

Access Arrangements

At JEP Youth Engagement, we are committed to ensuring that all learners are given the best possible opportunity to succeed in their exams through fair and appropriate access arrangements. We have a strong understanding of the individual needs of our students and work proactively to identify and implement the support they require.

For learners with an Education, Health and Care Plan (EHCP), we ensure that the necessary access arrangements are in place to provide equitable opportunities and bring them in line with their peers. Where students do not have an EHCP, we carefully document their normal way of working within our provision and seek support and validation from their host schools.

We maintain consistent and open communication with host schools to ensure a collaborative approach to access arrangements. This partnership allows us to provide robust evidence and ensure that all students receive the support they are entitled to during formal assessments. Our approach is underpinned by a commitment to inclusion, fairness, and the belief that every young person deserves the chance to succeed.
