

AT A GLANCE

RG Robotix is a full-service automation technology company revolutionizing how materials move across industrial and warehouse environments. With a product suite anchored in interoperability, next-gen robotics, and intelligent software, we serve tier-one automotive suppliers, logistics leaders, and warehouse operators across North America and Canada.

REDEFINING MATERIAL MOVEMENT WITH INTELLIGENT AUTOMATION

"We've had an outstanding experience working with RG Robotix. Their team is always on top of things, going above and beyond to meet our needs and make the process effortless. Implementing the AGVs into our system was flawless, even with strict demands, and they delivered everything within the timeframe required. RG Robotix is a true delight to work with, and I would confidently recommend them to anyone considering automation."

PRODUCT LINES

AUTOMATED VEHICLES

Big Buddy AGV

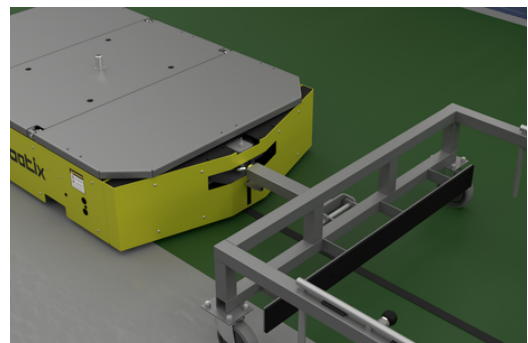

- Dual-directional with a zero-radius turning capability; 2500 lbs load capacity
- Modular design: configurable, with optional lift, conveyor, or tunneling grapple kit(s)
- Equipped with front and rear safety lidar lasers
- Magnetic tape guidance system
- Lithium Iron Phosphate (LiFEPO4) batteries with opportunity charging

Robust | Versatile | Safe

Pull Buddy AGV

- Single-direction, 5000 lbs tow capacity
- Hitch options: automatic couple/decouple or manual pin release
- Supports standard and custom carts (single and double pallet)
- Equipped with front safety lidar laser
- Magnetic tape guidance system
- Lithium Iron Phosphate (LiFEPO4) batteries with opportunity charging

Efficient | Accurate

AGFs (Automated Guided Forklifts)

- Forklifts optimized for pallet loading, truck loading/unloading, and horizontal handling
- Models suitable for cold storage environments and very narrow aisles (<6 ft)
- Models with load capacity up to 8000 lbs
- Models with lift capacity up to 36 ft

Increase Efficiency | Decrease Cost

AUTOMATION SOFTWARE PACKAGES

Botway

- Open-architecture traffic control and monitoring for AGVs, AMRs and industrial automation
- Platform-agnostic: compatible with multiple manufacturers' automated vehicles both new and existing
- VDA 5050 compliant

Revolutionizing Fleet Management

Plant Logic MES

- Integrates legacy and new mobile automation systems into a single platform with real-time data
- Delivers seamless connectivity at a fraction of the costs of other MES systems
- Integrates data systems and automated equipment that do not natively speak to one another

Integrate | Customize | Manage

FLEXIBLE BUYING OPTIONS AND SERVICE WARRANTY SUITE

Buying Options

- Traditional: Hardware, software and training
- Try and Buy: 3-6 month rental pilot program of a basic system
- RAAS (Robot as a Service): 36-month lease. Return or buy at the end of the term

Flexible | Affordable

Service Warranty Suite

- Extended warranty plans covering travel, labor, and parts (1-5 years)
- Fleet management continuous improvement
- Preventative maintenance - Quarterly maintenance including replacement parts, travel and labor costs
- Field services as needed, and spare parts pool onsite or RG managed

Reliable Service | Continuous Improvement
