2. DESCRIPTION OF THE PROGRAM

○ The Program

The Program is a personal investment portfolio management service and/or other services offered by the Manager that are intended to help you save money, grow your wealth, and reduce expenses to achieve your financial goals.

○ How the Program Works

You start by identifying and itemizing your financial goals using the App which is made available to you by IIFTI. This includes naming your goal, identifying your goal amount and setting the Funding Rules that you want to attribute towards each goal. If you choose to skip this step, you can use the default goal and customize this at a later date. Under the discretionary advisement of your Advising Representative (acting on behalf of the Manager), your Account Assets are then invested in one or more Funds managed by the Manager (in its capacity as Investment Fund Manager to each Fund) which are suitable for you based on your risk profile and goals. You can keep track of your goals and the achievement of your goals through the App.

You can also use the App to request and receive other services offered by the Manager from time- to-time.

- **Funds**

The Manager will assign one of its Advising Representatives (portfolio manager category) to your account, who will determine an appropriate portfolio to invest your savings based on your financial goals. The Portfolio will consist of the Funds managed by the Manager, acting as investment fund manager. These Funds will be redeemable, prospectus exempt funds offered only to IIFTI investors whose accounts are managed by one of the Manager' Advising Representatives. Each such Fund will be invested mainly in highly liquid, low cost exchange traded funds (ETFs) that track well known equity, fixed income and money market indexes, or in certain cases, directly into money market securities. The Manager will receive a management fee to manage the Funds as set out in each Fund's offering documentation. Furthermore, the Funds will be responsible for payment of certain expenses relating to the operation of each Fund and the carrying on of their activities, namely fees and expenses relating to the Fund's portfolio investments, which include the cost of securities, interest on borrowings and commitment fees and related expenses payable to lenders and counterparties, custodial fees, brokerage fees, commissions and expenses, and banking fees. The Manager may from time to time elect to assume some of the aforementioned expenses. All other costs and expenses will be borne by the Manager. Full details of the Funds are available in the respective Fund's Term Sheet, which is made available on the Manager's website.

- **Financial Insights**

In order to help you achieve your financial goals, IIFTI may provide you with general tips, recommendations and education materials on how to save, pay down debt, reduce expenses, organize and manage your finances. Such materials should not be confused with investment advice provided to you by the Manager.

- **Third-Party Products and Services**

If you change your Funding Source, you will also be asked to complete additional verification steps to help keep your account safe.

Subject to the foregoing, You may withdraw all or part of your Balance from your Investment Account to your Funding Source at any time by sending a Withdrawal Request to the Manager via the App. **The Manager will not charge you fees or penalties to withdraw your funds. The Manager will upon receipt of your request, redeem all or a portion of the Fund units held in your account in accordance with its applicable redemption procedure, and transfer sums to your Funding Source.**

The Manager will execute a Withdrawal after the Redemption and receipt of corresponding amounts from the Fund Custodian. The Manager will use all reasonable efforts to process all Redemption requests as soon as possible. The Manager may at its sole discretion increase the amount of any withdrawal if not doing so would leave the Investment Account with a near-zero balance.

○ **Withdrawal Limitations**

You must have sufficient money in your Investment Account to complete a Withdrawal. If your Withdrawal Request exceeds the Balance, the Manager will decline your request. The Manager reserves the right to limit or restrict Withdrawals for any commercially reasonable reason, including if the Manager has reason to suspect any suspicious or illegal activity.

○ **Processing Time**

Reasonable steps will be taken to process Deposits and Withdrawals as per IIFTI's standard processing guidelines. You acknowledge that incorrect or incomplete information regarding your Funding Source or regarding instructions to make a Deposit or Withdrawal may result in the transaction being rejected or completed incorrectly. IntelligentInvesting Referral Program - Terms and Conditions

The IntelligentInvesting Referral Program allows registered IIFTI users having a valid and approved Investment Account ("**You**" or "**Your**") to earn a monetary referral credit (a "**Referral Credit**"), which shall be credited to your investment account when you successfully refer a friend to the Program ("**Referred Friend**"), in accordance with the terms and conditions set out below. All Referral Credits are paid by IntelligentInvesting Financial Technologies Inc.

By participating in the IntelligentInvesting Referral Program or by sending a Referral Link (as defined below) to any person, you acknowledge and agree to be bound by these terms and conditions, which shall form part of your IntelligentInvesting Program Terms and Conditions. Capitalized terms that are not defined here will have the same meaning as given to them in the IntelligentInvesting Program Terms and Conditions.

○ **How to Earn a Referral Credit**

You can earn a Referral Credit in an amount as determined by IIFTI from time to time, which amount will be credited to your Investment Account if:

- (i) a Referred Friend clicks on a referral link provided by you ("**Referral Link**") to create and open a validly approved Investment Account that complies with the Program Terms and Conditions;
- (ii) the Referred Friend successfully funds his/her Investment Account with an Initial Deposit from his/her Funding Source; and
- (iii) You have already funded your Investment Account with an Initial Deposit from your Funding Source.

IIFTI will use reasonable efforts to credit the Referral Credit to your Investment Account at the time the next weekly IIFTI transfer is successfully processed from your designated Funding Source.

The maximum Referral Credits you can receive in aggregate is \$5,000 CAD.

○ **Referred Friend Referral Credit**

A Referred Friend that has opened an approved Investment Account using a valid Referral Link will receive a Referral Credit once he/she has successfully funded his/her Investment Account with an Initial Deposit from a Funding Source.

IIFTI will use reasonable efforts to deposit the Referral Credit to the Investment Account of the Referred Friend at the time the next weekly IIFTI transfer is successfully processed from the Referred Friend's designated Funding Source.

All decisions regarding your Referral Credits will be final and at IIFTI's sole discretion. Each user is responsible for any tax consequences, if any, that may result from his/her receipt of a Referral Credit.

SCHEDULE A

SCHEDULE OF FEES AND CHARGES

The Manager's investment management services are provided for a flat \$20.00 monthly fee ("Monthly Fee"), which is charged to your Funding Source on a monthly basis.

IIWMI will provide or make available the services you have selected irrespective of whether you make use of the IntelligentInvesting application for the IntelligentInvesting Program (including for example if you delete the IntelligentInvesting App from your device). Fees are charged monthly until your Account is closed. You can close your Account at any time. Applicable taxes will apply on any charges made to your Account or hereunder. Should you choose to close your account, any outstanding fees owing shall be charged to your Account at the time the account closing is processed.

In the event that fees or expenses owed to IIWMI at any given time, are not recoverable from your Funding Source or any other bank account in your name, you agree that they will be charged to your investment accounts, including your non-registered, RRSP, and TFSA accounts at the IIWMI's sole discretion.

The Manager may modify this Fee Schedule upon 60 days' Notice to you.

Pre-authorized debits

You authorize the Manager, and the designated financial institution (or any other financial institution the Manager may authorize at any time) to withdraw the fees and charges set forth above from your self-designated Funding Source on a monthly basis or annual basis, as applicable. This authority is to remain in effect the entire duration of the IMA. Any cancellation Notices must be received five (5) Business Days before the next debit is scheduled at the address provided below.

Montreal (Quebec) H3B 2E3

The Manager may assign this authorization, whether directly or indirectly, by operation of law, change of control or otherwise, by providing at least 10 days prior Notice to you.

You have the right to receive reimbursement for any PAD that is not consistent with this Schedule. To obtain a form for a reimbursement claim, or for more information on your recourse rights, you may contact your financial institution or visit www.cdnpay.ca

Other Fees

Certain fees, including management fees, are charged by the Funds from time to time, as set out in more detail in the term sheet relating to each Fund. That is, and until further notice to you, you will not be charged any other advisory or portfolio management fees in connection with your use of the Managed Investing Program, aside from the fees and charges set forth in this Schedule, as may be amended from time to time. However, management fees and other fees and expenses charged by the Fund are paid for by the assets invested in the Fund. Management fees and other fees and expenses charged to the Fund reduce the Fund's net asset value and investment returns. Over time, these fees can have a significant impact on the Fund's performance and on the overall value of an investor's investment, particularly when compounded over longer investment horizons.

If you choose to terminate the Managed Investing Program, your relationship with the Manager will also be terminated. In such event, the Manager will redeem any remaining Fund units held in your Investment Account and subsequently transfer the proceeds to your funding account, at no charge.

INTELLIGENTINVESTING

WEALTH MANAGEMENT INC.

The Manager reserve the right to charge, add, or increase fees in connection with the Managed Investing Program. In such event, the Manager will provide you with not less than 60-day Notice before charging or changing fees.

B. About us and the products and services we offer

IIWMI is registered as an Exempt Market Dealer ("EMD") and Portfolio Manager ("PM") in all Canadian provinces and territories, with the Autorité des marchés financiers ("AME") as our primary regulator. IIWMI is also registered as an Investment Fund Manager ("IFM") in Québec and Ontario.

When IIWMI acts as PM, IIWMI provides portfolio management services. The Investment Management Agreement you sign gives IIWMI full discretion over your investment account(s). PM services are a fee-based discretionary portfolio management services in registered and non-registered accounts. As PM, IIWMI is able to transact in a variety of different types of investments on your behalf, including public, prospectus-qualified securities, ETFs, investment funds, options (subject to applicable requirements), and exempt securities. IIWMI will invest and manage your account assets and investments in accordance with your account objectives and risk tolerance as provided by you.

When IIWMI acts as IFM, IIWMI manages an investment fund's operation (e.g., such as the IntelligentInvesting funds) and/or oversee management and/or work with asset managers to ensure the fund remains compliant and operates within the mandates disclosed in its offering documents.

As a client, you will deal with one or more of our Advising Representative (for PM Services), individuals who are appropriately registered to provide services relating to the securities that we offer. All securities are subject to IIWMI's Know Your Product process, which requires IIWMI to review new products and add them to IIWMI's approved list prior to offering them to its clients.

C. Conflict of interest

Securities regulations in Canada require all registrants to comply with certain rules in relation to conflicts of interest ("COIs"). While IIWMI seeks to avoid COIs whenever possible, COIs are an aspect of all relationships, both personal and business. As a part of our COI management process we provide you with information about the nature and extent of the COIs that may affect our relationship, and about how IIWMI addresses them in order to resolve them in your best interests.

INTELLIGENT INVESTING

WEALTH MANAGEMENT INC.

A “conflict of interest” is a situation in which an organization or a person is involved in multiple interests, financial or otherwise, and serving one interest could involve working against another. Typically, this relates to situations in which the interest of an individual or organization might adversely affect a duty owed to make decisions for the benefit of another. COIs are common in our personal and professional lives. As a regulated entity, IIWMI has a special responsibility to identify, disclose, and address COIs and potential COIs in its clients’ best interests. Where IIWMI is unable to address a COI in its clients’ best interests, it is required to avoid the COI altogether. This COI disclosure is intended to provide you with the information necessary for you to make an informed decision about your relationship with IIWMI. This COI disclosure addresses COIs general to many investment industry participants and some that are particular to IIWMI. Where there is a specific COI that applies to a subset of clients IIWMI may provide you with a separate supplementary disclosure. Not every COI or potential COI described in this document is applicable to you and their applicability will depend on the services you receive from IIWMI. We encourage you to ask us questions if you have any concerns.

Below is an alphabetical list of IIWMI’s identified COIs. This list will be reviewed regularly and updated as necessary.

1. Allocating Expenses to Investment Funds:

IIWMI manages investment funds and has an interest to allocate expenses to these funds to reduce its own costs, which is in conflict with the interest of unitholders. Additionally, there may be incentive to allocate expenses to one fund over another, to drive performance fees or for other reasons. While IIWMI is allowed to charge certain expenses, such charges are controlled by the funds’ offering documents and by applicable legislation.

2. Best Execution:

IIWMI could be incentivized to choose a broker/custodian based on a benefit IIWMI gains rather than the broker/custodian’s ability to provide best execution and other services for its clients. To control this COI, IIWMI reviews the best execution policies of its brokers/custodians on an annual basis to ensure they always offer best execution.

3. Compensation Practices:

IIWMI compensates its agents as a function of the revenue they generate for the firm. All compensation packages are pre-approved by a member of higher management. Clients pre-approve all fees and commissions.

4. Cross-Trading and Interfund Trading:

IIWMI acts as portfolio manager and dealer for many clients, ranging from individuals to institutions. IIWMI also manages in-house investment funds. Where one IIWMI client is a seller and another is a buyer in the same transaction (a “cross”), a potential COI arises. IIWMI needs to consider the interest of both sides of the cross to ensure each client is best served by such a transaction. The best interest of some clients could be put ahead of other clients due to misaligned incentives, such as earning performance fees in one of the accounts or prioritizing a larger client. Whenever IIWMI intentionally crosses a transaction, its Chief Compliance Officer (“CCO”) must review and approve the trade. In practice, crosses are rare for IIWMI.

5. Fair Allocation:

Where IIWMI participates in an offering that is limited (such as a “hot” new issue) it may have incentive to allocate shares unevenly due to performance fees, maintaining a key relationship, or other reasons. To control this potential COI IIWMI has a Fair Allocation policy. The Fair Allocation Policy is enforced by the Compliance Department.

6. Fees:

IIWMI or its representatives may have an incentive to maximize or overcharge fees. Since IIWMI and its advisors are generally compensated based on a percentage of the assets managed, they could be incentivized to adopt a strategy that is overly aggressive in the interest of growing their asset base inappropriately. To control this, IIWMI’s compliance department supervises and approves all fee arrangements and monitors client accounts for suitability. All management fees and charges, including those charged to funds managed by IIWMI are approved by the CCO. Proposed fees in excess of market standards will be appropriately addressed. IIWMI conducts a quarterly review of fees to ensure you are charged in accordance with the agreement you have entered into with IIWMI.

7. Gifts and Entertainment:

IIWMI and its agents can be influenced by gifts received from third parties. To control this potential COI, IIWMI requires that all gifts be reported to the Compliance Department for assessment. Gifts exceeding a materiality threshold of

\$100 are forbidden.

8. Investments in Related and Connected Issuers:

IIWMI offers a variety of products to its clients. Depending on the nature of your relationship with IIWMI, more or fewer products may be available to you. For example, if your relationship with IIWMI resulted from your initial relationship with IntelligentInvesting Financial Technologies Inc, which is IIWMI's parent company, then you will only be invested in IntelligentInvesting funds, which are proprietary to IIWMI. IntelligentInvesting funds are diversified, low-cost investment funds managed by IIWMI. IIWMI charges a 0.1% management fee annually to the funds.

IIWMI is a wholly owned indirect subsidiary of Orion Digital Corp. ("Orion Digital"), a public company listed on the TSX and the Nasdaq. Trades in Orion Digital stock are restricted, and IIWMI advisors are required to get pre-approval for any trades in Orion Digital (or in any derivatives of Orion Digital securities) on behalf of clients.

9. Outside Business Activities:

IIWMI advisors sometimes engage in business activities outside of their core responsibilities at IIWMI. Such activities may present a COI in terms of time commitment, potential for confusion on behalf of clients, or competing duties. IIWMI closely monitors and controls its advisors' outside business activities and requires pre-approval of such activities.

10. Personal Financial Dealings with a Client:

Personal financial dealings between a IIWMI representative and a client can present a COI for a variety of reasons. It can be difficult, or even impossible, for a IIWMI representative to discharge his or her professional responsibilities in both roles without compromising one or the other. It can also create an imbalanced relationship between the parties that could interfere in the proper provision of professional services by IIWMI. Serving on client boards of directors, lending to or borrowing from clients, serving as trustee, executor or liquidator, or purchasing and selling assets to and from clients can all be examples of situations that can lead to a COI. IIWMI prohibits any personal financial dealings with clients without the prior approval of the CCO.

11. Personal Trading:

IIWMI's employees' personal trading can create a COI because an employee could use confidential trading information for his or her own benefit. IIWMI controls this potential COI through a system of policies and procedures and by monitoring its employees' trading accounts for any unauthorized activity.

12. Pricing and Account Errors:

The resolution of pricing and account errors can potentially result in a COI if the process for resolving an error is unclear. IIWMI maintains a process for ensuring that pricing and account errors are resolved fairly and without creating an unfair advantage to IIWMI or an unfair disadvantage to the client.

13. Referral Arrangements:

Compensated referral arrangements create an inherent conflict of interest, because the party receiving the referral fee may be incentivized to make the referral because of the fee and not because such a referral is in the client's best interest. IIWMI has a process for ensuring that the parties to a referral agreement are qualified, are acting within their authority, and that the terms of the referral agreement are fair. If IIWMI pays or receives a fee or other advantage in connection with a referral, the specific details of that arrangement will be provided to you in a separate, customized disclosure document.

D. Related and Connected Issuers

As required by applicable securities legislation, IIWMI has the obligation to disclose certain information to its clients in respect of securities of *related issuers* or *connected issuers* of IIWMI when it acts as an adviser or when it has discretionary authority to act on behalf of clients.

An issuer of securities is "*related*" to IIWMI if, through the ownership of, or direction or control over voting securities, IIWMI exercises a controlling influence over that issuer, or that issuer exercises a controlling influence over IIWMI, or the same third party exercises a controlling influence over both IIWMI and the issuer. IIWMI is a wholly subsidiary of IntelligentInvesting Financial Technologies Inc.

An issuer is "*connected*" to IIWMI if due to indebtedness or other relationships a prospective purchaser of securities

of the connected issuer might question IIWMI's independence from the issuer.

You will find below the list of issuers that are related or connected issuers of IIWMI as of the date hereof, as well as a concise statement of the relationship between these issuers and IIWMI:

1. Limpid Three Strategies Fund - IIWMI acts as sub-adviser to the fund.
2. Each of the IntelligentInvesting Funds - IIWMI acts as Investment fund manager and portfolio manager to the funds.
3. Orion Digital Corp. – Orion Digital is the parent company of IIWMI.

Where a client deals in securities of a related issuer or, in the course of a distribution, of a connected issuer, monthly statement will indicate the relationship to IIWMI.

Where IIWMI acts as a portfolio manager it will, before acquiring discretionary authority in respect of the securities of a related issuer or, in the course of a distribution, of a connected issuer, provide the client with a copy of its current Statement of Policies Concerning Related and Connected Issuers and obtain the specific and informed written consent of the client to the exercise of the discretionary authority.

E. Account types and custody of assets

As further described below, you may open either non-registered or registered account(s) through which the securities we offer may be purchased, subject to any restrictions on either the security or the account type.

Where IIWMI acts as EMD: Exempt market securities are generally custodied by the relevant issuer. In such cases, IIWMI will not have access to your securities, and will not provide reporting to you after the date of the transaction (you will receive a transaction confirmation, and one account statement at the end of the quarter in which the transaction was made).

Where IIWMI acts as PM: Securities will be custodied by a third-party custodian. IIWMI will have access to your securities in order to provide you with discretionary portfolio management services. The custodians that we presently work with are referenced below, as applicable:

1. *Non-registered accounts not holding IntelligentInvesting Investment Fund units:* Securities held in non-registered accounts may be custodied by Fidelity Clearing Canada ULC or Interactive Brokers Canada Inc.
2. *Non-registered accounts holding IntelligentInvesting Fund units (i.e., IntelligentInvesting Users):* IntelligentInvesting investment fund units in Non-registered accounts are custodied by IIWMI, and not held by a third-party custodian.
3. *Registered Accounts:* Securities held in third-party self-directed registered plan (e.g. RRSP, SRRSP, RRIF, SRRIF, TFSA, LIRA, LIF, RESP, FHSA), are custodied by CI Investment Services Inc.
4. *IntelligentInvesting Investment Funds:* Assets of the IntelligentInvesting funds are custodied by Fidelity Clearing Canada ULC.

The custodians we have selected are qualified custodians under applicable securities laws. Each Custodian is independent of IIWMI, is required to segregate client assets from its own assets and is subject to regulatory oversight, minimum capital and insurance requirements. The Custodian may hold securities on behalf of the client in its name or as nominee of the client.

F. Our obligation to know our clients and assess trade suitability

IIWMI must determine that any investment action we take on your behalf or recommend is suitable for you and puts your interest first. To meet this obligation, we need to know certain things about you ("KYC information"). We will collect information on our Know Your Client ("KYC") form and any supplementary forms including, but not limited to, your address, date of birth, Social Insurance Number (SIN) or other tax identification number, tax residency, occupation, income, detailed financial position, specific investment objectives, risk tolerance, risk capacity, time horizon, and investment knowledge.

To comply with the *Proceeds of Crime (Money Laundering) and Terrorist Financing Act* and other relevant legislation, we take reasonable and appropriate measures to establish the identities of clients, persons authorized to give instructions, beneficial owners, and others, and we do not permit any trade until the identity of these persons is verified.

As required, a IIWMI Representative will make an assessment about whether (1) you are eligible to purchase a security (e.g., an exempt security we offer) and, (2) whether a purchase of a particular security is suitable for you based upon the KYC information

INTELLIGENTINVESTING

WEALTH MANAGEMENT INC.

we collected. We encourage you to provide full and accurate KYC information, as we will rely on it for determining suitability. We reserve the right to refuse to execute any purchase which we believe to be unsuitable. We may be unable to facilitate purchases for clients who do not provide the necessary information as securities regulators require that we collect this information and use it to conduct our eligibility and suitability assessments. We will provide you with a copy of the completed KYC form, along with other disclosure documents that apply to your account(s).

We will ensure that the information on your KYC form is updated if the form was completed more than 12 months earlier or if we become aware of a material change in your information that could affect what type of investments are suitable for you (e.g. a change in your income, investment objectives, risk tolerance, risk capacity, time horizon, net worth, etc.).

G. Operating and transaction charges

IntelligentInvesting users are charged a Monthly Fee, as described in Schedule A to this Agreement. Fees and charges may apply for other services provided by the Manager as described in the Manager's fee schedule.

Investment funds generally charge management and operating expenses. Additional information relating to fees and charges charged by each investment fund is included in the issuer's offering documentation.

Ongoing fees can reduce the value of your investment portfolio. This is particularly true over time, because not only is your investment balance reduced by the fee, but you also lose any return you would have earned on that fee. Over time, even ongoing fees that are small can have an impact on the value of your investment portfolio.

Should we determine in the future to increase our fees or charge new fees, you will receive at least 60 days advance written notice.

H. Reporting you will receive

We will send you the following client reporting (when and if applicable as described):

Trade Confirmations: A trade confirmation will include the details of the transaction (e.g. security name, quantity, price, etc.) and any transaction charge or redemption charge paid with respect to a transaction in your account. As your Investment Account is fully managed, you will not automatically receive transaction confirmations.

Account Statements: The custodian of your account(s) will generally provide transaction statements at the end of the month in which a transaction was made. Otherwise an account statement will minimally be provided quarterly. The account statement will include the transaction details (e.g. date, security name, number of shares transacted, purchase price, total value of the transaction) for all transactions which occurred within the period covered by the statement. Certain exempt market issuers will provide you with ongoing account statements on a quarterly basis. Client having accounts with multiple custodians will receive a consolidated statement from IIWMI on a monthly or quarterly basis (depending on activity in the account(s)). IntelligentInvesting users will receive IIWMI monthly statements via the App., which includes the statement and materials prepared by CI Investment Services Inc.

Annual Compensation and Charges Report: When you open a managed account, you will receive an Annual Compensation and Charges Report setting the fees and charges charged to your account in the previous year. For clients effecting exempt markets transactions only, you will not receive this report as, due to the nature of our relationship with you, we are not required to send this report to you.

Annual Investment Performance Report: When you open a managed account, you will receive an Annual Investment Performance Report setting out the performance of your account in the previous year. For clients effecting exempt markets transactions only, you will not receive this report unless, due to the nature of our relationship with you, we are required to send this report to you.

I. Using borrowed money (leverage) to invest

Using borrowed money to finance the purchase of securities involves greater risk than using cash resources only. The purchase of securities using borrowed money magnifies the gain or loss on the cash invested and this effect is called leveraging. If you borrow money to purchase securities, your responsibility to repay the loan and pay interest on the loan as required by its terms remains the same even if the value of the securities purchased with the borrowed money declines.

A general description of the types of risks that a client should consider when making an investment decision is included in Schedule D to your Investment Management Agreement.

J. Benchmarks

From time to time, the performance of your investments may be compared to an investment performance benchmark. Benchmarks show the performance over time of a select group of securities or indexes. When choosing a benchmark, best practice dictates to choose a benchmark that reflects the investment policy relating to an account. For example, the S&P/TSX Composite Index tracks the share prices of the largest companies listed on the Toronto Stock Exchange. This index would be a good benchmark for assessing performance of an investment policy that invests only in large Canadian companies. It would be a poor benchmark if your investments are diversified in other products, sectors or geographic areas. IIWMI does not generally provide benchmark comparisons in our account reporting unless your advisor has elected to do so. If your advisor does elect to include one or more benchmarks as part of your account reporting, additional information relating to the benchmark(s) in question will be disclosed to you at the time of account opening. Please speak to your investment advisor if you have questions about the performance of your portfolio or what benchmark(s) might be appropriate for you.

K. Referral arrangements

IIWMI will advise you in writing where a referral arrangement is applicable to your situation.

L. Complaint process and dispute resolution

We encourage you to direct any complaint you have about IIWMI to our Chief Compliance Officer so we may have the opportunity to resolve your complaint, by telling us what went wrong, when it happened, and what you expect to happen as a resolution.

Supplemental information relating to IIWMI's Client Complaints and Mediation Services, including our obligations to you is included in Schedule "C" to your IIWMI Investment Management Agreement. Complaint should be directed to IIWMI's Chief Compliance Officer in the manner set out in Schedule "C" to your IIWMI Investment Management Agreement.

M. Our privacy policy

At the time of account opening and on an ongoing basis, clients disclose personal and confidential information to IIWMI, including personal identification and financial information. We retain this information in a secure manner for extended periods as required by industry regulations, in paper and/or electronic form. Our staff (whether employees, agents, directors, or officers) will comply with all legislation and our privacy policy in connection with the collection, use, and protection of such information. IIWMI has adopted a Privacy Policy, which Privacy Policy is available on the website (<https://IntelligentInvesting.ai>).

In certain circumstances, IIWMI may be required to disclose your personal information, including as the result of judicial or other government or regulatory requests or orders. We may also be required to disclose your account information to the Canada Revenue Agency or to international tax authorities. For example, as a result of FATCA (Foreign Account Tax Compliance Act) and CRS (Common Reporting Standard), information related to U.S. Persons and tax residents of countries outside Canada may be transmitted to the CRA who, in turn, shares this information with the IRS (for the U.S.) or other country's tax authority.

Should IIWMI become aware or suspect that an account is engaged in money laundering or terrorist financing, it is our duty to report to the Financial Transactions and Reports Analysis Centre of Canada ("FINTRAC") and law enforcement. This reporting will not be deemed a breach of our privacy policy or any other prohibition that is imposed by law or otherwise.

IIWMI has entered into agreements with related entities and third-party service providers to provide services or access to systems that are needed for us to offer exempt market dealer or portfolio management services to you. These agreements contain confidentiality clauses covering the use of your personal information.

N. Principle of Fair Allocation of Investment Opportunities

In order to ensure fairness in the allocation of investment opportunities among managed funds and other client portfolios, IIWMI will allocate investment opportunities on a generally pro rata basis, with consideration to the prime determinants of market exposure, cash availability, and the fair allocation of transaction costs to each of the relevant Accounts. This Allocation Policy applies to all Accounts managed by IIWMI. No Account will receive preferential treatment over any other.

Where an investment opportunity is suitable for two or more Accounts, IIWMI will allocate such investment opportunity equitably in order to ensure that (i) Accounts have equal access to the same quality and quantity of investment opportunities, (ii) investments purchased for different Accounts are fairly allocated on the basis of price or otherwise sold without giving preference to one Account over another, and (iii) transaction costs paid by each Account in connection with such investments are fairly allocated to each relevant Accounts in light of the nature of the investment opportunity and the size of the Accounts.

O. Proxy Voting

In general, the Firm will not vote proxies on behalf of its clients. Considering the relatively small size of the Firm's investments in proportion to the companies it typically invests in, the small size of the individual position sizes, and the different investment approaches by each portfolio manager, IIWMI has determined, on a cost/ benefit basis, that its clients are better served by having

their Advising Representatives spending their time completing portfolio and security analysis rather than analyzing how to vote proxies. Considering that voting proxies would not, in the overwhelming majority of situations, have a material impact on the results, IIWMI has determined that there is no added value to the client for voting proxies. IIWMI's custodians have no clear procedures to allow us to vote proxies on behalf of its clients.

P. Providing Trusted Contact Person information

In order to help protect you from financial exploitation, abuse and fraud, we will request that you provide us with the name and contact information of a trusted contact, and authorize us to contact this person and to release confidential information about you or your account(s) to the trusted contact if we believe that financial exploitation, abuse or fraud has occurred, is occurring or may be attempted, or we have concerns about your decision-making capacity. Although you are not required to provide us with a trusted contact, by providing us with a trusted contact you are enabling us to help protect your interests.

A trusted contact is typically a reliable friend, family member or other individual of your choosing who you believe has your best interest in mind and who can speak to us about your health, mental capacity, and your financial circumstances where we suspect financial exploitation, abuse or fraud or we have concerns about your decision-making capacity.

You may provide us at any time with the contact information of a trusted contact. We will provide you with a form for this purpose which contains additional information about trusted contacts. We will only contact the trusted contact if financial exploitation, abuse, or fraud is suspected, or we have reason to believe that you have diminished or loss of mental capacity. We may also reach out to your trusted contact if we are unable to reach you and are seeking your current contact information. It is up to our discretion whether or not to contact your trusted contact person.

Q. Temporary holds on your account

If we have reasonable belief that financial exploitation or fraud has occurred, is occurring, or will be attempted on your account, or if we have a reasonable belief that your judgement as it relates to your accounts may be impaired, we may place a temporary hold on your account. A temporary hold is not intended to be a hold on your entire account, but rather, over a specific purchase or sale of a security or transfer of cash from your account. Transactions unrelated to suspected financial exploitation, fraud, or lack of mental capacity as it relates to decision-making for your accounts will not be subject to the temporary hold. If a temporary hold has been placed on any part of your account, you will be notified by us as soon as possible after placing the hold and we will provide our reasoning for placing the temporary hold. Holds can be placed up to 30 days, after which period, they can be extended for subsequent 30-day periods and, if so, we will provide you with our reasons to continue the hold.

R. Wealth calculator

The App includes a wealth calculator designed to provide you with information relating to your wealth building over time based on your Account, as well as scheduled recurring deposits and lump sum deposits made to your Account. The savings estimates provided by the wealth calculator are based on your expected time horizon for contributions using historical S&P returns and other assumptions selected by IIWMI. The calculator allows you to see the impact of the changes you make on the amounts you accumulate over time. The wealth calculator is not financial advice; it is for illustrative purposes only and the results are estimates. The calculator may be useful to you in helping you estimate how much you need for retirement, but it has limitations. For example, the calculator does not anticipate or take into account future changes to government retirement programs, the timing of any withdrawals from your account or tax rates. Also, rates of return on investments may vary based on your risk profile, and are never guaranteed.

The rate of return included in the calculator is derived using the following assumptions: This projection is based on Equity Growth investment model, which is 100% invested in the S&P 500. It assumes a 10% rate of annual return, based on the S&P 500's average return since its inception over the past 65 years, with dividends reinvested. Past performance is no guarantee of future results. The actual returns may vary.

S. Liquidity Considerations

Most of the securities that IIWMI will invest in on your behalf are prospectus-qualified, public securities with established markets. In general, IIWMI does not expect that it would be restricted from liquidating these securities. If IIWMI invests in securities with less liquidity, such as private securities, there may be restrictions preventing IIWMI from being able to liquidate these securities, such as the lack of an available liquid market.

When filing a complaint, the client is required to complete the "AMF Complaint or Allegation Reporting Form" (available on the IIWMI Website). This ensures that the client is providing all the necessary information for IIWMI to review the complaint. The Client should also keep copies of all relevant documents, such as the complaint form, letters, emails and notes of their conversations with IIWMI.

2. ASSISTANCE WITH YOUR COMPLAINT (FOR CLIENTS RESIDING IN QUEBEC ONLY)

If a Client requires assistance, they can send their complaint directly to the AMF by completing and signing:

The AMF would then forward your documents to IIWMI and assist the Client through the complaint process.

3. ACKNOWLEDGING YOUR COMPLAINT

IIWMI will acknowledge the Client complaint in writing as soon as possible, typically within five (5) business days of receiving the complaint. In the acknowledgment letter, IIWMI may ask the Client to provide clarification for more information to help resolve the complaint/dispute as soon as reasonably possible. IIWMI will also inform the Client of mediation services offered based on the client's province of residence.

4. RENDERING A DECISION

IIWMI will normally provide a decision in writing, within 90 days of receiving a complaint. The decision will include a summary of the complaint, results of the investigation, decision to make an offer to resolve the complaint or deny it, and an explanation of our decision. Once OBSI has completed its investigation, it will provide its recommendations to the Client and IIWMI. OBSI's recommendations are not binding on the Client and IIWMI. OBSI can recommend compensation of up to \$350,000. This does not restrict the Client's ability to take a complaint to a mediation service of their choosing at their own expense, or to bring an action in court. Keep in mind there are time limits for taking legal action.

The Client has the right to use OBSI's service if:

- The complaint relates to a trading or advising activity by IIWMI or of their representatives;

SCHEDULE D RISK DISCLOSURE STATEMENT

PLEASE READ THE IMPORTANT INFORMATION BELOW

This brief statement does not disclose all of the risks and other significant aspects of trading in securities, including investments made in investment funds, equities, fixed income, exchange-traded funds, futures and options. Clients should note that these are risk generally applicable to trading securities and may not necessarily apply to a Managed Investing Program account.

1. INVESTMENT AND TRADING RISKS IN GENERAL

All trades made in a Client's Account risk the loss of capital. No guarantee or representation is made that trades made by IIWMI in Client's Account will be successful, and the value of any investment in your portfolio may vary substantially over time. Many unforeseeable events, including actions by various government agencies, and domestic and international economic and political developments may cause sharp market fluctuations that could adversely affect the value of a Client's portfolio and its performance.

2. GENERAL ECONOMIC AND MARKET CONDITIONS

The success of the Client's portfolio's activities and its value may be affected by general economic and market conditions, such as interest rates, availability of credit, inflation rates, economic uncertainty, changes in laws and regulations, and national and international political circumstances. These factors may affect the level and volatility of securities prices and the liquidity of the Investment Portfolio's investments. Unexpected volatility or illiquidity could impair the Investment Portfolio's profitability or result in losses.

3. EXCHANGE TRADED FUNDS

IIWMI will invest a significant portion of your Portfolio with exposure to exchange-traded funds ("ETFs"). Investing in ETFs may be used by IIWMI to diversify investments while reducing fees. The value and performance of ETFs may however be affected by general economic and market conditions, such as interest rates, availability of credit, inflation rates, economic uncertainty, changes in laws, and national and international political circumstances. ETFs are redeemable only in creation units and may not be individually redeemed. They are redeemable only through authorized participants, and on an "in-kind" basis. The public trading price of a redeemable lot may be different from its net asset value. Also note that ETFs can trade at a discount or premium to the net asset value, and there is always a fundamental risk of declining stock prices, which can cause losses to your portfolio.

ETFs are subject to market risk, including the possible loss of principal. The value of the portfolio will fluctuate with the value of the underlying securities. ETFs trade like a stock, and there will be brokerage commissions associated with buying and selling exchange traded funds unless trading occurs in a fee-based account. ETFs may trade for less than their net asset value. Diversification does not ensure a profit and may not protect against loss in declining markets.

NOTE: Managed Investing Program clients will not be invested in leveraged or inverse ETFs.

Most leveraged and inverse ETFs "reset" daily, meaning that they are designed to achieve their stated objectives on a daily basis. Due to the effect of compounding, their performance over longer periods of time can differ significantly from the performance (or inverse of the performance) of their underlying index or benchmark during the same period of time, and as such, are not meant to be held for the long term. This effect can be magnified in volatile markets.

4. FIXED INCOME SECURITIES

Bonds or other fixed income securities, including, without limitation, bonds, notes and debentures issued by corporations, debt securities issued or guaranteed by the federal, state or provincial government in the United States or Canada or a governmental agency, and commercial paper pay fixed, variable or floating rates of

interest. The value of fixed income securities will change in response to fluctuations in interest rates. In addition, the value of certain fixed-income securities can fluctuate in response to perceptions of credit worthiness, political stability or soundness of economic policies. Fixed income securities are subject to the risk of the issuer's inability to meet principal and interest payments on its obligations (i.e., credit risk) and are subject to price volatility due to such factors as interest rate sensitivity, market perception of the creditworthiness of the issuer and general market liquidity (i.e., market risk). If fixed income investments are not held to maturity, the value of your Portfolio may suffer a loss at the time of sale of such securities.

5. DERIVATIVES

NOTE: Managed Investing Program clients will not be invested in derivative financial instruments.

Derivative financial instruments include, without limitation, options, swaps, futures, notional principal contracts, contracts for differences, futures and forward contracts, interest rate swaps, and cross-currency swaps and derivative techniques for hedging and for trading purposes, including for the purpose of obtaining the economic benefit of an investment in an entity without making a direct investment. The risks posed by such instruments and techniques, which can be extremely complex, include, in addition to the risks outlined above: (i) legal risks (i.e. the characterization of a transaction or a party's legal capacity to enter into it could render the financial contract unenforceable, and the insolvency or bankruptcy of a counterparty could preempt otherwise enforceable contract rights); (ii) operations risk (i.e. inadequate controls, deficient procedures, human error, system failure or fraud); (iii) documentation risk (i.e. exposure to losses resulting from inadequate documentation); (iv) liquidity risk (i.e. exposure to losses created by inability to prematurely terminate the derivative or a cease trade order being issued in respect of the underlying security); (v) investment risk arising from the disappearance of any conversion premium due to premature redemptions, changes in conversion terms or changes in issuer's dividend policy; and (vi) lack of liquidity during market panics. Although a derivative hedge reduces risk, it does not eliminate risk entirely. Use of derivatives for hedging purposes involves certain additional risks, including (i) dependence on the ability to predict movements in the price of the securities hedged; (ii) imperfect correlation between movements in the securities on which the derivative is based and movements in the assets of the underlying portfolio; and (iii) possible impediments to effective portfolio management or the ability to meet short-term obligations because of the percentage of a portfolio's assets segregated to cover its obligations. In addition, by hedging a particular position, any potential gain from an increase in value of such position may be limited.

6. LEVERAGE

NOTE: Managed Investing Program clients will not use leverage.

Financial leverage is used by borrowing funds against assets, including assets of your Investment Portfolio. Leverage increases both the possibilities for profit and the risk of loss for your Investment Portfolio. From time to time, the credit markets are subject to periods in which there is a severe contraction of both liquidity and available leverage. The combination of these two factors can result in leveraged strategies being required to sell positions typically at highly disadvantageous prices in order to meet margin requirements, contributing to a general decline in a wide range of different securities. Illiquidity can be particularly damaging to leveraged strategies because of the essentially discretionary ability of dealers to raise margin requirements, requiring leveraged strategy to attempt to sell positions to comply with such requirements at a time when there are effectively no buyers in the market at all or at any but highly distressed prices. These market conditions have in the past resulted in major losses.

7. OPTIONS

NOTE: Managed Investing Program clients will not be invested in options.

Purchasing and selling call and put options is a highly specialized activity and entails greater than ordinary investment risk. The risk of loss when purchasing an option is limited to the amount of the purchase price of the option, however investment in an option may be subject to greater fluctuation than an investment in the underlying security.

8. SHORT SALES

NOTE: Managed Investing Program clients will not engage in short sales.

Selling a security short ("shorting") involves borrowing a security from an existing holder and selling the security in the market with a promise to return it at a later date. Should the security increase in value during

the shorting period, losses will incur. There is in theory no upper limit to how high the price of a security may go. Another risk involved in shorting is the loss of a borrow, a situation where the lender of the security requests its return. In cases like this, IIWMI must either find securities to replace those borrowed or step into the market and repurchase the securities. Depending on the liquidity of the security shorted, if there are insufficient securities available at current market prices, IIWMI may have to bid up the price of the security in order to cover the short position, resulting in losses to your Portfolio. Moreover, the borrowing of securities entails the payment of a borrowing fee. There is no assurance that a borrowing fee will not increase during the borrowing period, adding to the expense of the short sale strategy.

9. INTEREST RATE RISK

IIWMI may hedge term interest rate risk through the use of short government positions and/or interest rate swaps. Hedging relationships can break down for large moves in underlying rates, and may require regular re-balancing. To the extent IIWMI elects not to, or is unable to completely hedge our interest rate risk, a client's Investment Portfolio may be adversely impacted by movements in interest rate risk.

10. CURRENCY AND EXCHANGE RATE RISK

NOTE: The Manager expects to mitigate exchange rate risk for Managed Investing Program clients by investing in Canadian Dollar hedged ETF's when appropriate.

From time to time, some or all of the assets in a Client's investment portfolio may be invested in assets denominated in currencies other than Canadian dollars. There is a risk that the value of assets will fall as a result of changes in foreign currency exchange rates, whether or not the value of the assets or investments, as measured in their respective currencies, goes up. IIWMI may, but is not required to, hedge any foreign-currency investments against the Canadian dollar.

11. COUNTERPARTY AND SETTLEMENT RISK

Some of the markets in which the IIWMI will invest your Investment Portfolio may be made on "over the counter" or "interdealer" markets. The participants in such markets are typically not subject to credit evaluation and regulatory oversight as are members of "exchange-based" markets. This exposes your investment portfolio to the risk that a counterparty will not settle a transaction in accordance with its terms and conditions because of a dispute over the terms of the contract or because of a credit or liquidity problem, thus causing your investment portfolio to suffer a loss. In addition, in the case of a default, your investment portfolio could become subject to adverse market movements while replacement transactions are executed. Such "counterparty risk" is accentuated for contracts with longer maturities where events may intervene to prevent settlement, or where the investments are concentrated with a single or small group of counterparties.

12. CUSTODY RISK AND CUSTODIAN OR DEALER INSOLVENCY

In the case of IIWMI clients having opened a separately managed account: Your Account assets and cash will generally be held by an independent, qualified third-party custodian under the terms of a separate agreement you have entered into directly with such custodian. All client assets and cash will generally be held in an account in your name by a single qualified Canadian custodian, although more than one such custodian may be utilized in special circumstances. Such assets are, subject to applicable regulatory requirements, held separate and apart from the custodian's own property. This means such client assets are not at risk in the context of IIWMI's bankruptcy or business failure. This does however mean client assets may be at risk of any such custodian's bankruptcy or business failure, as well as to any failure by such custodian to comply with applicable regulatory requirements, in particular segregation requirements relating to fully paid securities. Assets traded on non-Canadian exchanges or alternative trading systems may, where these cannot be held by a qualified Canadian custodian, be held by a foreign sub-custodian at the direction of your Canadian custodian. Such assets are therefore at risk of any such sub-custodian's bankruptcy or business failure, as well as to the application of the laws and regulatory requirements of such foreign countries, as these may be amended from time-to-time. Assets held by a foreign custodian may also result in potential difficulties associated with a client's ability to enforce his/her legal rights, and the difficulty that the client may face in respect of repatriating assets further to the bankruptcy or insolvency of the foreign custodian, dealer or sub-custodian.

IIWMI will have access to your assets and cash for the purpose of executing transactions on your behalf and

INTELLIGENTINVESTING

WEALTH MANAGEMENT INC.

generally investing your investment portfolio in accordance with the terms of your Investment Management Agreement and Investment Policy Statement. In accordance with your instructions, IIWMI may request that your custodian issue you cheques or electronic fund transfers ("ETFs") to be drawn on your Account, but may not modify your payment delivery instructions, meaning that cheque and ETF will only be sent by the custodian in accordance with your written instructions on file with such custodian.

In the case of IIWMI clients having a Managed Investing Program account: Your Account may hold cash or securities namely units of investment funds managed by IIWMI exclusively for clients of the Managed Investing Program ("IntelligentInvesting Funds"). The trustee of the IntelligentInvesting Funds is TMX Trust Company. IIWMI, acting as investment fund manager of the IntelligentInvesting Funds, will hold cash in trust for you for very short periods of time, namely before a subscription is made to units of IntelligentInvesting Funds on your behalf following a deposit by you to your Account, or immediately after a redemption of units is processed to your Account. This cash is always held in a designated trust account held at a Canadian financial institution or Schedule III bank. All such moneys are segregated from IIWMI's property and cash. The banks currently used for this purpose are the Bank of Nova Scotia and the Royal Bank of Canada, though others could be used in the future.

IIWMI, acting as investment fund manager of the IntelligentInvesting Funds, holds all units of the IntelligentInvesting Funds for recordkeeping and administration purposes. IIWMI does not have custody of the underlying cash and assets held by each IntelligentInvesting Fund. The securities and cash invested in each IntelligentInvesting Funds are held in one or more accounts in the name of each respective IntelligentInvesting Fund, which are maintained by Fidelity Clearing Canada ULC or other independent and qualified Canadian custodians as determined by IIWMI. This means your cash and assets held in a Managed Investing Program account are not at risk in the context of IIWMI's bankruptcy or business failure. IIWMI, acting as portfolio manager, is responsible for the management of each IntelligentInvesting Fund and the relevant investment decisions relating to each such fund, including the location where the Intelligent Investing Funds' underlying assets are held.

All custodians are subject to various laws and regulations in various jurisdictions that are designed to protect their customers in the event of a custodian's bankruptcy or insolvency. However, the practical effect of these laws and their application are subject to substantial limitations and uncertainties. Because of the large number of entities and jurisdictions involved, and the range of possible factual scenarios involving the bankruptcy or insolvency of a custodian, sub-custodians, agents or affiliates, it is impossible to generalize about the effect of their insolvency on a client's Portfolio, Account or assets. Clients should assume that the insolvency of any custodian, sub-custodians or such other service providers would result in the loss of all or a substantial portion of the assets held by or through such parties and/or the delay in the payment of withdrawal proceeds.

13. CONCENTRATION

While there are compliance rules restricting IIWMI's ability to concentrate investments in your Portfolios in a single investment, industry or market, in practice changes in asset values could cause your Portfolios to become over-concentrated and thus the Investment Portfolio's returns could be materially affected by the performance of a single investment, industry or market.

14. LIQUIDITY RISK

In some circumstances the markets in which securities are traded can be illiquid thereby making it difficult to acquire or dispose of investments at prices quoted on the relevant exchanges. In addition, the suspension by an exchange of trading in a particular market could make it impossible for positions to be realised and could thereby expose the Portfolio to losses.

15. INVESTMENT FUNDS

Specific risks are associated with each investment funds. Such risk are set forth in detail in the prospectus or offering documentation of each such investment fund.

16. EXPENSE RISK

All fees and expenses charged to your account have the effect of reducing your investment returns. Over

INTELLIGENT INVESTING

time, compounding can amplify the effect of fees and expenses. Over a long period of time, overpaying for investment advice can erode your expected returns.
