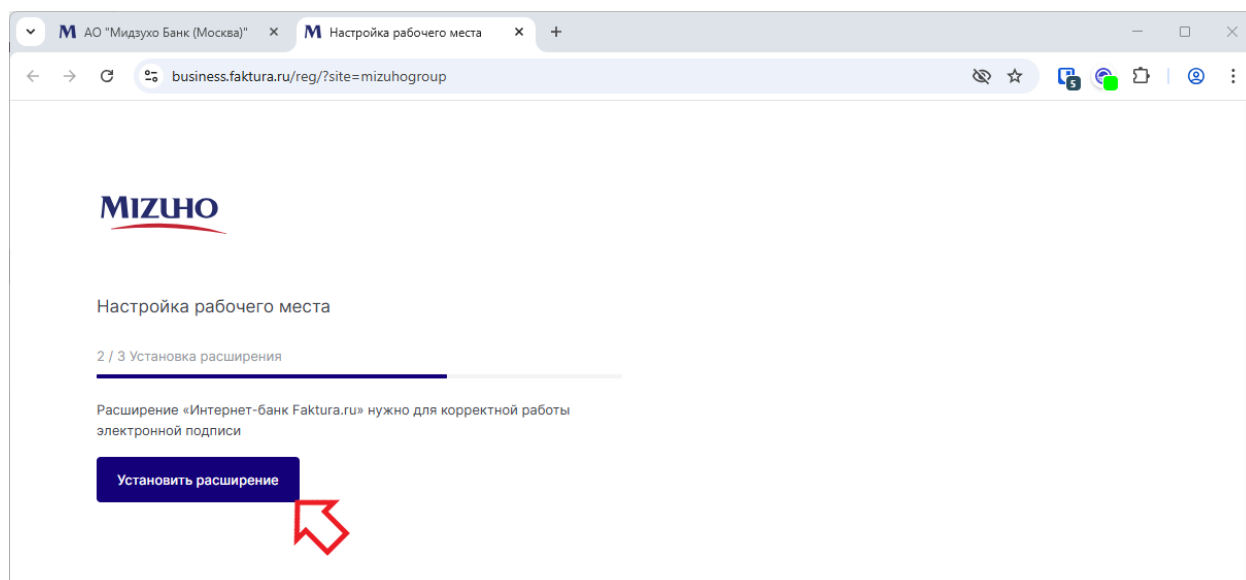

Open <http://dbo.mhcbr.ru/> and click **Настроить рабочее место**.

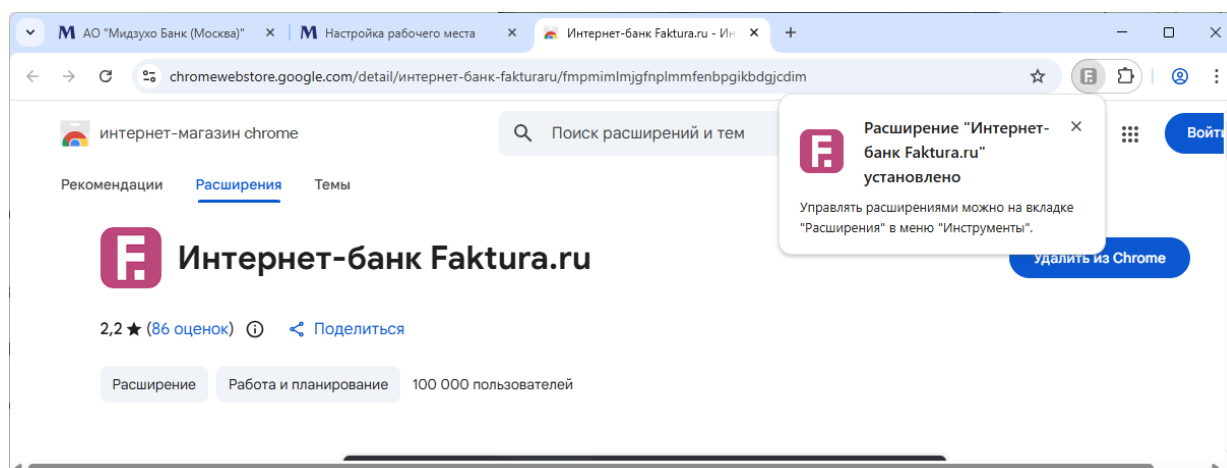

On the next page click **Начать настройку** (Start set up)

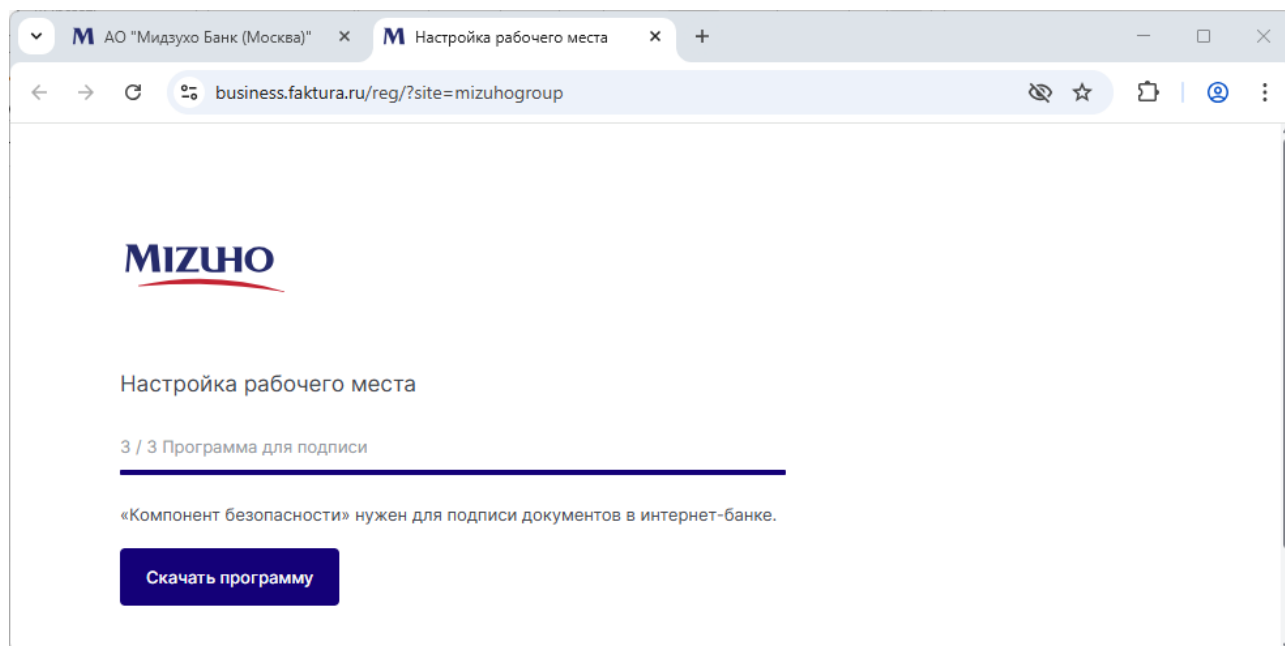

Click **Установить расширение** (Install extension)

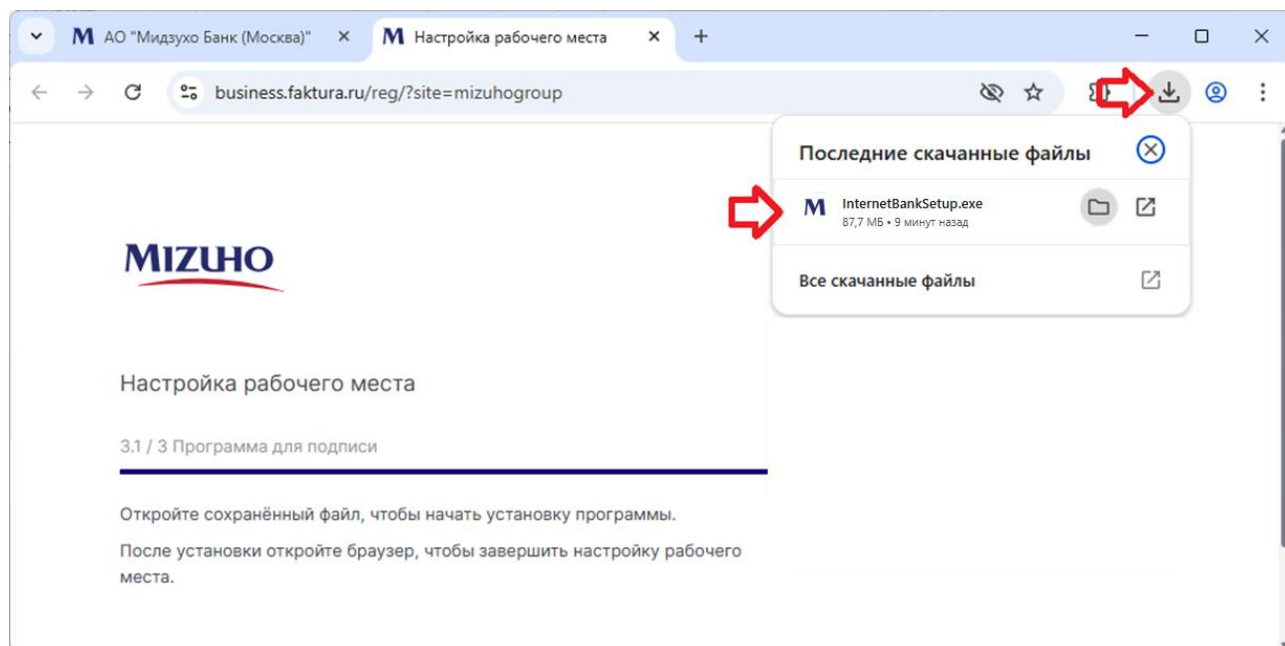

Page of internet shop of your browser will be opened. Install extension “Интернет-банк Faktura.ru” and return on tab “Настройка рабочего места”

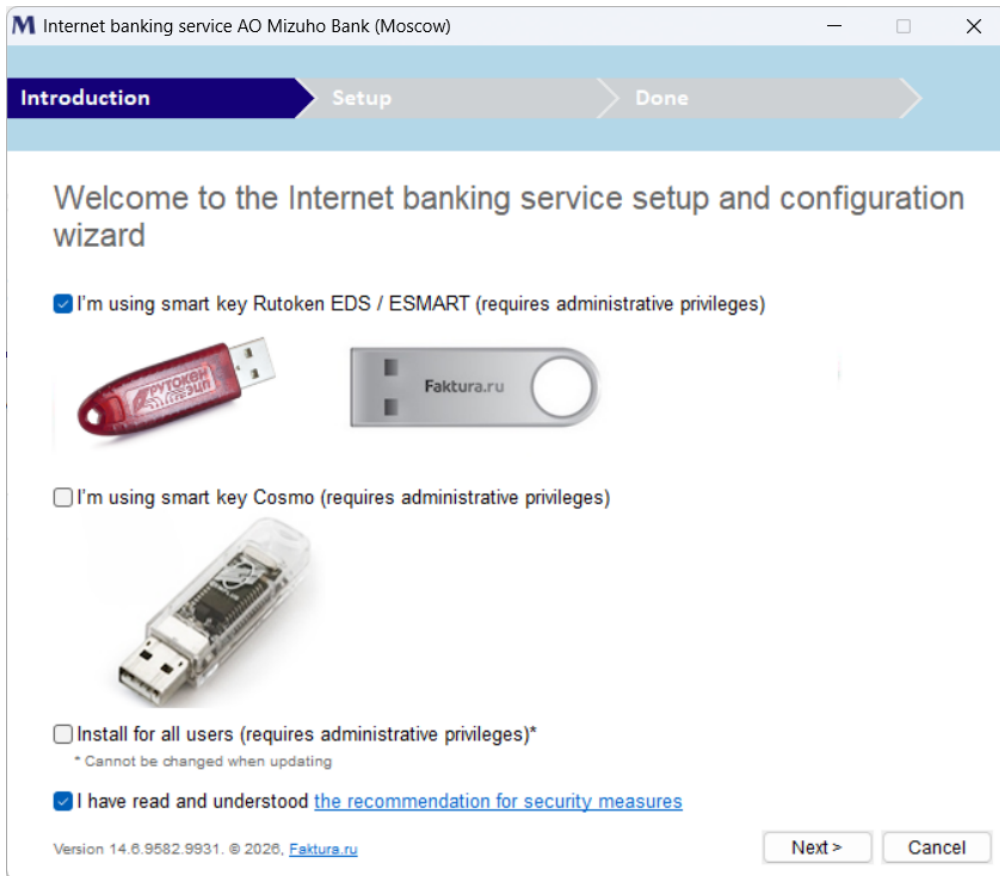

Set up of you PC will be continued. Press **Скачать программу** (Download software)

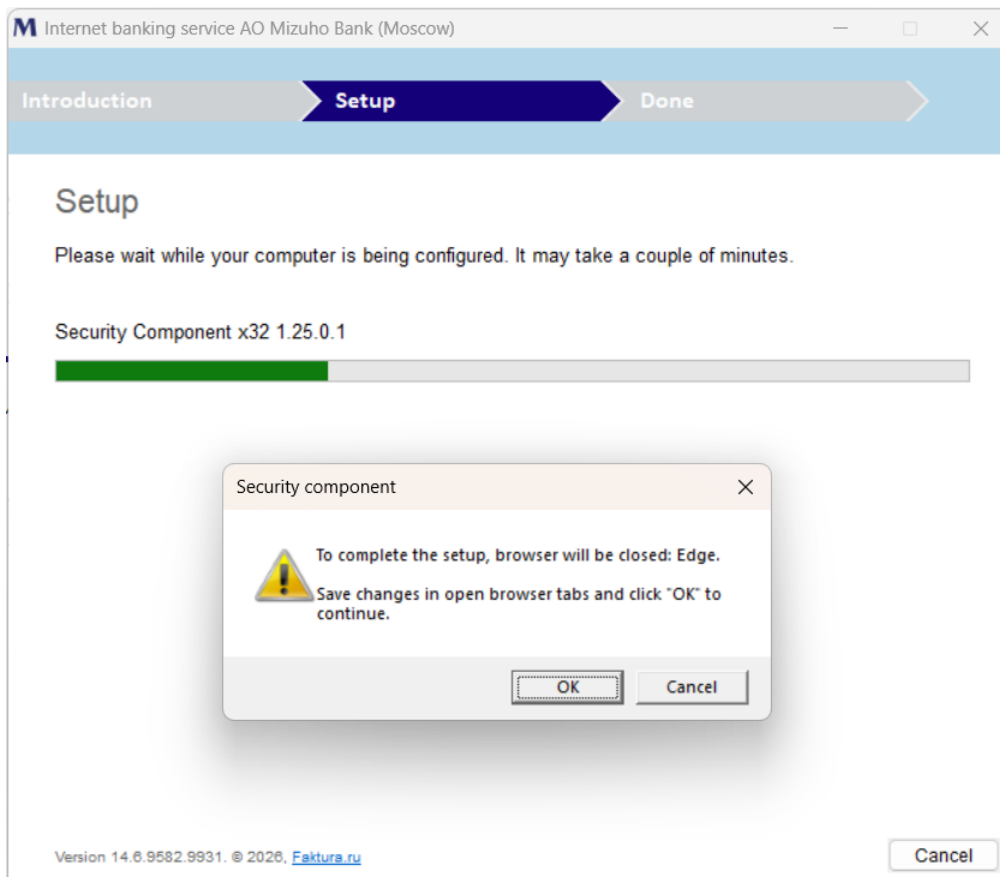

Run the downloaded installation file **InternetBankSetup.exe**

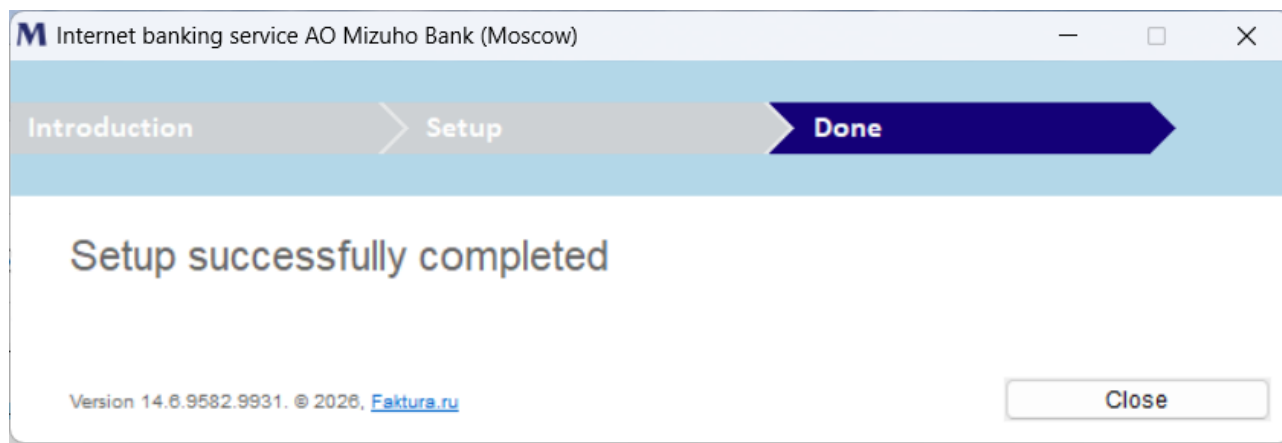

2. Read recommendation for security measures, mark appropriate flags as on the next screenshot and press **Next**

3. Browsers should be closed during installation

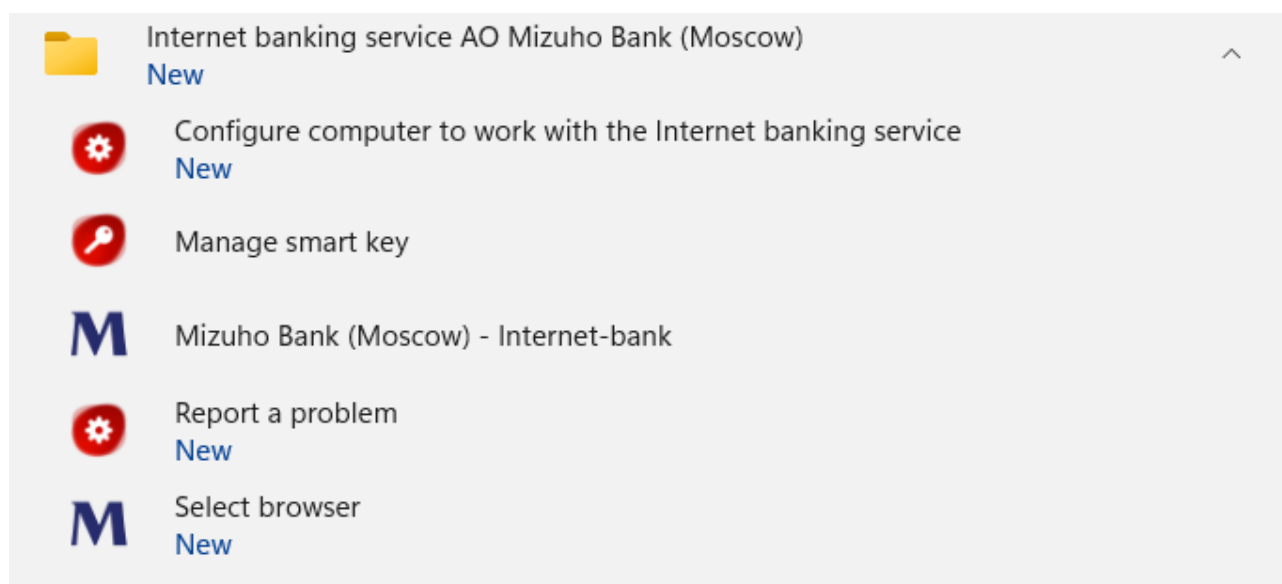

4. Press **Close** after setup will be successfully completed

New shortcut will be created on your Desktop

New folder "Internet banking Service AO Mizuho Bank (Moscow)" will be created In Windows App menu
