Teacher Aide Level 4

New Zealand Certificate in Education Support (Level 4)

Qualification Code: 2761

This qualification is for people who are currently employed as a teacher aide, or those who are seeking employment in the field.

Students develop knowledge and skills in teacher aiding, including child development, special needs, supporting learning, behaviour management and communication.

Graduate Outcomes

When you successfully complete this programme you will be able to:

- apply the ethical, legal and professional responsibilities related to education support contexts, maintaining health, safety and wellbeing of children
- establish and maintain reciprocal and responsive professional relationships to encourage learning
- apply principles of inclusive practice to achieve positive and equitable opportunities for diverse learners.
- apply key theories of learning and human development, within specified education and community contexts
- assist teachers with the planning, implementation and evaluation of teaching and learning, using resources, technologies and systems to meet specific outcomes
