5. Draft a Request for Admission, Production, or Interrogatories.

Case Strategy & Risk Assessment

1. What are the strengths and weaknesses in this case?
2. What arguments might opposing counsel or insurance adjusters raise?

In the Courtroom

1. Find contradictions between witness testimony and the police report.
2. Identify contradictions between opposing and our expert witness testimony. Note any similarities.

Role-Based Comprehensive Prompts

Paralegal Perspective

Create a comprehensive case summary for [CLIENT NAME] including:

- Detailed chronological timeline of key events (incident, medical treatments, etc.)
- Categorized list of key documents and evidence, noting relevance and any gaps
- Organization of information in a structured format focused on evidence management

Nurse Paralegal Perspective

Provide a detailed medical analysis of [CLIENT NAME]'s case:

- Comprehensive summary of injuries and diagnoses, including severity and causation
- Review of treatments and their outcomes, noting any complications or gaps
- Identification of inconsistencies or red flags in medical records
- Assessment of functional impact and prognosis

Attorney Perspective

Develop the legal strategy for [CLIENT NAME]'s case:

- Strongest arguments for liability, causation, and damages
- Anticipation of opposing party's counterarguments with effective rebuttals
- Key evidence that strengthens or weakens both sides
- Organized analysis of liability, causation, and damages

The screenshot displays the Supio AI interface. On the left, a chat window shows a greeting: "Hello! I can answer any questions you have about your cases. How can I help you?" Below this is a button labeled "Summarize this case in detail with headings". The main content area on the right shows a "Summary of Gina MacGregor's Case".

Summary of Gina MacGregor's Case

Patient Information

- **Name:** Gina MacGregor ^[1]
- **Gender:** Female ^[2]
- **Date of Birth:** 06/30/1987 ^[3]
- **State of Residence:** Illinois
