

# VERSATILE PRACTICAL BEAUTIFUL

Crafted with a catslide roof that angles out at the rear, The Kinsham reflects the character of classic British countryside garages.

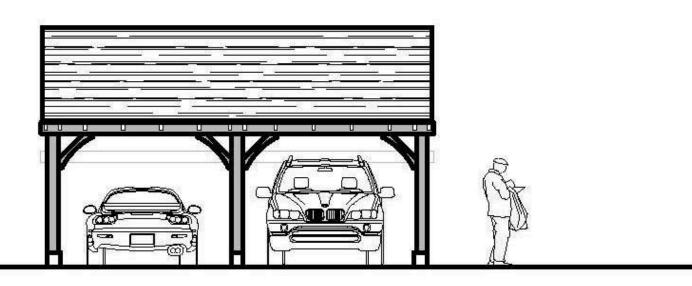

The catslide offers a distinctive style, supported by an additional oak frame for unsurpassed strength.

### RADNOR OAK

### THE KINSHAM

OAK FRAMED DOUBLE GARAGE

2 BAYS

A traditional double garage design, crafted for durability, secure storage and everyday versatility.

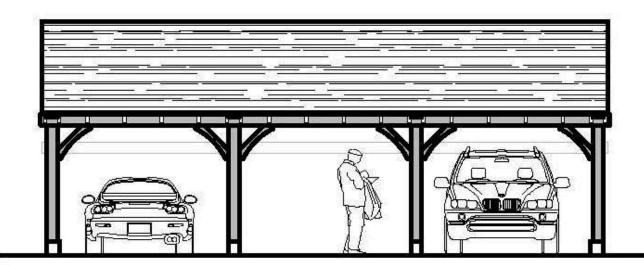

Width	6.00 m
Depth	5 . 1 0 m
Height	3 . 7 8 m
Entrance	2.10 m
Roof Pitch	3~4

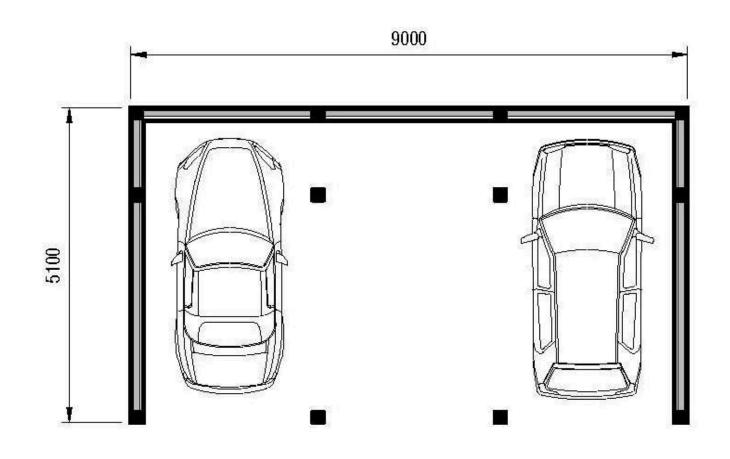

### 2 BAYS

This two bay Kinsham features two sets of our heavy, barn style double doors - completely enclosing the space.

The left side is used to house a prized vintage car, and the right for workshop space.

### RADNOR OAK

### THE KINSHAM

### OAK FRAMED TRIPLE GARAGE

### 3 BAYS

Our most chosen design configuration, valued for its balance of practical space and timeless character.

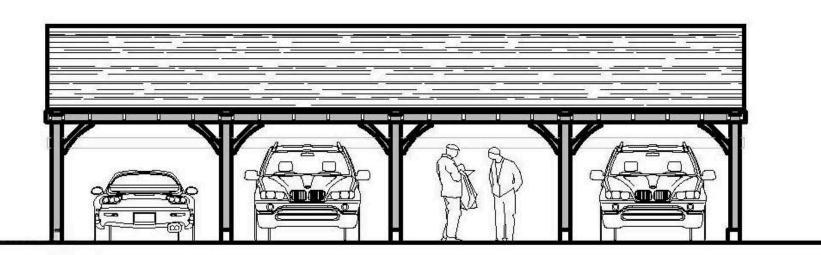

Width	9.00 m
Depth	5 . 1 0 m
Height	3 . 7 8 m
Entrance	2.10 m
Roof Pitch	3~4

## $3.\overline{5}$ BAYS

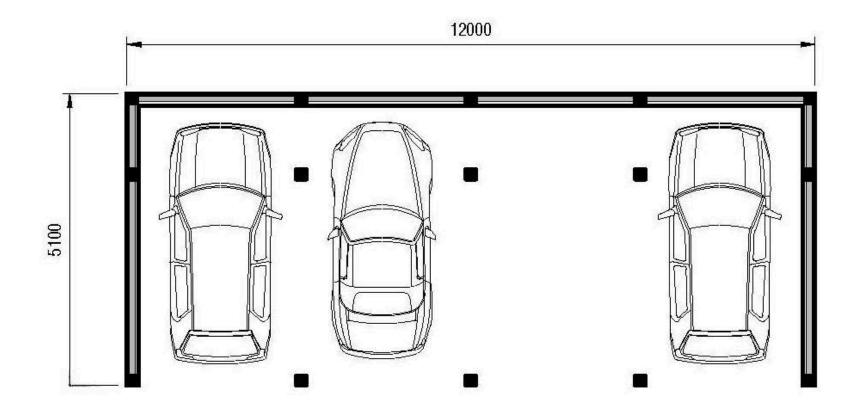

A 3.5 bay
Kinsham housing
both a Range
Rover and an
Aston Martin.

The laundry room sits neatly to the left, while electric double doors add ease for everyday use.

### RADNOR OAK

### THE KINSHAM

### OAK FRAMED FOUR BAY GARAGE

4 BAYS

Width	$1\ 2\ .\ 0\ 0$	m
Depth	5.10	m
Height	3.78	m
Entrance	2.10	m
Roof Pitch	$3 \ 4$	0

### THE CATSLIDE

Dating back to the 17<sup>th</sup> century, the catslide roof is a traditional design first used in Britain to extend covered space without complicating the main structure.

Nowadays it's more favoured for it's aesthetic appeal, blending modern day life with a nod to historical building methods.

## ENDLESS OPTIONS, TRADITIONAL CRAFT

## ADAPT THE DESIGN TO SUIT YOUR SPACE

#### 1.

Each bay can be extended up to 3.50m wide without requiring an additional post – leaving the space open and unobstructed, perfect for carports.

#### 2

Additional depth is available, with footprints stretching up to 6.00m for larger vehicles or storage needs.

#### 3.

Where space is limited, the width of each bay and the overall depth can be reduced to fit your site.

#### 4.

There's no limit to the number of bays you can add – each one flows effortlessly into the next.

#### 5.

If your vision is more bespoke - from L-shaped to T-shaped, or something entirely unique, our designers will be glad to explore your ideas with you.

### MOVE OR ADD EXTRA JOINERY ITEMS

Adjust the position, or change the sizing of your doors and windows.

From full-height glazing and French doors to traditional boarded stable style doors - all can be incorporated in to your design.

Let us know if you'd like to see the full list of our handcrafted joinery products.

### PREMIUM

DOORS
&
WINDOWS

Every Radnor Oak door is handcrafted at 55mm thick – a mark of quality compared with the industry's 44mm standard. Choose oak for natural superiority and unmatched strength, or softwood for a finely crafted, traditional option.

### OUR DIFFERENCE

PART II

### THE DEFINING DETAILS

#### INTEGRATED PROTECTION

Concealed rebates to create our unique weatherproofing system

#### SUSTAINABLY SOURCED

From ethical suppliers who care for the forests they manage

### TRADITIONALLY JOINTED

Mortice & tenon joints, pre-drilled & numbered for straightforward assembly

### METICULOUS QUALITY CONTROL

Selected on quality and grade, with anything below standard being rejected

### NEXT STEPS

PART I

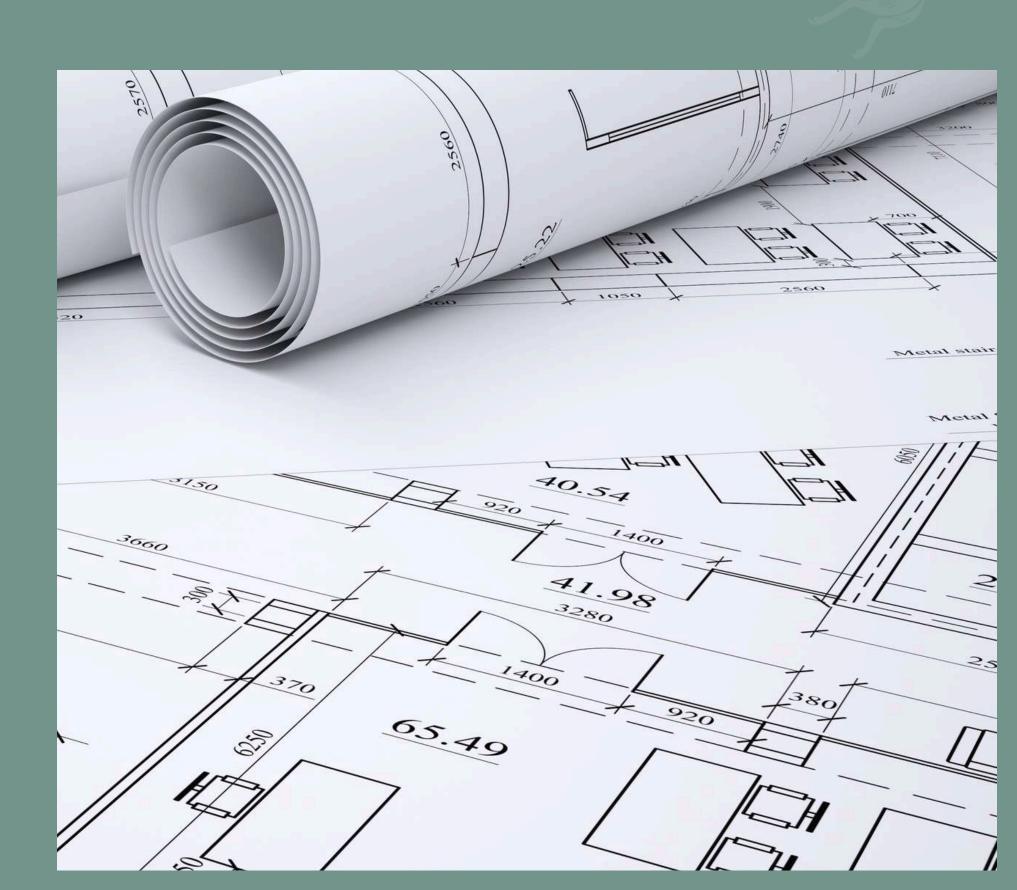

Should planning permission be required, we can prepare the drawings needed for your submission.

Once approved, we will begin handcrafting your building in our Mid-Wales workshop.

If permission is not needed, the process can start immediately.

Payments are arranged in three simple instalments: 25%, 50% and 25%.

### PLANNING PERMISSION

### CONCEPT TO COMPLETION

### NEXTSTEPS

PART II

As a specialist supply-only company, every Radnor Oak kit is crafted to precise, carefully prepared guidelines. Your chosen contractor can build with complete confidence, following the plans provided.

From the foundations to the final ridge, our team is on hand to offer expert support throughout the process - giving you complete assurance that your Radnor Oak building will be finished to the highest standard.

### ABOUTUS

Our story began with a chainsaw, gifted to Wayne, our founder, on his 18th birthday. From that moment a passion for timber took root, growing into a family business that has spent over three decades perfecting the art of oak framing.

Still based in Radnorshire, Mid Wales, we remain true to our heritage – combining traditional craftsmanship with care, integrity, and a love for what we do. Every Radnor building is crafted to last, a reflection of our belief in buying once, and buying well.
