HANDY INFORMATION

Student Academic Record

An academic transcript is available on request. The academic transcript provides you with details of the unit standards or modules that you have achieved while on your programme at Training For You.

Student Information and the Privacy Act

External agencies such as the Tertiary Education Commission (TEC), NZQA, Ministry of Social Development (MSD) and NZ Police need to know certain personal details in order to allow Training For You to enrol students and carry out training.

By signing enrolment forms students allow personal information to be shared with other training providers, TEC, the Ministry of Education (MOE) and NZQA. It also allows the training provider to gather information from these places. For example, the company may need to:

- Check if students meet specific criteria
- Find out if students have already completed unit standards.

Students have the right to find out what information an organisation has, see the information and ask for it to be changed if incorrect.

You are welcome at any time to view the information that Training For You holds on your enrolment file. Please contact the administration office to request your enrolment information.

Your tutors will make you aware of the hazards and safety procedures that relate to your programme.

New Zealand's health and safety legislation is clear about the role we all have in making sure everyone goes home healthy and safe. This means we all have a responsibility to keep ourselves and others free from harm. If you see or hear about anything on campus that could lead to harm, please tell us. We are here to help.

HOW PROGRAMMES WORK

What is a Unit Standard?

Each unit standard registered on the National Qualifications Framework describes what a learner needs to know or what they must be able to achieve. Each unit standard is worth a prescribed amount of credits which count towards achievement of a qualification. Your progress in completion of unit standards is recorded and your results are available on request from the administration office.

If you do not complete a full qualification with Training For You, any unit standards you have successfully completed will be reported to NZQA.

What is a module?

A module is a component of study that has been developed by Training For You, and includes a number of learning outcomes, or topics. Modules vary in their credit value, and count towards the completion of a qualification.

Modules can contain a theory component, a practical component, or both. Your progress in completion of modules is recorded, and your results are available on request from the Administration office.

Modules that contain unit standards will be reported to NZQA upon successful completion.

Assessment

Assessment refers to a variety of methods used to judge student's achievement when measured against the Learning Outcomes and the Evidence Requirements of a unit standard or module.

If for any reason you do not achieve a unit standard or a module first time around, do not worry. You will be allowed a second attempt at the parts you do not get right the first time.

Policy available on request: Assessment

Appeals

If you do not agree with the marking of an assessment you have the right to ask that your assessment result is reconsidered. You will need to explain within five working days, the reasons you believe the final assessment decision is unfair or incorrect.

The assessment will be re-examined and you will be notified of the result of the appeal, in writing, within five working days of the appeal being made.

If you are still not satisfied you may appeal in writing.

Policy available on request:
Appeals - Academic Records

Recognition of Prior Learning

In education there is a process called Recognition of Prior Learning (RPL). This is about recognising the skills, knowledge and understanding that people have already gained from experience or training in other organisations and matching this learning against the learning outcomes within the programme of study at Training For You. If prior learning matches the learning outcomes, credits can be awarded through the RPL process.

If you think RPL applies to you, please talk to your tutor as soon as possible so that your prior learning can be assessed. You will need to complete an application form. Your tutor will explain this to you.

Assessment can happen in two ways:

- Submission of an evidence portfolio which is then assessed by the tutor for alignment with the New Zealand qualification's graduate profile and the learning outcomes within the course or courses;
- Completion of the assessment task(s). People who have already gained skills and knowledge can be assessed immediately without having to attend classes. An application for Cross Credit is \$50. You need to pay this when you apply.

An application for Assessment of Prior Learning is \$50 plus an assessment fee of \$35 per hour. You need to pay the \$50 when you apply. You will be invoiced for the assessment fee, to a maximum of four hours.

Policy available on request:
Recognition of Prior Learning

This policy includes information about fees relating to the RPL process.

Recognition of Current Competency

Some qualifications have requirements for current competency. The process is called Recognition of Current Competency (RCC).

Sometimes students have achieved unit standards from school or other organisations but the content may be too old to count towards the new qualification. Unit standards already achieved are identified by the Training For You administration team via the student's NZQA record of achievement and checked by the tutor for currency. If the credits you have already achieved are 'out-of-date' your tutor will let you know.

Work Placement and Work Experience

Work experience and placement is an important component of some of our programmes.

The objective of this is to give you the opportunity to participate and learn the practical aspects of the job. Treat your work experience or placement as if it is a paid full time position. It will increase your chances of finding employment if the work experience sponsor or placement supervisor sees qualities in you that they may want in an employee.

All work experience sponsors and students are required to sign an 'Agreement to Provide Work Experience'. All placement supervisors and students are required to sign a 'Contract for Practicum Placement.'

STUDENT FEEDBACK

Student feedback is important to us. We want to hear from you so please don't be shy. Everyone at Training For You is here to make your learning journey the best experience to inspire you to create your future, help you realise your potential and support you to achieve success. If we are not doing these things, please tell us.

Issues and Concerns

We encourage you to raise any concern, no matter how small it may seem. It is always better to raise something small, and to fix it, before it snowballs out of control. If you have a concern, please tell your tutor. If you feel you cannot speak with your tutor, please tell a member of the administration team, student support or the Campus Manager.

If you have raised your concern with someone at Training For You and it has not been addressed, you can make a formal complaint. We have a complaints procedure which you can access on request.

In summary this is what you need to do:

1. Have a concern? Please tell your tutor or someone else at Training For You so we can put it right.
2. Is your concern unresolved? Please let us know by making a formal complaint. Your complaint will be investigated by the Campus Manager depending on what the concern is.
